Chittagong Collectorate, the 11th April 1885. A. MANSON, Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estate, situate in the district of Bhagulpore, will be put up to sale at the Bhagulpore Collectorate on Saturday, the 6th June 1885, corresponding with 9th Jaith 1292 Fusli.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price.

The purchaser of this estate will be considered as the proprietor of the estate and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Municipality of Madras.

DEBENTURE LOAN.

UNDER section 209 of (Madras) Act I of 1884, the Governor in Council of Fort St. George has given sanction in order No. 487, Financial, dated 9th March 1885, and in order No. 11M, dated 10th April 1885, for a Debenture Loan of three hundred thousand rupees on the security of the rates and taxes levied under the said Act. The Municipal Commissioners are therefore prepared to receive tenders for this loan, which will be expended in carrying out the drainage project in Black Town.

2. Debentures will be issued for the said amount bearing interest at the rate of five per cent. per annum payable half-yearly on the 18th September and 18th March of each year, and having a currency of thirty years.

3. The form of Debenture Bonds will be that given below. Each Debenture will be issued for the sum of Rs. 100, or some multiple of Rs. 100.

4. Tenders for the whole or any part of the above named sum of three hundred thousand rupees will be received by the President of the Municipal Commission up to noon on the 18th July 1885.

5. Each tender should be in the form hereto annexed and enclosed in a sealed cover superscribed "Tender for Municipal Loan, 1885," and sent to the Municipal Office addressed to "The President, Municipal Commission, Madras."

6. The tenders will be opened by the President at the Municipal Office at noon on the 18th July 1885; a minimum rate, below which no tenders will be accepted, having first been fixed by the President.

7. Parties tendering must pay direct to the President or into the Bank of Madras to the credit of the Municipal Fund, or must deposit with Messrs. H. S. King & Co., 45, Pall Mall, London, S.W., a sum equivalent to two per cent. of the amount tendered. If the deposit be paid into the Bank of Madras or lodged with Messrs. H. S. King & Co., the banker's receipt must be forwarded with the tender.

8. If the tender be accepted, the deposit will be taken in part payment, but it will be forfeited if, after the acceptance of the tender, the allotment is not fully paid up on or before the 18th September 1885.

9. Debentures will be issued as soon as possible after receipt of the amount of allotment.

10. The deposit on tenders which may not be accepted will be returned on application.

11. In the case of two or more tenders at the same rate (not being below the minimum), a *pro ratâ* allotment will, if necessary, be made.

12. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

13. In order to avoid mistakes, a separate tender must be made at each rate tendered and a separate deposit must accompany each tender.

14. The annual income from the rates and taxes, which will form the security for the loan, amounts to Rs. 7,90,000. Loans which have already been raised on the same security are as follows:—

	Annually. Rs.	
Water Works Loan of 1869, Rs. 14,30,000, interest at 4 per cent., payable to Government ...	57,200	Repayable in 30 years by a Sinking Fund, at 2 per cent.
Market Loan of 1879, Rs. 20,000, interest at 6 per cent., payable to debenture-holders	1,200	Ditto ditto.
Water Works Loan of 1882, Rs. 25,000, interest at 5 per cent., payable to debenture-holders ...	12,500	Ditto ditto.
Drainage Loan of 1882, Rs. 1,00,000, interest at 5 per cent., payable to debenture-holders ...	5,000	Ditto ditto.
Drainage Loan of 1883, Rs. 3,00,000, interest at 5 per cent., payable to debenture-holders ...	15,000	Ditto ditto.
Total ...	90,900	

G. T. MACKENZIE, President.

Municipal Office, Madras, 24th April 1885.

FORM OF TENDER.

I hereby tender for Rupees of the loan advertised in the notification of the President of the Madras Municipality, dated 24th April 1885, and agree to pay the same subject to the conditions notified at the rate of Rupees for every Rs. 100 allotted to me. I enclose (a cheque, currency notes or the banker's receipt for) Rupees , being 2 per cent. on the amount of my tender, and engage, if my offer be accepted, to pay to the account of the Municipal Fund in the Bank of Madras the sum allotted to me on or before the 18th September 1885.

RESOLUTION ON THE ESTABLISHMENT OF AN AGRICULTURAL DEPARTMENT IN BENGAL.

REVENUE DEPARTMENT—LAND REVENUE.

RESOLUTION.

Darjeeling, the 2nd May 1885.

READ—

The letter No. 309T—R, dated 1st June 1883, to the Government of India, proposing the establishment of an Agricultural Department in Bengal.

The letter from the Government of India, Revenue and Agricultural Department, No. 433A, dated 20th May 1884, forwarding, for information of the Government of Bengal, copy of a despatch from the Secretary of State, regarding the establishment of an Agricultural Department in Bengal.

The Resolution of the Government of India, No. 6—340-50G, dated 8th December 1881, on the general subject of Agricultural Departments under Provincial Governments.

In the letter first cited in the preamble, the Lieutenant-Governor took the opportunity of tracing the institution of Agricultural Departments in India, and of discussing the history of agricultural and statistical enquiry in Bengal. His object was to establish, by an appeal to specific facts, the applicability to these Provinces of the recommendations which the Famine

Commissioners had urged, and which Her Majesty's Government had approved, in regard to other portions of the Empire. The recommendations of the Famine Commissioners, as approved by the Secretary of State, were broadly—

1st.—The collection and embodiment in convenient forms of the statistics of vital, agricultural, and economic facts.

2nd.—The general improvement of Indian agriculture with a view to increasing the food-supply and general resources of the people.

3rd.—The organization of famine relief.

2. With the third recommendation, the letter of the 1st June cited above was not concerned; but on the other two heads the views of this Government were explained at length, and specific proposals submitted for approval.

3. The Lieutenant-Governor's proposals for the creation of an Agricultural Department in Bengal were considered by the Government of India in their despatch of the 25th September 1883 to the Secretary of State, in which a general support was accorded to them. The proposals fell under two main heads—Agricultural Research and Agricultural Improvement. In his recommendations under the head of *Agricultural Research*, Sir Rivers Thompson had laid special stress on the necessity of providing a local agency for the ascertainment of agricultural facts and for the maintenance of village records of rights. Following the Famine Commission, he had dwelt upon the impossibility of acquiring, in a continuous and methodical way, any trustworthy statistical information in Bengal owing to the want of proper agency for the purpose; and, as an additional reason in support of his views, he had pointed to the absolute necessity of establishing such an agency if due effect was to be given to those salutary provisions of the Tenancy Bill which deal with surveys and records of rights. On all these points His Excellency in Council accepted the views of this Government, and represented to the Secretary of State the great desirability of reorganizing the old indigenous system of village accountants. In his recommendations regarding the question of *Agricultural Improvement*, Sir Rivers Thompson had indicated in some detail the duties which would devolve on an Agricultural Department in dealing with that question, and also in promoting the more enlightened administration in Government and Court of Wards' Estates. On this head also the Lieutenant-Governor's proposals received the general support of the Government of India.

4. The proposals submitted by this Government, with the recommendations of the Government of India, were considered by the Secretary of State in his despatch of the 10th April 1884, cited in the preamble. In that despatch the opinion is expressed that a general field survey of Bengal, and the establishment of a system of detailed village records, would be most beneficial; but the Secretary of State was unable to sanction an undertaking of such magnitude until put in possession of fuller information as to the methods to be adopted in carrying it into execution, the expenditure likely to be incurred, and the difficulties that would have to be met. In like manner, while confirming the approval with which his predecessors had regarded the prosecution of surveys and records of rights in Government and Wards' Estates, Lord Kimberley desired that before any active steps were taken to establish a separate agency to supervise such surveys, or to create an agency to maintain their results, he might be furnished with detailed information on specified points, as to the mode of carrying such operations into effect. But while thus deprecating, until further information was supplied, the inception of some of the operations devised by this Government under the head of Agricultural Research, the Secretary of State admitted the "importance of providing the Lieutenant-Governor with the requisite agency for advising the Government generally on all matters relating to agriculture and statistics, as well as for undertaking the preliminary enquiries which the Lieutenant-Governor may consider necessary in connection with the experimental field survey in the Patna Division, and the enquiries mentioned in paragraph 7" (that is, enquiries in connection with the creation of a village agency of account in Government and Wards' Estates. His Lordship remarked that "in the absence of these means of obtaining a satisfactory knowledge of the agricultural statistics of Bengal, which are supplied by the revenue organization of other Provinces, it is all the more desirable that every effort should be made to supply this essential requisite of good government.

5. These orders were communicated to the Bengal Government with the letter of the 28th May 1884, referred to in the preamble, and at the same time certain important instructions on the subject-matter of those orders were conveyed for the Lieutenant-Governor's information and guidance. In the first place sanction was given by the Government of India to the appointment for two years of a special officer to advise the Lieutenant-Governnor in matters relating to agriculture and statistics; to undertake the preliminary enquiries in connection with the experimental field survey of the Patna Division which has been sanctioned by the Secretary of State, and to assist in obtaining the detailed information called for by the Secretary of State in regard to the creation of a local agency of record in Wards' and Government Estates. Sanction was also given to the appointment of an officer for one year to take charge of the Government estates in the Shahabad district, in connection with the scheme of agricultural improvement sketched by the Lieutenant-Governor in the letter of the 1st June 1883.

6. Having thus accorded a limited sanction to the Lieutenant-Governor's proposals, the Government of India proceeded to indicate the direction in which action on such sanction might be taken by the Government of Bengal, and to specify the points upon which further information was required. Preserving the main distinction specified in paragraph 3 above, it may be stated that, under the head of *Agricultural Research*, the Government of India desired to know (1) the matured views of the Government of Bengal on the proposed experimental survey in Behar, and the various questions, legislative and executive, which arise in connection with it; (2) the name of the officer whom the Lieutenant-Governor proposed to appoint as the adviser to Government on Statistical and Agricultural matters; and (3) the instructions which might be given him (*a*) in connection with the experimental field survey in the Patna Division, (*b*) in connection with similar operations in Government and Wards' Estates. It was, however, anticipated* that on this last-mentioned point information might not be available, nor a reply possible, until the two years' experimental period had expired, for which the appointment of the special officer had been sanctioned.

* Paragraph 9 of the letter of the Government of India of 28th May 1884.

Under the head of *Agricultural Improvement* a general expression of the Lieutenant-Governor's views was invited by the Government of India, while special attention was called to the possibility of making use of the services of Cirencester graduates in any scheme that might be adopted.

7. In regard to the points (1) and (2) noted above, full information has now been submitted to the Government of India in the Lieutenant-Governor's letter No. 206T—R, dated the 24th April 1885, and any further reference to these points on the present occasion is therefore unnecessary. In that letter also it was explained that the precise character of the action which it may be desirable for this Government to take towards the establishment of a village agency of account and record in Government and Wards' Estates will depend, not merely on the enquiries now being prosecuted by the Board of Revenue in those estates, but more especially on the results of the enquiries which must be made preliminary to the experimental field survey in the Patna Division. On this point also no observations seem called for at present. It may, however, be stated here that the special officer (whom, following precedents in other Provinces, the Lieutenant-Governor has styled the Director of Agriculture) will, so far as his other duties (to be presently specified) may permit, be at the disposal of the Board of Revenue for employment in those enquiries which may be required to enable the Board to submit, in a complete shape, the information called for regarding Wards' and Government Estates. In this Resolution, therefore, it is necessary to lay down instructions for the guidance of the Director of Agriculture regarding that portion of the subject of *Agricultural Research* which is concerned with the experimental field survey in Behar, and with some cognate questions arising out of the Tenancy Act. It is also necessary to issue directions regarding the general subject of *Agricultural Improvement*.

8. It has already been decided, with the approval of the Government of India, that the experimental survey, under Chapter X of the Tenancy Bill, shall be carried out by professional agency, and the district of Mozufferpore has been selected for the experiment. Before the actual cadastral work commences,

it will be necessary not only that external boundaries of the mouzahs should be demarcated, but that an agreement should be come to with the Surveyor-General regarding the unit of area to be adopted as the basis of the Cadastral Survey, and the system of boundary marks best adapted to secure the permanence of the results. Equally essential is it that the procedure for preparing the record of rights, and for maintaining it when prepared, should be planned out beforehand in all its details, and that some progress should have been made in selecting the agency by which the records are to be maintained. The education of putwaris, both in practical surveying and in recording the results of their work, will then proceed uninterruptedly.

The preceding remarks indicate the nature of one portion of the work to which the Director is now to address himself. Acting throughout, in this part of his duties, under the general control of the Board of Revenue, he will place himself in communication with the Surveyor-General in order to determine the pergunnahs or villages in which operations shall commence; and should it be considered desirable, he will, working through an establishment specially created for the purpose, prepare, as far as may be necessary, the ground for the professional party. It is possible that for this preliminary work the Deara survey party recently employed in the eastern districts will be found efficient and adequate.

9. Before finally determining the method of preparing the record of rights and the system of local agency to maintain them when completed, the Director will proceed to the North-Western Provinces, and, with the permission of the Government of those Provinces, will ascertain what is the most approved practice in those districts where cadastral work, similar to that contemplated in Behar, is now in progress. He will then report in detail, through the Board of Revenue, how far the North-Western system is applicable to Behar, and, if modifications seem necessary, will state the precise character of the modifications he would introduce. This report, however, is not to be submitted without previous communication with the Commissioner of the Patna Division.

As soon as all these preliminary questions have been discussed and settled with the final approval of Government, the Director will begin selecting the village agency to maintain the record when once completed. It is understood that in the district of Mozufferpore the names of village putwaris have already been registered. It will not, however, be incumbent on the Director to follow the register if, for sufficient reasons, approved of by the Board of Revenue, departure from it seems desirable. It has been suggested to the Lieutenant Governor that this work of educating the village agency should be taken in hand at once, on the ground that the work of survey and recording rights should not be commenced until the agency to maintain the records had been established. Putwaris, it is said, can only be taught their work by actual practice. On full consideration, however, of the information before him as to the acquirements of the available agency, Sir Rivers Thompson is satisfied that all that is needed is careful selection of putwaris and their training in field surveying. This will be taught them on the ground and in their own villages as the survey progresses. The future training of putwaris on some such plan as has been found useful in other Provinces will be a matter for later consideration, but, to begin with, what is needed is instruction to putwaris in surveying, and this cannot be imparted to them till the survey begins.

10. Another matter falling under the head of Agricultural Research, to which the Director must pay immediate attention, is the question of the market prices of staple food-crops. To the accurate investigation and record of prices-current a new and special importance attaches since the passing of the Bengal Tenancy Act, and one of the first duties of the new Department will be to enquire into the existing machinery for ascertaining and recording prices, to frame proposals for its amendment where this is found to be necessary, and generally to set on foot, under the directions of the Board of Revenue, arrangements in accordance with the provisions of the law for the systematic and continuous record, verification and publication of the prices-current of staple food crops. The general question of Agricultural Statistics also falls within his province, and should engage his attention.

11. In respect of the larger and somewhat indefinite subject of *Agricultural Improvements*, it is neither possible nor expedient to lay down any exact

rules. The Director's functions in relation to this branch of his official duties must, for some time to come, be limited to observation and experiment. It can only be said that everything bearing on agricultural prosperity and decadence is within his province and supplies subject-matter for his suggestions. Some of the subjects to which his attention may be usefully devoted are indeed enumerated in the 22nd paragraph of the Lieutenant-Governor's letter of the 1st June 1883; but having regard to the facts that the department at present exists only on the basis of a provisional sanction, it will probably be better to trust, in this branch of the subject, to useful action in concert with established Societies (such as the Agri-Horticultural and the Zoological) interested in the amelioration of the agriculture of the country, and to the employment of the Cirencester graduates who are at the disposal of Government, than to rely solely on the exertions of the Director himself, or to take those steps towards establishing an experimental farm or training school which were contemplated when sanction to more permanent arrangements was expected. From this point of view arrangements have been already entered into with the Agri-Horticultural Society, whereby, in consideration of a reasonable increase of the Government subsidy, its active co-operation in aid of the Agricultural Department has been secured. The Director has been admitted to a seat in the Council of the Society through the courtesy of the President and members—a courtesy which the Lieutenant-Governor takes this opportunity of acknowledging.

12. Among the various miscellaneous matters which should, in due course, engage the attention of the Director of Agriculture, there is none more important than the prevention and cure of diseases among cattle; for nothing tends more to stability and progress in agricultural operations than the preservation and improvement of cattle, upon whose labour agriculture in India so largely depends. Then, again, the question of fodder for cattle and of fuel for the people has a direct bearing on agriculture, for without fodder cattle cannot live, and without fuel provision in the shape of village forests, it is impossible to utilize cattle manure for its natural fertilizing purposes. These are points upon which this Govrnment has already expressed its views at length; but upon which, owing to the want of executive agency, nothing practical has hitherto been done They will now receive from the Director and his assistants the attention which they deserve.

13. The arrangements recently concluded between Government and the Trustees of the Indian Museum, and between Government and the Agri-Horticultural Society, in regard to the Economic Museum, open a wide career of usefulness to the latter institution and an important sphere of action for the Agricultural Department. While the scientific and technical character of the Museum will be upheld by the Trustees of the Indian Museum (increased in number, as it is proposed they should be, so as to represent the interests of this Province at the Board), its practical functions, as supplying business men with trade samples of all economic products, will be developed by the Agri-Horticultural Society in their conveniently situated rooms in the Metcalfe Hall. In various centres of trade in the mofussil, such as Cuttack, Dacca, Moorshedabad and Patna, the way is in a measure cleared towards establishing subsidiary museums. To extend the usefulness of these institutions on the lines laid down in communication with the Government of India on this subject will naturally fall within the province of the Director of Agriculture. He will also be usefully employed in connection with Exhibitions in India and in foreign countries at which it is of the utmost importance to Bengal that its great natural and industrial products should be fully represented.

14. A few remarks may be made as to the way in which the Lieutenant-Governor would employ those graduates of the Cirencester Agricultural College who have now returned to India. In determining what use should be made of this trained agricultural agency at his disposal, the Lieutenant-Governor's views are based on the principle that agricultural enquiry must precede agricultural improvement.

"The foundation of the work of an Indian Agricultural Department," says the Government of India in the Resolution cited in the preamble, "should be the accurate investigation of facts with the view of ascertaining what administrative course is necessary to preserve the stability of agricultural operations. It is desired therefore that the new department should

be so constituted as to give the fullest effect to this policy. The primary efforts of the departments should, when established, be devoted to the organization of agricultural inquiry, which has been shown to comprise the duties of gauging the stability of agricultural operations in every part of a province, of classifying the arrears of the province according to the result of careful investigation, and of deciding what method of administrative treatment is suitable to each, so as to maintain agricultural operations up to the highest standard of efficiency possible under present conditions From a system of agricultural inquiries thus conducted will follow the gradual development of agricultural improvements in its manifold variety It will suffice if, on the first constitution of an Agricultural Department, the organization of agricultural inquiry is placed in the hands of qualified officials, to whom may be committed the subsequent preparation of carefully considered proposals for agricultural improvement."

Such a system of agricultural enquiry the Lieutenant-Governor desires to inaugurate through the agency of the Cirencester graduates who are now in the service of this Government. It may not be necessary that the whole time of those officers should be devoted to agricultural matters. But agricultural enquiries are for one year to form the main object of their attention, and their other duties are to be regulated accordingly. Their primary duty should be to investigate and make themselves thoroughly acquainted with the native systems of agriculture in selected localities, with a view to the ultimate introduction of better methods of cultivation, better seed, more valuable staples, &c., where their enquiries may show that such improvements are practicable. The object in view will be best attained if they confine their investigations to typical villages of specimen tracts in selected districts. When they have thoroughly understood the native system of agriculture in any such typical village or local area, they should submit reports embodying definite suggestions towards improving the particular crops grown in those localities and indicative of the manner in which Government can give the best practical aid in the introduction of improved methods of cultivation.

15. When engaged in the work thus described, these special officers should endeavour (to quote again from the Resolution of the Government of India)—

"to secure the active aid of those members of the native community who are interested in agriculture. They understand the existing system of Indian agriculture, and they are often acquainted with the local reasons which justify practices that may seem strange and illogical to an European observer. They can therefore best guide the course of agricultural improvement with the least disturbance of existing circumstances, and develop the true policy of progress in improving and adding to indigenous conditions without the subversion of ideas and methods which is likely to accompany the introduction of exotic reforms. To secure their co-operation is therefore an important object. Nor must it be forgotten that a further valuable source of information and advice exists in the European community of planters and landlords, who have already given a useful lead to native enterprise in the adaptation of Western appliances to the agricultural system of the East."

Efforts should therefore be made by the Director to form Committees of Native and European gentlemen interested in agriculture, through whose co operation improvements may be extended in the directions indicated by the Cirencester graduates, who are agricultural specialists. Such Committees may, in course of time, form a useful channel of communication between the Agricultural Department and the people.

And in this connection the Lieutenant-Governor lays much stress on the co-operation of the officers of the Opium Department in Behar. These officers are engaged on duties which bring them into intimate relations with the agricultural population; they enjoy exceptional opportunities of explaining to the officers to be now specially deputed the wants of the ryots, and interpreting to the ryots the intentions and meaning of the officers of the Agricultural Department. They have, at certain periods of the year, ample leisure to devote to such enquiries and explanations, and enjoy the confidence of the best class of cultivators. It is of the greatest importance that their good offices should be secured in this work, and the Board of Revenue will therefore be asked to issue such instructions as, without interfering with the proper work of the Opium Department, may secure the active assistance of its officers for the work now in hand.

The Committees of European and Native gentlemen before referred to might also be induced to interest themselves in getting up local Exhibitions with the advice of the Director of Agriculture. They might give assistance by collecting subscriptions, by drawing up programmes, and by

awarding prizes, not only for the best agricultural products, but also for the best cultivated farms in their respective localities. They might in various other ways do much for the spread of knowledge and improvement of cultivation by the trial of new implements, and the selection of seeds. From the success which has attended the few local agricultural Exhibitions hitherto held in these Provinces, not under very favourable circumstances, the Lieutenant-Governor is disposed to augur well for the success of well-directed and sustained efforts in that direction, and he is quite prepared to make reasonable contributions towards the expenses of such Exhibitions from Provincial Funds.

16. Though the nature of the sanction accorded to the Lieutenant-Governor's proposals in regard to an Agricultural Department for Bengal renders it undesirable to spend any money on experimental farms supported by the Government, much good may be done if the Managers of Wards' Estates, in which such farms may now be maintained, will in future consult the special agricultural officers of Government on points connected with the management of their farms. The Lieutenant-Governor woul also be glad if private persons interested in the improvement of agriculture would consult these officers either generally or in regard to special subjects. The special officers are all of them competent agricultural chemists and trained theoretical farmers, and their opinion may reasonably be expected to throw some light upon the suitability of certain soils to certain crops, the employment of improved agricultural implements, the introduction of better seed and more valuable staples. It may also happen that their advice will be of benefit on such matters as the use of manures, ensilage, rotation of crops, simultaneous growth of several crops in the same field, method of preparing crops for market, and so forth. Should the adoption of their advice on any point be followed by good results, the improvement thus introduced would be forcibly brought home to the people, and would stand a fair chance of gaining permanent ground.

From this point of view, too, the Lieutenant-Governor would endeavour to induce intelligent zemindars or ryots in khas mehals, Wards' estates or elsewhere, to try such experiments as, after careful consideration, may be determined upon. If, for example, it is desired to test the merits of a particular plough, the agricultural officers should induce a selected ryot to plough half his field with his own plough and after his own fashion, and the other half of the same field with the new plough and under their directions. If it should turn out that the crop grown on the area cultivated under the new method yields more than that cultivated under the old, the cultivator is more likely to adopt the new method, and others are more likely to follow his example than they would be if the experiment had been tried on a model farm and the results recorded in blue books. The fact, however, must be recognised that cultivators will not be induced to try experiments in this way unless we are prepared to make good any loss they may sustain by following our advice. Should it therefore be found practicable to initiate such experiments through the people themselves, and should such experiments lead to losses, the Lieutenant-Governor is prepared to make, in a moderate way to begin with, an allotment of funds to meet such losses as may possibly be entailed on ryots or zemindars by following the advice of the special agricultural officers.

17. In determining the precise directions in which the policy now sketched is to be worked out, the Director and his assistants should have regard to the recorded results of the working of Agricultural Departments in other provinces, as far as they may apply to the circumstances of Bengal. Above all, adherence to one leading principle is essential, namely, that where there is some assurance of success in any new process, the change is within the reach of the ryot. The ryot's limited means, and the solid basis of empirical knowledge which he possesses, must on no account be ignored. Taking that knowledge as a foundation to work on, and the necessary limitation of these means as a chief factor in the question, an endeavour should be made to ascertain wherein the ryots' practice is susceptible of improvement in accordance with the results of scientific research in agricultural matters.

18. With these general instructions, the Lieutenant-Governor commits the charge of this new Department to Mr. Finucane, with every confidence in his

intelligent administration of it. The services of the three gentlemen whose names are noted in the margin will be placed at the disposal of the Revenue Department of this Government chiefly for employment under the Director of Agriculture. Mr. Allen and Mr Sakhawat Hossein will be employed in Behar, and the former officer, in addition to his agricultural duties under this Resolution, will have charge of Government estates under the sanction given by the Secretary of State. Mr. Ambica Churn Sen will be employed in Bengal (possibly in the district of Burdwan). These officers will act (consistently with the preceding remarks) under the instructions of the Director of Agriculture, who, on this portion of his duties, will report direct to Government. Thus in regard to *Agricultural Research* (cadastral surveys, record of rights, enquiries in Wards' and Government Estates, registration of prices-current) the Director will be under the control of the Board of Revenue, and his reports will reach Government through the Board. In regard to *Agricultural Improvement*, Museums and Exhibitions, &c., he will be, for the present at all events, under the orders of the Revenue Department. He may, in regard to all these subjects, communicate direct with local officers and heads of departments.

Mr. D. B. Allen, C.S.
„ Ambica Churn Sen, C.S.
„ Sakhawat Hossein, Deputy Magistrate and Collector.

ORDER.—Ordered that a copy of this Resolution be submited to the Government of India for information; that copies be forwarded to all Departments of the Secretariat; to the Board of Revenue for information and guidance, and for communication to local officers; to all Heads of Departments; to the Director of Agriculture, Bengal, and to Messrs. Allen, Ambica Churn Sen, and Sakhawat Hossein, for information and guidance.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

ENQUIRY INTO THE CASTES AND OCCUPATIONS OF THE PEOPLE OF BENGAL.

FINANCIAL DEPARTMENT—STATISTICS.

Darjeeling, the 30th April 1885.

RESOLUTION.

READ—

Circular No. 11—121, dated 21st September 1882, from the Government of India Home Department, suggesting that a full enquiry should be made into the castes and occupations of the people of Bengal

A letter No. 91½, dated 6th January 1884, from the Government of Bengal, Financial Department, to the Government of India, Home Department, recommending the appointment of Mr H. H. Risley to conduct the enquiry suggested by the Government of India.

A letter No. 3, dated 28th January 1884, from the Government of India, Home Department, sanctioning Mr. Risley's employment for two years in the manner proposed.

A letter No. 9, dated 2nd April 1885, from Mr. H H Risley, submitting the proceedings of a Conference on the Ethnography of Northern India held at Lahore on the 18th to 22nd March 1885, and making certain proposals regarding the mode of procedure to be adopted in carrying out the enquiry.

In September 1882, the Government of India, at the instance of the Census Commissioner, issued a circular to all Local Governments and Administrations suggesting that steps should be taken, on the basis of the statistics recorded in the census of 1881, towards collecting more precise information than is at present in existence regarding the castes and occupations of the people of India. It was intimated that the Supreme Government were not prepared to bear any portion of the cost of the proposed operations, and it was suggested that the work might be undertaken by selected officers in addition to their ordinary duties. All details were, however, left to the discretion of the Local Governments to carry out as most convenient. In January 1884, the Government of Bengal submitted to the Government of India a proposal to appoint a special officer, whose pay and allowances would be met from Provincial funds, for a term of two years, to conduct the enquiry in Bengal. The Lieutenant-Governor considered that the officers of the regular staff had not sufficient leisure to prosecute ethnographical enquiries in addition to their ordinary duties; while many of them had no special taste for such enquiries. Moreover, as the chief value of the work would consist in the comparative treatment of the customs of the same or different castes in different districts of these provinces, it was essential that this comparison should be made by a single officer of special aptitude and capacity for this description of research, who would have before him a large body of facts, and would not be confined to the data obtainable within a single district. Mr. H. H Risley, C.S., was selected as possessing, in a special degree, the attainments necessary for the successful performance of the work in Bengal. The scheme was sanctioned by the Government of India and the Secretary of State; but, owing to administrative reasons, effect was not given to the appointment till early in February 1885.

2. After making some experimental enquiries in Behar and North-Eastern Bengal, and preparing a scheme for collecting information regarding the castes and occupations of the people in a systematic manner, Mr. Risley obtained the permission of Government to visit Lahore for this purpose of conferring with Mr. D. C. J. Ibbetson, Director of Public Instruction in the Punjab, and Mr. J. C. Nesfield, Inspector of Schools in Oudh, both of whom have had considerable experience in similar enquiries, and were in a position to offer valuable advice on the subject. The Conference sat from the 18th to the 22nd March, and drew up proceedings which are appended to this Resolution. One chief object of their deliberations was to secure, so far as might be possible, that ethnographical researches carried on in different Provinces of the Bengal Presidency should proceed on the same general lines in order that their

results might be of some service to students of comparative ethnology in Europe. They considered the question as to the best means to be adopted to collect original data in addition to those already on record in books, reports, and publications of learned societies. For this purpose two sets of questions were drawn up, which form annexures B and C to their proceedings. The general series (annexure B) was framed with the object of bringing out by as few and as simple questions as possible the leading characteristics of any particular caste. The special series (annexure C) on the other hand goes into more minute detail and attempts to cover the main heads of ethnographical enquiry in India. The former, it is understood, represents the amount of original enquiry which the Conference consider may fairly be imposed upon the district staff, while the latter is intended for use only by those whom inclination may lead to pursue the subject further. In order to guard against the confusion which may arise from the ambiguous use of words, the Conference also prepared a note upon certain doubtful points of ethnographical nomenclature in which they defined, for the purpose of the present enquiries, the principal terms ordinarily used to denote the various forms of social organization prevalent in India.

3. In submitting to Government the proceedings of the Conference, Mr. Risley has appended to them a note, extracts from which are annexed to this Resolution, explaining the general objects of the enquiry, and making certain suggestions as to the action to be taken to give effect to the proposals of the Conference in Bengal. The Lieutenant-Governor has fully considered the papers, and accepts the conclusion that, apart from the scientific aspects of the question, substantial administrative benefits may be looked for from the present enquiries. It has always been the policy of Government to encourage researches which tend to throw light upon the actual life of the general mass of the population, which even now is not adequately represented either by the vernacular newspapers, or by any of the various public bodies and associations. As early as the beginning of this century, the Court of Directors held that the acquisition of systematic knowledge regarding the castes and occupations of the people "would be attended with much utility," and the subject was expressly mentioned in the instructions given to Dr. Francis Buchanan for the statistical survey of the country commenced by him, but never completed. The enquiry then abandoned may now, the Lieutenant-Governor thinks, be resumed with greater prospects of success. The census of 1881 has provided a sound statistical basis for further research, while recent events have served to bring to prominent notice the necessity for more minute knowledge on the part of Government officers of the actual usages and beliefs of the people at large. An ethnographical survey of the people is in its way as desirable as a cadastral survey of the land, provided that it can be carried out within a reasonable time and without excessive expenditure. Social reforms are beginning to be discussed by the leaders of native society, and a time may come when Government will be invited to exercise its influence in such matters. It is clear, at any rate, that the more Government officers know about the religious and social customs of the people of their districts, the better able they will be to deal either with the possible social problems of the future, or with the practical questions referred to in Mr. Risley's note.

4. For these reasons it has been decided to publish and circulate the questions framed by the members of the Conference, and to enlist the aid of the officers of Government and of others who are in a position to help in obtaining answers to them. Experience has shown that a single person can do very little towards collecting the requisite information within a given time. To elicit facts by oral enquiry is necessarily a lengthy process, and accuracy can only be secured by testing the statements of particular individuals or groups of individuals by numerous independent observations. On the other hand, it is essential that no more labour than is absolutely necessary should be thrown upon the regular administrative staff, and particularly upon the district officers. Every district officer will therefore be requested to nominate from among his subordinates one or more officers who may be qualified and willing to assist, in addition to their ordinary work, in collecting information for their respective districts or

sub-divisions. The names of the officers selected should be reported to Government. They will correspond direct with Mr. Risley, who will supply them with copies in English and vernacular of the general series of ethnographical questions (enclosure B to the proceedings of the Conference), and will indicate what use should be made of these questions in each district. The functions of the district officer in the matter will be limited to seeing that the selected officers do what is required of them within a reasonable time. It is believed that answers to this series of questions can be readily obtained, and that the work will not involve any interference with the ordinary duties of the selected officers. Much interest is taken in the proposed enquiries by natives of all classes who have already made to Mr. Risley liberal offers of assistance, and it will be open to officers either to go into the questions themselves, or to pass them on to persons who take interest in the subject, and transmit the answers to Mr. Risley. Officers who show a special taste for ethnographical enquiries will be supplied with copies of the special series of questions for such use as they may find it possible to make of them. Apart from all enquiries by way of set questions and answers, it is believed that all officers engaged in district work are continually coming across curious and interesting information regarding castes and their peculiarities in the course of ordinary official business, and particularly in the freer intercourse with all sections of the native community during the camping season. Notes of such information, however fragmentary and incomplete, may be of great service to the officer in charge of the enquiry, and the Lieutenant-Governor hopes that they may be communicated to Mr. Risley.

5. Valuable help, it is understood, can also be given by the officers of the Medical, Police, Education, Jails, Registration and Forests Departments, many of whom have excellent opportunities of observing, and some leisure for recording, the customs of particular castes. The Heads of these Departments will therefore be asked to instruct their subordinates to give Mr. Risley any assistance in their power.

6. The Lieutenant-Governor takes this opportunity of acknowledging the assistance rendered in this matter by the members of the Conference which met at Lahore. His thanks are especially due to Messrs. Ibbetson and Nesfield for bringing their knowledge and experience to bear upon the preparation of a systematic scheme for the collection of ethnographical data in Bengal.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Govt. of Bengal.

No. 9, dated Rungpore, the 2nd April 1885.

From—H. H. Risley, Esq., c.s., on Special Duty,

To—The Secretary to the Government of Bengal, Financial Department.

With reference to your letter No. 1088, dated the 18th March 1885, granting me permission to visit Lahore for the purpose of conferring with Messrs. Ibbetson and Nesfield regarding the mode of operations to be adopted in carrying out the recently sanctioned enquiry into the castes and occupations of the people of Bengal, I have the honour to submit the following papers—

I.—The proceedings of the conference held at Lahore, with enclosures A, B, and C.

II.—A note suggesting the manner in which the proposals of the conference should be dealt with in Bengal.

The note was considered in draft by the other members of the conference, and was generally approved by them. It is not referred to in their proceedings, as they did not feel called upon to express any official opinion regarding the action that might be taken by any local Government to give effect to their proposals. I may mention, however, that Mr. Nesfield, who has had considerable experience of similar enquiries in Oudh, entirely agrees with me in thinking that most valuable assistance may be derived from officers of the Jail and Education Departments without interfering with their regular duties.

Proceedings of Conference on Ethnography of Northern India, held at Lahore on the 18th to 22nd March 1885.

PRESENT:

MR. D. C. J. IBBETSON,
Director of Public Instruction, Punjab.

„ J. C. NESFIELD,
Inspector of Schools, Oudh.

„ H. H. RISLEY,
On Special Duty, Bengal.

THE members of the Conference met at Mr. Ibbetson's office. Mr. Risley explained that he had come to Lahore, with the permission of the Government of Bengal, to consult Messrs. Ibbetson and Nesfield in consequence of certain demi-official suggestions received from Mr. FitzPatrick, Secretary to the Government of India, in the Home Department. He stated that the Government of Bengal had decided to make an exhaustive enquiry into the castes and occupation of the people of those provinces, based upon the statistics recorded in the census of 1881, and had placed him on special duty for two years for that purpose. He laid before the meeting (*i*) a draft note setting forth the objects to be aimed at in the enquiry and the means to be adopted to obtain those objects, consistently with giving the minimum of trouble to the regular administrative staff; (*ii*) a set of ethnographical questions framed so, as to facilitate the collection of fresh data in a systematic form through the agency of district officers, and of such private individuals as might be willing to give assistance in the matter. He asked the other members to assist him with such criticism as their experience of ethnographical enquiries might suggest. Messrs. Ibbetson and Nesfield, while ready and willing to assist to the best of their ability in discussing the papers in question, felt unable, without due leisure for consideration, to commit themselves to any final opinion as to the form that would be best suited for adoption in their respective provinces, should it eventually be decided to set such an enquiry on foot in those provinces.

In the absence of precise official instructions as to their functions, it appeared to the officers present that all they could usefully do was to indicate, with as much completeness as the circumstances under which they were called together admitted of, the direction in which ethnographical enquiries of the kind under description might best be pursued by any Local Government which might think it desirable to undertake them. With this view the members of the Conference prepared a note on certain difficult points of ethnographical terminology, a series of general questions calculated to elicit the salient characteristics of the several castes, and a set of special questions dealing with caste customs in greater detail, to be used by those whom inclination might lead to pursue the subject further. These papers form annexures A, B and C to these proceedings. It would remain for the Local Governments and Administrations concerned to determine in what manner the suggestions contained in them should be utilized.

At the present stage of the proceedings, and while the data have still to be collected, the members of the Conference did not feel prepared to consider the form in which the final results should be arranged and recorded.

SUGGESTIONS REGARDING SOME DOUBTFUL POINTS OF ETHNOGRAPHICAL NOMENCLATURE.

MUCH confusion is often caused by the indeterminate use of the various terms applied to the divisions upon which society in India is based. It seems that some attempt to define more precisely the nature of the groups to which these terms should respectively be applied might usefully be made, and the following is set forth as a suggestion.

The group organization commonly follows one of two main types—(1) the caste, (2) the tribe. The former may be defined as the largest group based upon community of occupation; the latter as the largest group based upon real or fictitious community of descent, or upon common occupation of territory.

Within the caste we find the *sub-caste*, and within the *sub-caste* the *section*. The *sub-caste* may be defined as the smallest *endogamous* group, and the *section* as the largest exogamous group, within the caste. No lower unit than the *section* need be regarded. The limits of the caste and *sub-caste* will occasionally be identical, there being no smaller endogamous groups included under a common caste name based on occupation.

Within the tribe we find many sub-divisions The smallest endogamous group within the tribe may be called the *sub-tribe*, which, as before, will occasionally coincide with the tribe. The largest exogamous group within the tribe may be called the *sept*, and no lower unit than this need be considered. Divisions intermediate between the sub-tribe and *sept* may, where they exist, be termed clans and sub-clans.

Some cases will occur in which the two types run into each other, the caste based upon occupation being made up of tribes or tribal fragments based upon community of descent. In these cases the terminology of each type will be followed so far as the organization stands upon the same basis as the type, and no further.

It might be explained that the Brahmanical *gotras* have, in many cases, been adopted by or imposed upon castes and tribes in addition to their proper caste or tribal divisions. In such cases the *gotras* are not what is wanted: what is wanted is the organic divisions and sub-divisions of the caste and tribe, not unusually called *got* by the people themselves, as distinguished from *gotra* in the strict Brahmanical sense. Occasionally these organic divisions and the *gotras* are identical; but where the latter are distinct from, and have been superimposed upon, the former, the *gotras* run through the divisions, the same division often, though not always including several *gotras*, while, on the other hand, the same *gotra* is found in several divisions. The Brahmanical *gotras* are chiefly used by the officiating priest at marriage, and the ceremony of *sankalp*, and are often unknown to the people themselves without reference to their priests.

ETHNOGRAPHICAL QUESTIONS.

General Series.

1. Write in English and vernacular the name of the caste with synonyms, if any, noting if any of these are used only by outsiders

2. Write in English and vernacular the names of the exogamous sub-divisions of the caste, if such sub-divisions exist.

N.B.—By the term exogamous sub-division is meant a group from within which its male members cannot take their wives

3. Show the endogamous divisions of the caste, if such divisions exist. If these divisions consist of groups of the sub-divisions mentioned in question 2, show the grouping. If they are distinguished by separate names, write the names in English and vernacular.

N.B.—By the term endogamous division is meant a group from outside of which its male members cannot take their wives.

4. State the limits within or beyond which marriage is prohibited, *e.g.*, that a man must marry within the caste, but must not marry into his own or certain other sub-divisions, or within certain degrees of relationship, or may not marry two sisters.

5. Name any prohibitions on inter-marriage based upon (*a*) social status, *b*) geographical or local position, (*c*) differences of religious belief or practice, (*d*) differences or changes of occupation.

6. State the popular tradition, if any exists, as to the origin of the caste, naming the common ancestor, if any, the part of the country from which the caste is supposed to have come, and the approximate time of its emigration as marked by the reign of any particular king or the occurrence of any historial event, together with the number of generations supposed to have intervened.

7. Is the habit of the caste settled or wandering? Have they any recognized head-quarters in the province? If wandering, over what tract of country do they wander? Are their migrations periodical or irregular, and what are the shape and material of their dwellings?

8. Do they admit outsiders into the caste? If so, from what classes, by what forms, and under what conditions?

9. Is marriage infant or adult? If the latter, is sexual license before marriage recognised or tolerated?

10. Is (*a*) polygamy, (*b*) polyandry, permitted; if so, under what conditions and within what limits? In the case of polyandry, must all the husbands be brothers?

11. What form of marriage ceremony is in ordinary use? Name the forms and state the essential and binding portion of the ceremony.

12. Is the re-marriage of widows permitted? If so, is the widow obliged or expected to marry her husband's elder or younger brother? If she does not marry a brother, within what limits may she marry? What form of marriage ceremony is used, and what is the essential and binding portion of it?

13. Under what circumstances is divorce permitted, and by what form is it effected? May wives who have been divorced marry again?

14. Do the members of the caste follow the Hindu or Mahomedan law of inheritance, or a tribal custom of their own?

15. To what religion and to what sect within the religion do the caste belong? If Hindus, do they by preference worship any special one of the regular Hindu deities, and are there any reasons for this preference?

16. Name any minor gods or patron saints specially worshipped by the caste. State what offerings are made, on what days of the week, and what class of people receive them? Is the worship of any of these gods or saints confined to women and children?

17. Do the caste employ Brahmans for religious and ceremonial purposes? If so, are these Brahmans received on terms of equality by other Brahmans? If they do not employ Brahmans, what class of people serve them as priests?

18. Do the caste burn, bury or expose their dead? If buried, in what position? Where are the bodies or ashes finally disposed of?

19. Are any ceremonies performed for the propitiation of (*a*) ancestors in general, (*b*) childless ancestors, (*c*) men who have died a violent death, and if so, of what nature and at what seasons? Is the ceremony of *srádh* performed or not?

20. Is the caste, or any of its sub-divisions, named after any animal, plant, weapon or implement? Do they show their reverence for any such object either by special worship or by abstaining from killing, eating, cutting, burning, using or naming it.

21. What do the caste believe to have been their original occupation or group of occupations? To what extent have they or any sections of them departed from it? Describe their present occupation.

22. If they are agriculturists, state what position they usually occupy in the agricultural system, *i.e.*, are they—

(1) Zemindars;

(2) Tenure-holders, specifying the kind of tenures they hold;

(3) Occupancy or non-occupancy raiyats, stating whether they have or claim any privileges in respect of rent;

(4) Nomadic cultivators, specifying the mode of cultivation they follow;

(5) Landless day-labourers, stating the manner in which they are paid?

23. If their occupation is that of—

(*a*) *Artizans*, what is their industry, and in what special material do they work, or abstain from working;

(*b*) *Hunters*, do they catch game or vermin;

(*c*) *Fishermen*, do they catch fish only or also crocodiles and tortoises;

(*d*) *Sweepers*, do they remove night-soil or not?

24. Name any implement or mode of working which is characteristic of the caste, and also note whether there is any form or detail of their main occupation by abstaining from which they believe themselves to be raised above others of the same craft?

25. Do they habitually prostitute their (1) unmarried, (2) married women?

26. Which of the following articles of food do the caste eat or abstain from eating:—flesh, wine, monkeys, beef, pork, the flesh of cloven-footed or uncloven-footed animals, fowls, scaley or scaleless fish, crocodiles, snakes, lizards, jackals, rats, other vermin, the leavings of other people? Is there any special article of food their abstaining from which tends in their opinion to raise them above some other caste which does not abstain from it?

27. Name the lowest well-known caste with which the caste will—

(*a*) Eat pakki.

(*b*) Eat kachhi.

(*c*) Drink.

(*d*) Smoke.

Name the highest well-known caste which will eat, etc. (as above), with the caste.

Sources of information.—Here should be noted the names, residence (village and thana), profession, caste, sub-caste, and section of the persons who answered the questions If any of them are *ghataks*, genealogists, heads of caste panchayat or occupy any hereditary official position in relation to the caste, the fact should be stated. If the answers to the questions have been derived from any source other than personal enquiry addressed to members of the caste concerned, the source should be stated, and such references given as may enable the officer in charge of the enquiry to test the correctness of the answers.

Ethnographical Questions.

Special Series.

INTRODUCTORY REMARKS.

The following questions have been drawn up in order to suggest lines of enquiry likely to prove interesting. They do not claim to be exhaustive, nor is it necessary that all of them should be answered. Some, for instance, will apply only to Mahomedans, others only to Hindus, and others again only to aboriginal tribes In making use of them, various forms of bias on the part of the person questioned will have to be guarded against, such as—

(a) The wish to exalt his own caste or sub-division of his caste at the expense of other castes.

(b) The tendency to give ideal or book explanations of facts.

Care must also be taken not to tire the persons questioned by asking too many questions at a time and to check their statements occasionally by asking for actual instances of any specially remarkable custom. Questions should be put in as concrete a form as possible, in order to avoid the danger of people assenting out of laziness in order to save the labour of thinking.

It will be found in the case of many, perhaps of most castes, that there is a primary division into what may be called sub-castes, each of which is again divided into sections. Where several of these sub-castes are present side by side in the locality their names will probably be given. But where all the local representatives of the caste belong to the same sub-caste there is a danger of the sub-caste name being taken for granted and only the sections being named. Both groupings are required, the sub-castes being, if anything, the more important of the two.

I.—Constitution.

1. *Origin and internal organization.*—Write in English and vernacular the name of the caste, with synonyms if any, giving its derivation if known.

2. If the caste has more names than one, explain their meaning, and state which are used by the members of the caste, and which by other people.

3. Are any distinctions between the synonyms based upon the occupations of those to whom they are respectively applied, their place of origin, habitat, religion, or the like?

4. Is there any name used only by members of the caste?

5. State in detail any tradition that may exist as to the origin or foundation of the caste, the place from which they came, and their subsequent migrations.

6. Do they believe themselves indigenous in the district or to have come from elsewhere?

7. If from elsewhere, note any king's reign or historical occurrence contemporary with their migration, and how many generations are believed or ascertained from genealogical lists to have intervened.

8. Is there any place which they consider their head-quarters in Bengal?

9. Note particularly the name of the place from which they or their ancestors are believed to have come direct to their present locality.

10. Are any pilgrimages undertaken by the caste to places which purport to be their original habitat or serve to suggest its locality?

11. Is there any place in which the members of the caste are or should be buried?

12. Do they draw their priests, barbers or genealogists from that place?

13. Do they trace their descent from a first ancestor or chief, and does he appear to have actually existed or to have been an eponymic personage invented to account for the existence of the tribe?

14. If any genealogical tee exists, trace ther descent of the founders of the existing subdivisions from the common ancestor. Is there a shrine to him in the village or neighbourhood, and is it built on a brick or stone brought from elsewhere? If so, from where?

15. Do they consider any other castes to have branched off from them, or that they and others have come from the same national source?

16 Have they any tradition regarding changes of religion, introduction of new ceremonies, &c.?

17. Are there any local legends connecting them with any monuments, such as old tombs, mounds, forts, sites of villages, &c., in the district?

18. Is any light thrown upon the former movements of the tribe by the names of villages or by the existence of monumental stones? For instance, the Mundas of the Chota Nagpore plateau can be traced to places far distant from their present settlements by these places bearing Mundari names and containing Mundari gravestones which are now worshipped by low caste Hindus.

19. Write in English and vernacular the names of the exogamous sub-divisions of the caste, if such sub-divisions exist.

N.B.—By the term exogamous sub-division is meant a group from within which its male members cannot take their wives.

20. Write in English and vernacular the names of the endogamous divisions of the caste, if such divisions exist. If these divisions consist of groups of the sub-divisions mentioned in question 19, show the grouping.

N.B.—By the term endogamous sub-division is meant a group from outside of which its male members cannot take their wives.

21. In the caste of both classes of divisions and sections explain the meaning of each name, and if the name denotes animals or edible substances, state whether the members of the sub-division bearing that name are prohibited from naming, eating, killing, cutting, burning or otherwise using the animal or substance denoted?

22. Cases may also occur in which the name of the sub-division is the name of an instrument which its members are prohibited from using; or conversely, where the caste is one of occupation, of a particular instrument or mode of working to which the members of the sub-division are hereditarily addicted.

23. Are particular sub-divisions bound to observe or refrain from particular actions, such as the eating or burning of certain plants, the worshipping of certain trees, &c.?

24. Do the names of the sub-divisions correspond with those of the sub-divisions of any other caste, and if so, how is the correspondence explained?

25. Have for instance the members of the lower caste done service to the higher caste and adopted their sub-divisions?

26. If so, is there any trace of their having had different sub divisions of their own, and are there any reasons for supposing that these were aboriginal and were abandoned in favour of a Brahmanical classification?

27. Have they any representative assembly or governing body?

28. What is it called?

29. How is it constituted?

30. What are its functions?

31. Who presides at its meetings?

32. How are its orders enforced?

33. Is there a permanent president?

34. If so, by what title is he called, and is the office hereditary?

35. If the hereditary president happens to be a minor, by whom are his duties carried on?

36. In the case of the trading and artisan castes the functions of the *panchâyat* of the caste are of special interest and should be carefully ascertained, most of all where the occupation is followed by members of distinct castes united in a sort of trades guild, in which case the connexions and cases of conflict between the *panchâyats* of the caste and guild should be investigated.

37. *Rules of Intermarriage.*—State the limits within or beyond which marriage is prohibited, *e.g.*, that a man must marry within the caste, but must not marry into his own or certain other sub-divisions or within certain degrees of relationship, or may not marry two sisters.

38. Give the formula (if any) defining the prohibited degrees of relationship.

39. Name any prohibitions on intermarriage based upon (*a*) social status, (*b*) geographical or local position, (*c*) differences of religious belief or practice. (*d*) differences or changes of occupation.

40. How far are differences of religion or sect a bar to marriage?

41. Can persons of different castes intermarry?

42. If so, of what castes, and by what form of marriage?

43. Note cases in which wives will be received from another sub-division or caste, but daughters will not be given in marriage to members of that sub-division.

44. Is the distinction referred to in the last question based mainly on social status or on what?

45. Is there any formal ceremony of admitting the bride into the husband's house, village or family by payment, after a mimic struggle, by eating together, or otherwise?

46. How many wives are allowed?

47. If more than one, is there any head wife, and what are her privileges?

48. Do the wives live together, or do they have separate dwellings?

49. Is concubinage permitted?

50. Is polyandry permitted?

51. If so, how are the husbands selected?

52. Must they all be brothers?

53. Are the women allowed much freedom before marriage?

54. Are they prostituted before marriage, or are some prostituted and others reserved for marriage?

55. In the case of a girl who has been prostituted, is any payment made to the parents or the community or is any special feast given by the bridegroom?

56. At what age may marriage take place?

57. Is an infant marriage voidable, if not actually consummated?

58. Who arranges the marriage?

59. Are there professional marriage-brokers?

60. Whose consent is necessary to the validity of marriage (1) if both parties are minors, (2) if both are of full age?

61. Is there any freedom of choice on the part of the persons marrying?

62. Is any price paid (*a*) by the bridegroom's family for the bride, (*b*) by the bride's family for the bridegroom?

63. How is such price determined?

64. Does it or any part of it become the special property of either bride or bridegroom, and does it devolve by any particular rule of succession?

65. What physical defects will be sufficient ground for the annulment of a marriage which has actually taken place?

66. State whether idiocy or lunacy, impotence or mutilation are such sufficient grounds.

67. Is any distinction made if the party seeking annulment knew of the defect at the time of the marriage, or if the defect has arisen after the marriage was consummated?

68. Under what circumstances is divorce permitted?

69. What form of divorce is in use?

70. May wives who have been divorced marry again?

71. How are the offspring of (1) first marriages, (2) marriages of widows or divorced persons, (3) illicit connexions between parents of different tribes, castes, or religions now classed?

72. Do all inherit on the same terms, or are any excluded?

73. Do they follow the tribe and caste of the father or of the mother, or are they known by an entirely new name?

74. Is there any distinction between them and others born into the tribe or caste in a more usual or legitimate manner?

75. Are there any cases in which members of one sub-division cannot marry into another sub-division as being of common origin with themselves?

76. Do illicit connexions ever entail a change of caste on either of the parents?

77. Are there any castes or sub-divisions of castes the origin of which is ascribed to connexions between members of two different castes?

78. Give particulars, and state the evidence on which the tradition is based.

79. Is it admitted by the members of the caste or sub-division in question?

80. May widows remarry?

81. If so, by what form of marriage ceremony?

82. Must the widow of an elder brother marry the younger brother, and may the widow of a younger brother marry an elder brother?

83. May the widow marry outside her husband's family?

84. If so, has her husband's brother a right to the custody of her children, and does the same rule apply to both male and female children?

85. If she marries an outsider, what rights in her husband's property accrue to—

(1) The widow,
(2) Her children by her first husband,
(3) Her husband's brother?

86. If she marries a brother, what rule of succession applies to her husband's property, *e.g.*, what right in it accrues to—

(1) The widow,
(2) The brother wh m she marries,
(3) Her children by her first husband,
(4) Her children by her second husband?

87. Are children begotten of the widow by the brother of the deceased considered to be the children of her first or of her second husband?

N.B.—In illustration of the last eight questions, it may be noted that among the Jeswar Kurmis the widow of an elder brother usually marries a younger brother by the *sagai* form, but may marry an outsider. If she marries the younger brother, she gets half of her deceased husband's property. If she marries an outsider, she forfeits all claim not only to her husband's property, but to the custody of her children, except in the case of daughters, who stay with her till of a marriageable age, when she is bound to bring them back to be married from her husband's brother's house. The widow of a younger brother cannot marry an elder brother.

88. *Adoption.* Is it necessary that the adopter should be destitute of a son, a son's son, and a son's grandson?

89. Must be obtain the consent of his heirs?

90. Is a daughter's son a bar to the right of adoption?

91. May a man adopt who has male issue, if such issue be disqualified by any legal impediment (such as loss of caste) from performing the exequial rites?

92. Can a man who had already adopted a son adopt another during the lifetime of the first?

93. Can the following persons adopt—

(1) A bachelor;
(2) A man blind, impotent, or lame;
(3) A widower;
(4) An ascetic who has renounced the world?

94. Can a woman adopt?

95. State whether it is necessary to the validity of an adoption by a widow that she should adopt with the permission, written or verbal, of her deceased husband, or with the consent of his kindred.

96. Can a widow adopt a son *as her own* without thereby making him a member of her late husband's family?

97. Can she adopt a son as her own in addition to a son adopted as the representative of her deceased husband?

98. In the event of the death of a son adopted by a widow with the sanction of her husband, may the widow adopt another person without permission of her husband to that effect?

99. May a man give in adoption—

(i) His only son;
(ii) His eldest son;
(iii) His brother?

100. Must the person adopted be less than any specific age?

101. If so, up to what age may a person be adopted?

102. In the case of the higher castes, can a person be adopted after tonsure or investiture with the sacred cord in his own family?

103. Can girls be adopted?

104. Is there any rule by which it is required that the person adopted should be related to the person adopting?

105. If so, what relatives may be adopted?

106. Is any preference required to be shown to particular relatives?

107. If so, enumerate them in order of preference.

108. Is it necessary that the adopted son and his adoptive father should be (1) of the same caste or tribe, (2) of the same *got*?

109. Is there any rule prohibiting the adoption of the son of a woman whom the adopter could not have married, such as his sister's son or his daughter's son?

110. Does an adopted son retain his right to inherit from his natural father?

111. Can he inherit from his natural father, if the natural father die without other sons?

112. Describe the rights of an adopted son to inherit from his adoptive father.

113. What is the effect of the subsequent birth of natural legitimate sons to the adoptive father?

114. Will the adopted son take equal shares with them?

115. When a son-in-law leaving his own family takes up his residence permanently with

his father-in-law as *ghar jamai*, what will be the effect on the rights of such son-in law to inherit (1) from his father, (2) from his father-in-law ?

116. *Succession.*—If a man die leaving a widow or widows, a son or sons, a daughter or daughters, brothers and other relatives, upon whom will the inheritance devolve ?

117. If there be more sons than one, will they take equal shares ?

118. If the sons do not take equal shares, state upon what principle the shares are regulated.

(i) Is any regard had to uterine descent ? Are the shares in the inheritance distributed according to the number of mothers ?

(ii) Is any regard had to the caste or tribe of the mothers, so that the sons by a wife of a high caste, or of the same caste or tribe with the father take larger shares than the sons by the wife of a low caste, or of a different caste or tribe ?

(iii) Is any regard had to the age of the sons, so that (1) the eldest son, (2) the youngest son, would take a greater or less share than his brethren ?

119. Can a father in his lifetime nominate a particular son as the fit person to take a larger share than his brethren after the father's decease ?

120. When an estate has been held jointly by a father and his sons, and is distributed amongst them upon his decease, are acquisitions made by the sons exempt from distribution; or will all the sons share in all the joint estate, moveable or immoveable, ancestral or acquired, whether or no any part of such estate have been acquired by any one or more of the sons, by gift or succession from a maternal grandfather or father-in-law, or other relative through a female ?

121. Where there are male descendants who do not all stand in the same degree of kindred to the deceased, and the persons through whom the more remote are descended from him are dead, will the nearer descendants exclude the more remote, or are the more remote descendants entitled to succeed, simultaneously with the nearer descendants ?

122. If in the case stated in question 121 the more remote descendants succeed simultaneously with the nearer descendants, how is the estate to be divided ?

Is it to be divided in equal shares amongst all the heirs; or is it to be divided into such a number of equal shares as may correspond with the number of the male lineal descendants of the deceased, who either stood in the nearest degree of kindred to him at his decease, or, having been of the like degree of kindred to him, died before him, leaving male lineal descendants who survived him ?

123. Where there is no son, but where the male lineal descendants are all grandsons or all great grandsons, will the estate be divided equally amongst all such grandsons or great grandsons, as the case may be, or will the shares be allotted to the grandsons proportionately to the shares which the sons would have taken had they been living, or to the great grandsons proportionately to the shares which the grandsons would have taken had they survived the deceased ?

124. Do the principles stated in the replies to questions 121 and 122 apply to every case of the distribution of an inheritance; or is there any distinction when collaterals inherit; that is to say, does a son or grandson always take the share his father or grandfather would have taken, if such father or grandfather had survived the deceased, whether or no the share descend lineally or through a collateral relative ?

125. Does the inheritance successively devolve upon all male lineal descendants, how low so ever; or is there any degree fixed in the descending line within which, if there be no male lineal descendants, the inheritance will devolve on other relatives. If so, state what that degree is ?

126. If a man die leaving a widow or widows, and either a daughter or daughters, or brother or their descendants, or uncles or their descendants, or great-uncles or their descendants, but no male lineal descendants within three generations, upon whom will the inheritance devolve ?

127. If the estate devolve upon the widow, define her interest therein ?

128. What rights has the widow to alienate by sale, gift, mortgage or bequest ?

(i) Are there any special circumstances or expenses under, or on account of, which alienation is permissible ? If so, what are these ?

(ii) Is there any distinction in respect of moveable or immoveable, ancestral or acquired property, or in respect of alienation to the kindred of the deceased husband ?

(iii) Supposing alienation to be permissible whose consent is necessary to make it valid ?

129. As regards the right of a Mahomedan widow to alienate, is any distinction taken in respect of her legal share ?

130. If there be several widows, do they take in equal shares ?

131. Is any distinction made in respect of the rights of widows who are not of the same family with their deceased husband ?

132. Is there any distinction in the rights of widows based upon the circumstance whether the husband was or was not associated with his brethren ?

133. What is the effect of unchastity upon the right of a widow in respect of the estate of her deceased husband ?

134. In the case of widows who are not Hindus, what is the effect of their remarriage ?

135. Under what circumstances are daughters entitled to inherit ? Are they excluded by the sons or by the widow, or by the near male kindred of the deceased ? If they are excluded by the near male kindred, is there any fixed limit of relationship within which such near kindred must stand towards the deceased in order to exclude his daughters ? If so, how is the limit ascertained ? If it depends on descent from a common ancestor, state within how many generations relatively to the deceased such common ancestor must come.

136. Is there any distinction as to the right of daughters to inherit (1) the immoveabl

or ancestral, (2) the moveable or acquired property of their father?

137 (1) Under what circumstances are daughters entitled to be maintained out of the estate of their deceased father?

(2) What is the effect of (a) marriage, (b) residence in a strange village, upon the right of the daughter to inherit, or to be maintained?

(3) If a married daughter with her husband live with the father up to his decease, can the daughter inherit?

(4) Can daughters who are married and barren, or widowed, and without male issue, or mothers of daughters only, inherit the father's estate?

138. What is the nature of the interest taken by a daughter in the property she inherits? Define her rights of alienation, if any, by sale, gift, mortgage, or bequest.

139. After daughters, do daughters' sons succeed? If so, is the property equally divided amongst all the sons of several daughters, or are the shares proportioned to the number of daughters who leave sons?

140. When a man dies leaving no male lineal descendants, no widow, and no daughters or daughters' sons, upon whom will the inheritance successively devolve?

141. When the estate devolves upon the mother of the deceased, what is the nature of the interest she acquires?

142. Define her powers of alienation.

143. On the death of the mother, will the property devolve on the heirs of the son, or on her heirs?

144. When the property devolves on brethren, what, if any, regard is paid (1) to uterine descent, (2) to association? Do uterine associated brethren exclude all others? In what order succeed—

(i) Unassociated brethren of the whole blood,

(ii) Associated brethren of the half-blood,

(iii) Unassociated brethren of half-blood?

If a man die leaving a uterine brother separated and a half-brother associated, how will these two inherit?

145. When a man dies leaving associated brethren and unassociated brethren, and the property devolves on his brethren, have the associated brethren any preferential claim to acquired property, moveable or immoveable property, or to ancestral moveable property?

146. In default of brethren, does the property devolve upon their sons?

147. Does the property ever devolve upon sisters, or upon sisters' sons. If upon sisters' sons, how are their shares computed?

148. Where a wife dies holding property in her own right, is the husband entitled to succeed to such property, or any part of it?

149. Can the son by a former marriage of a woman who contracts a second marriage inherit from (1) his natural father, (2) his stepfather? If from his stepfather, is his share equal to, or less than that of, his stepfather's own sons?

150. Is any distinction taken as regards the stepson (i) if he be not born till after the second marriage of his mother, (ii) if the stepfather in his lifetime assign him a share by deed?

151. Are stepsons entitled to be maintained by their stepfather? If so, till what age?

152. Enumerate in the order of their succession the persons entitled to the estate of a man who dies intestate leaving no relations.

153. If a person voluntarily retires from the world and becomes a member of a religious order, what is the effect upon (i) his right to retain his property, (ii) his right to acquire property by inheritance? Upon whom will devolve property which he would have inherited if he had not retired from the world?

154. State any rules recognised by the caste governing the succession to—

(a) Zemindaries,
(b) Service tenures,
(c) Headships of villages,

155. In the case of tribes practising polyandry, state carefully the rules of inheritance, e.g., does a man's property devolve upon his brother, his sister or his sister's son.

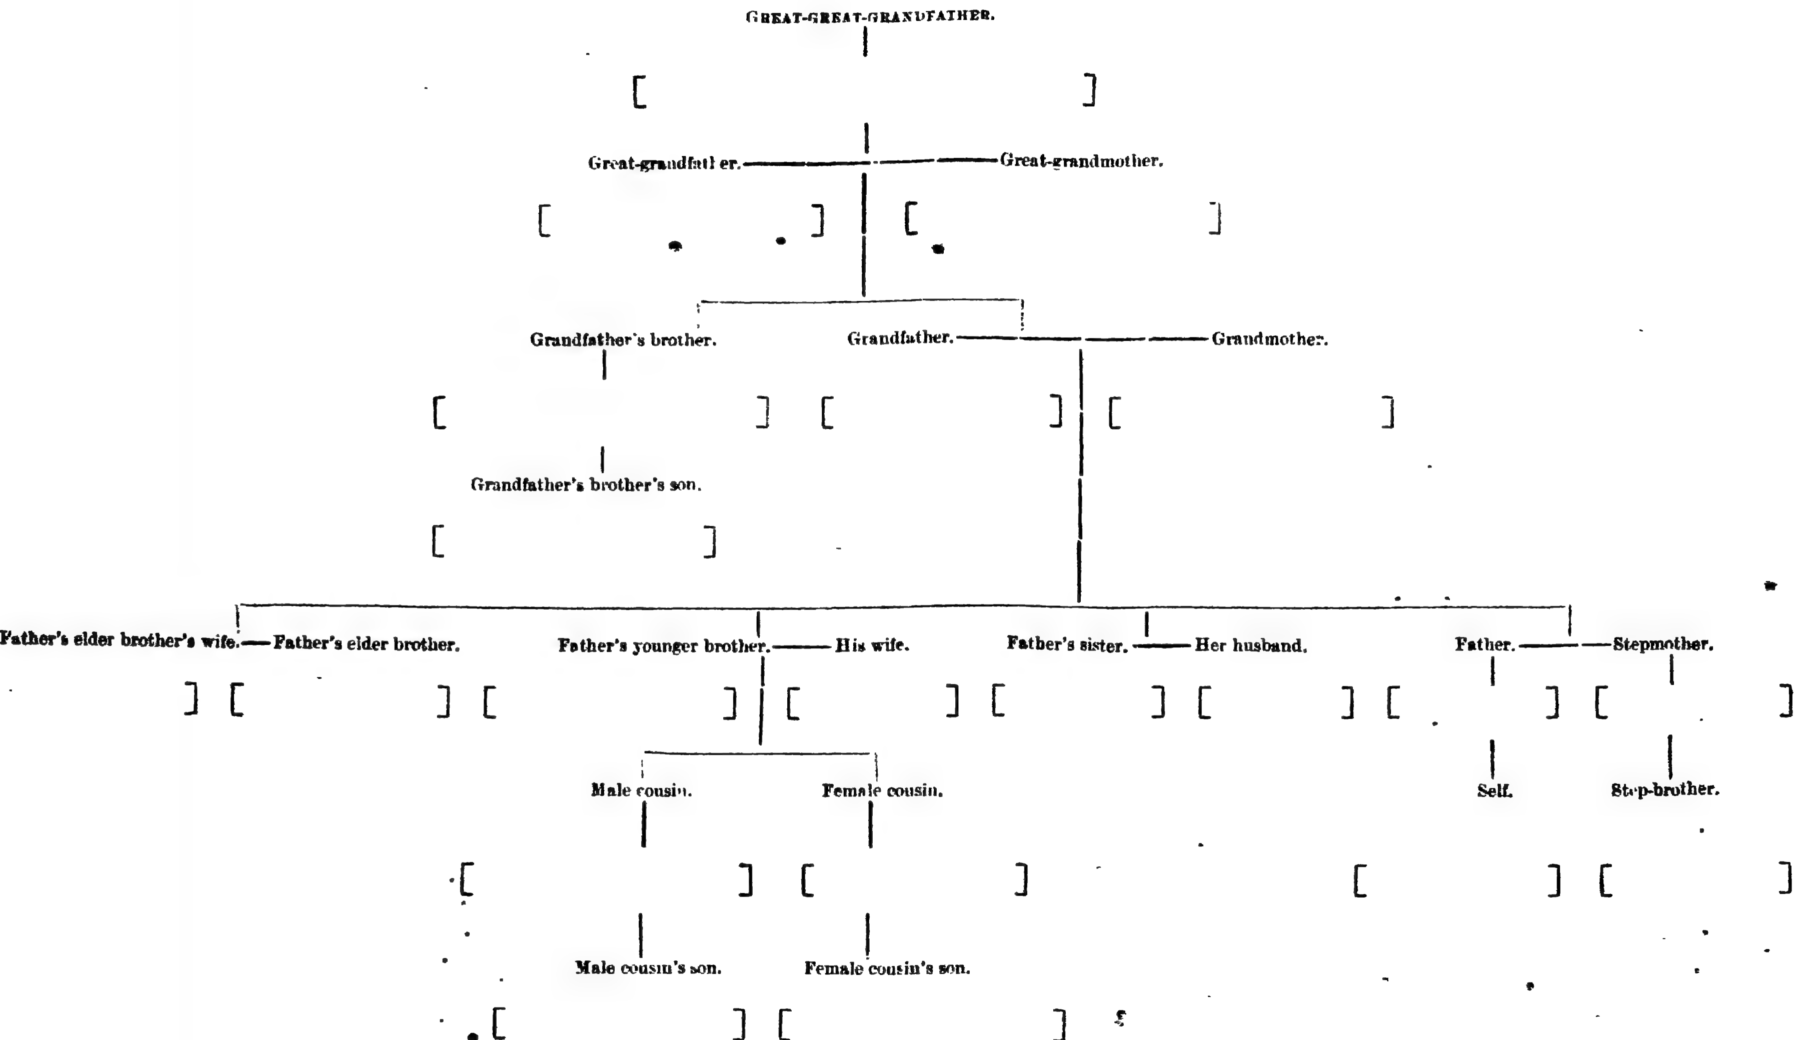
156. *System of Relationships.*—Are any persons considered to be relations besides those who are descended from a common ancestor?

157. Are all or any of the kindred of the wife considered to be the relations of—

(1) the husband,
(2) the husband's relatives or children?

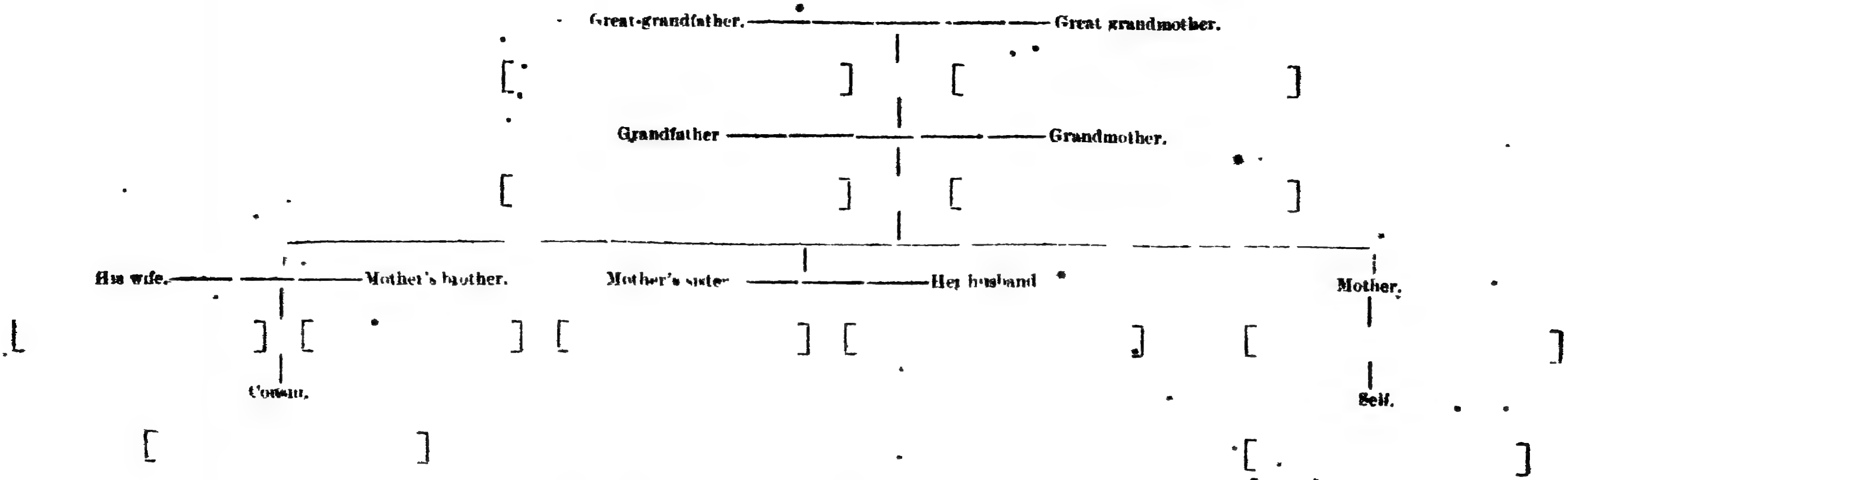
158. If so, state the persons who are relatives, with the names of the relationships.

159. How are generations reckoned?



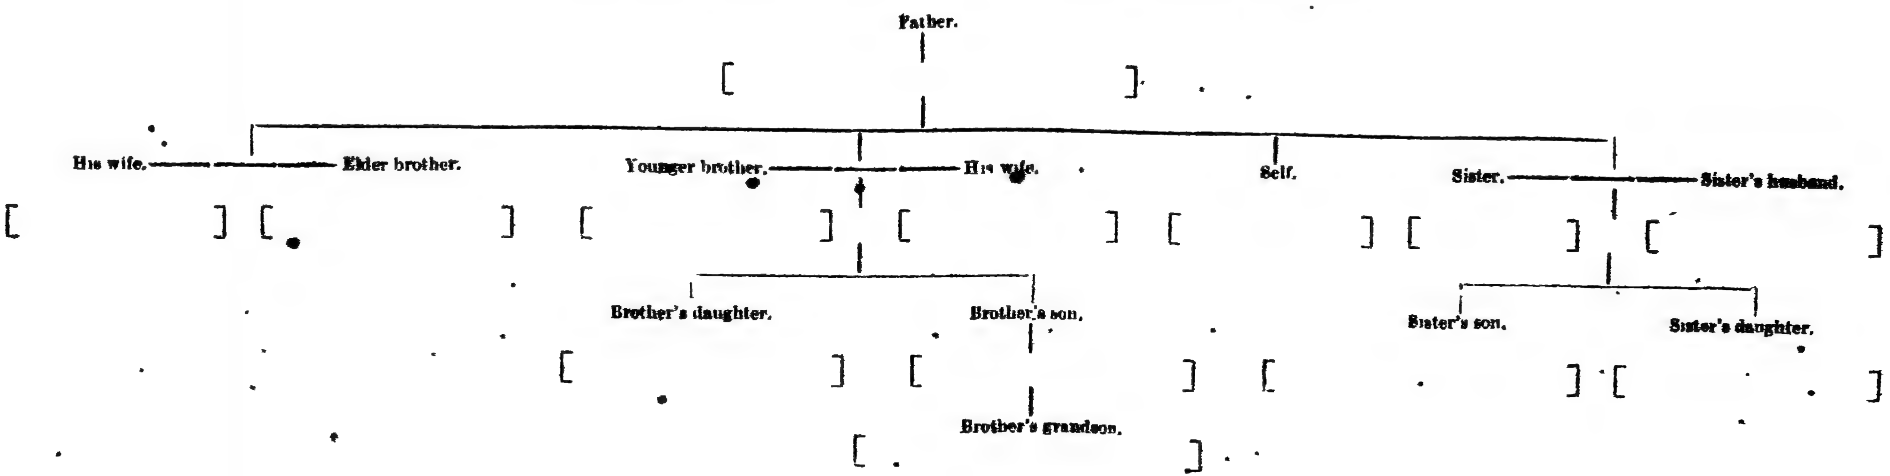
160. Give a table of kindred with the local names of the generations up to the third degree in both the ascending and descending line.

161. By how many generations are the following persons said to be related to the person whose relatives are to be reckoned?

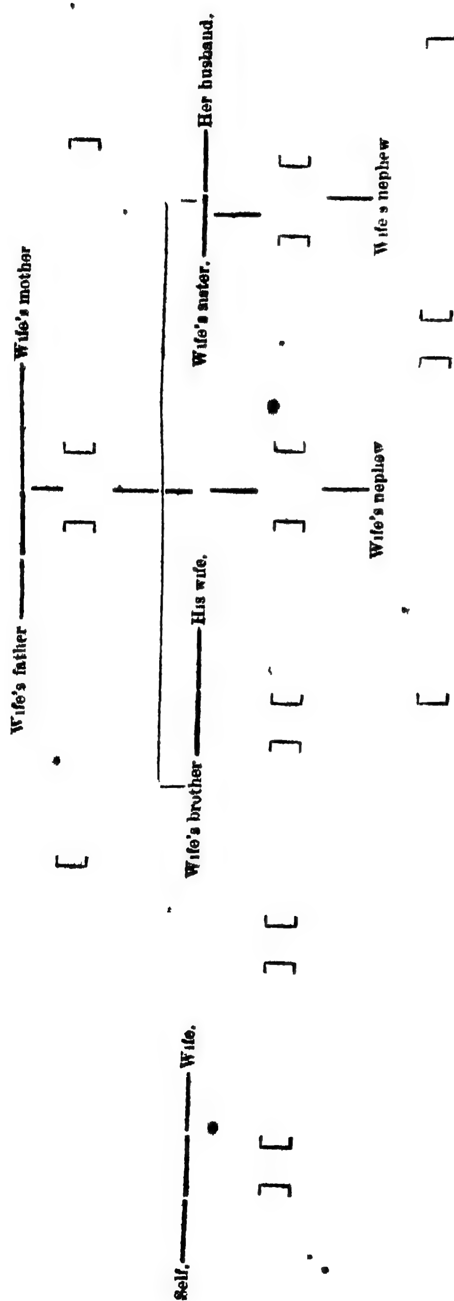


(1) Brother.
(2) Father.
(3) Uncle.
(4) Cousin-german, i.e., uncle's son.
(5) Brother's grandson.
(6) Great-grandson.
(7) Great-grandfather.

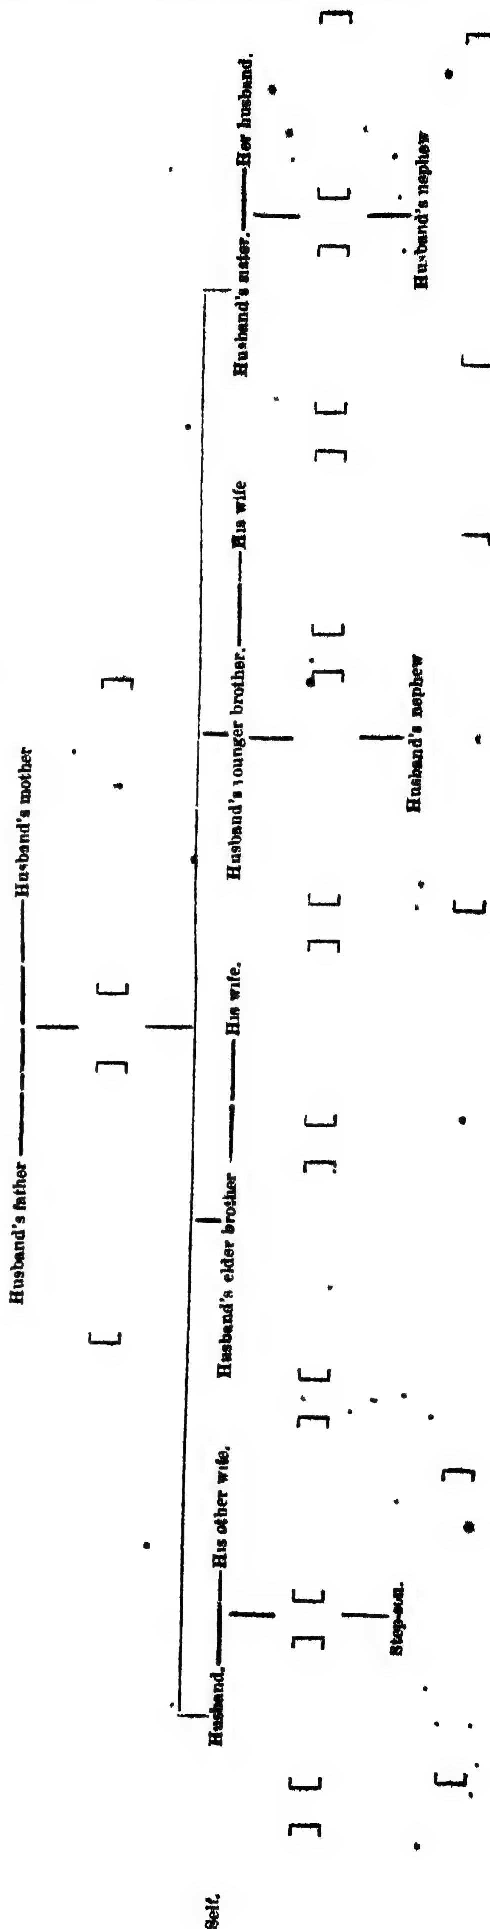
162. Fill in the following tables with the local names of the relations:—



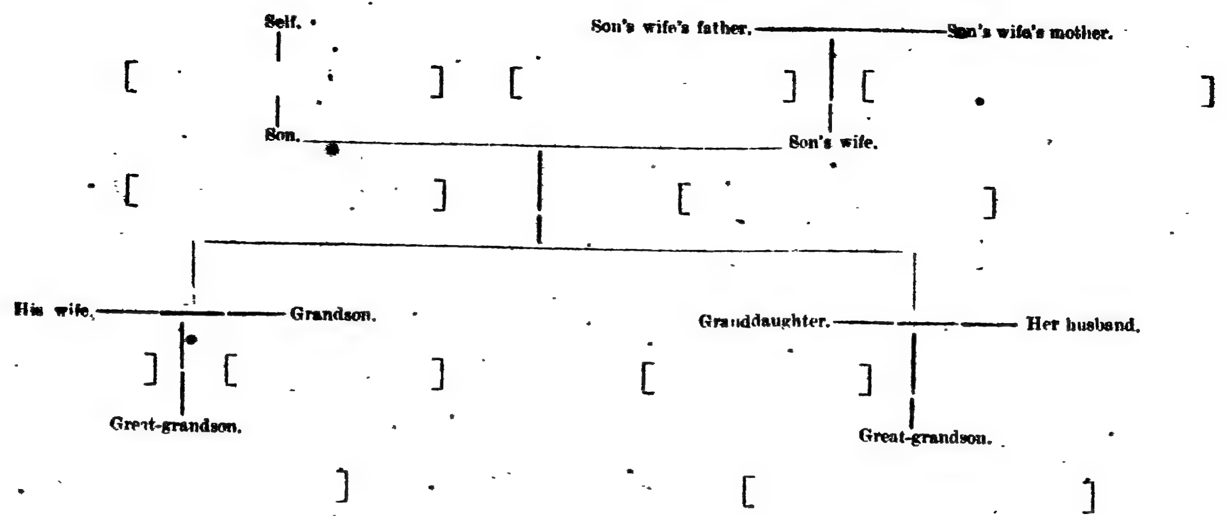
A.—Relations through the father, whether of man or woman.



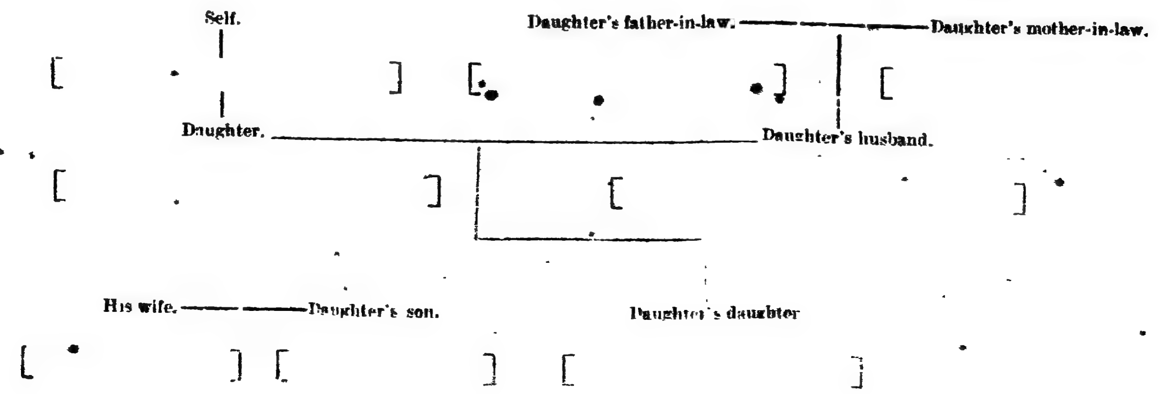
B.—Relations through the mother, whether of man or woman.



C.—Relations through the brother and sister, whether of man or woman.



D (1).—Relations through the wife, of a man.



D (2).—Relations through the husband, of a woman.

E (1).—*Relations through the son, whether of man or woman.*

E (2).—*Relations through the daughter, whether of man or woman.*

163. How is each group spoken of collectively by a man and by a woman?

164. Add any relationships not included in these groups for which there are special names.

165. Is a great-uncle distinguished from a grandfather's, and a parent's cousin from a man's own cousin?

166. Into what classes are relations distributed?

167. Specify each class and the relations included in it.

168. Give the distinctions, if any,—

(i) between sapindas, sakulyas, samanodakas, bandhus, and gotrajas.

(ii) between personal, paternal, and maternal kindred.

(iii) between legal sharers and residuaries, near and distant kindred, lineal and collateral relations.

169. State the various modes of addressing and speaking of particular relatives, *e.g.* how do men and women address and speak of their husbands and wives respectively?

170. How does a man address and speak of his brother-in-law?

171. Are there any cases in which names originally denoting particular relationships are used in addressing or speaking of persons not related in the manner the name denotes? *e.g.*. a man sometimes speaks of another man as his *bhái* when in fact he merely means that the other is a member of his own caste.

172. Are genealogies carefully kept?

173. Do they include the names of females?

174 Note any forms of adoptive relationships based upon friendship or on land (*e.g. phulbahin* and *bhumbhái*) and state what consequences and obligations are annexed to them.

II.—Domestic Ceremonies.

175. *Birth and Pregnancy.*—Describe any ceremonies performed during pregnancy, and state what effect, if any, they are believed to have upon the mother or child.

176. What posture is adopted in accouchement?

177. Who attends on the mother (*a*) during her confinement, (*b*) after the confinement is over?

178 What ceremonies are performed on the birth of a child?

179. Are the ordinary occupations of the father given up or interrupted in any way in consequence of the birth of a child?

180 What reasons, if any, are assigned for such interruption?

181. Are there any special customs with reference to twins?

182. *Adoption.*—Describe the different ceremonies in use for adoption.

183. Does the validity of the adoption depend upon the performance of the customary ceremony?

184. Does the status of the person adopted depend upon the form of ceremony used?

185. If so, what is the effect of each of the different forms?

186. *Puberty or Adolescence.*—What ceremonies are performed when (*a*) a son, (*b*) a daughter attains puberty.

187. In the case of a son, is there any ceremony purporting to admit him among the grown men of the caste?

188. *Betrothal.*—Describe the ceremony of betrothal.

189. What is considered the binding portion of the ceremony?

190. Is there any distinction between formalities after which the betrothal is reversible and formalities which are absolutely binding?

191. At what age does betrothal take place?

192. Whose consent is necessary?

193. If a betrothal be annulled, is there any custom as to the repayment of the expenses incurred?

194. *Marriage.*—Describe in detail the various kinds of marriage ceremonies in use, distinguishing between superior and inferior kinds?

195. What is considered to be the essential or binding part of each kind of ceremony?

196. In the marriage ceremony is there any pretence of capturing the bride, or does any part of the ceremony or of the previous or subsequent proceedings suggest that marriage by capture was formerly in vogue.

197. In the marriage ceremony is there any symbol of a previous marriage to any deity, *e.g.*, is the bride first married to a tree or to any natural object?

198. *Death and Burial.*—Do the caste burn, bury, or expose their dead?

199. If buried, in what position?

200. Where are the bodies or ashes finally disposed of?

201. Describe the ceremonies performed at the burning or burying of a corpse?

202. Are any ceremonies performed for the propitiation of (*a*) ancestors in general, (*b*) childless ancestors, (*c*) men who have died a violent death, and if so, of what nature and at what seasons?

203. Describe the ceremony of *sraddh*, and state whether the caste perform it or not?

204. Who officiates as priest at the funeral ceremonies and repeats formulæ of prayer (mantras, &c.)?

205. In the case of castes which do not employ Brahmans it should be enquired whether the sister's son or other relative on the female side officiates in the place of the Brahman.

206. *Purification.*—Are ceremonial purifications practised?

207. Are any persons at any time impure or unclean and requiring purification, as after childbirth, during menstruation, after funerals, &c.

208. For how long does the ceremonial impurity last?

209. How are they purified?

III.—Religion.

210. *Worship, Priests and Temples.*—To what religion, and to what sect within the religion, do the caste belong?

211. If Hindus, do they by preference worship any special one of the regular Hindu deities and are there any reasons for this preference?

212. Have its members always professed that religion, or were they converted to it *en masse* or gradually?

213. How, did their conversion take place, and when—before their migration to their present abode or after?

214. Are members of the caste found in the neighbourhood professing the tenets of different religions or sects?

215. Do they affect a peculiar saint or shrine?

216. State the names, origin, and attributes of the minor-village deities and local or patron saints whom they worship, describing, if possible, the shape and aspect of the shrine, the ceremonies observed in worship, the nature of the offerings made; the times, days, or seasons when they are made; the caste and sub-division of the officiating priests and of the persons who take the offerings.

217. Are any of these deities peculiar to women and children?

218. State any indications of ancestor worship, snake or tree worship, sun, moon, fire, or devil, worship which the religious practice of the caste suggests.

219. Is there any special shrine to which pilgrimages are made, and at what seasons?

220. Has any great religious teacher arisen in the caste? Give his name and state his peculiar tenets.

221. Is the caste, though nominally belonging to one of the main religions, excluded from any of the rites and ceremonies practised by other castes belonging to the same denomination, and is any specific reason assigned for this exclusion?

222. All cases of left-handed sect and worship of sexual principles, orgies, &c., should be noted.

223. Have they any ceremony of admission into the religious body corresponding to baptism or circumcision?

224. All cases of Hindus and Mahomedans, or their women and children, worshipping the same deities or saints, or frequenting the same shrines, should be carefully noted.

225. Do the caste employ Brahmans for religious and ceremonial purposes?

226. If so, to what caste or section of Brahmans do they belong, and are they received on terms of equality by other Brahmans?

227. If they do not employ Brahmans, what class of people serve them as priests?

228. Are there any family priests who perform ceremonial functions not connected with any particular deity?

229. Are particular persons or clans set apart as priests?

230. Is the same person often both priest and chief?

231. Do they practice austerities, observe chastity, &c.?

232. Is any special building set apart for worship?

233. Is it built in a particular position, as facing the east, &c.?

234. Has it any special shape, and is it called by a special name?

235. Are idols kept there?

236. What rites are performed?

237. Are all the rites public, or are any of the nature of mysteries or orgies?

238. *Sacrifice.*—Is sacrifice offered, to what deities, and of what animals?

239. May any one or only priests offer sacrifice?

240. Where is sacrifice offered?

241. After sacrifice do the priests or worshippers consume or remove the objects offered?

242. Are substitutes used in sacrifice, such as part of an animal, an effigy or imitation?

243. Do worshippers sacrifice parts of themselves, such as hair, nails, drops of blood, &c.?

244. Is there any tradition of men, women, or children having been sacrified in former times to any deity?

245. If so, name the deity and state all you can learn about the tradition.

246. Whence and in what manner was the victim obtained?

247. Enquire why the custom of human sacrifice was discontinued, how long ago, and what was substitued in its place?

248. *Festivals.*—Give a list of the festivals observed, stating the dates when each is celebrated.

249. What do they consist in—processions, games, dances, banquets, &c.?

250. Which are at regular periods and which occasional?

251. Are there annual religious festivals marking the months, seasons, equinoxes, solstices, seed-time, first fruits, harvest, &c.?

252. Is there an annual feast of the dead?

253. To what extent does the caste observe the great Hindu festivals?

254. Is there any great festival observed by the caste, but not observed by Hindus generally?

255. Are there festivals at which marriageable youths and girls mix, and matches are made?

256. Are any festivals specially connected with sexual relations?

257. Is drunkenness common on these occasions, and is the use of any particular intoxicating drink regarded as part of the festival.

258. *Fetishism.*—Do spirits or deities enter into or attach themselves to objects, such as sticks, bones, ornaments, &c.?

259. Are such objects kept sacred and believed to contain supernatural power?

260. Are blocks of wood, stones, &c., believed to be inhabited by deities, and worshipped accordingly?

261. *Worship of natural spirits, plants, and animals.*—Are there spirits especially attached to natural objects, such as rivers, springs, wells, rocks, trees, animals, &c.?

262. How are they worshipped?

263. Are fields believed to be haunted, and by whom?

264. Are groves and woods favoriate places of worship or sacrifice?

265. If so explain what gods are worshipped there, and note if the wood or grove is or is supposed to be part of a large forest which has been cleared, a portion being left as a refuge for the forest gods.

266. Are any beasts worshipped as gods? If so describe the mode of worship.

267. *Ancestor Worship.*—Are the souls of ancestors worshipped with prayers and sacrifices?

268. Describe briefly the ceremony in vogue?

269. Is the supposed primitive ancestor of the caste worshipped under the form of, or in connexion with, some sacred animal, plant, or other object as a totem or clan deity?

270. Are animals sacrificed at funerals; if so, with what object?

271. Are any funeral offerings given, so that the souls of the dead may become possessed of the objects or their phantoms?

272. Are food, money, ornaments, &c., placed near the corpse, burnt or buried with it, or offered periodically at the place of burial?

273. Are the survivors in fear of the ghosts of the dead?

274. Do they attribute dreams to their influence, and do they take any means to get rid of them, or keep them off?

275. Do ghosts of the dead haunt houses or burial-places, and if so, in what forms?

276. Does their doing so indicate that their bodies have not been properly buried?

277. How are ghosts propitiated?

278. Are there several kinds of them; if so, state the names, characteristics, and attributes of each?

279. Are any days sacred to ancestors, and what is done on these days?

280. Do the caste go to Gya or to any other well-known place of pilgrimage to perform the sradh of their ancestors?

281. *Totems.*—Is the caste or any of its sub-divisions named after any animal, plant, weapon, or implement?

282. Do they show their reverence for any such object either by special worship or by abstaining from killing, eating, cutting, burning, using, or naming it?

283. Are there any cases of the object which the caste reverence being tattooed or painted on the body, possibly in a very conventionalised form, or of its representation being always carried about on the person?

284. If so, how do the members of the caste explain the practice?

285. Do the women of the caste pay special reverence to certain trees, by veiling their faces before them as if in presence of an elder relative, or worship them in the hope of getting children in the belief that the spirit of the ancestor inhabits them?

286. Are any trees or plants used or worshipped at weddings and similar ceremonies, and are children named after them?

IV.—Superstitions.

287. *Omens, &c.*—Do any superstitions prevail as to lucky and unlucky days, numbers, animals, places, houses, points of the compass, roads, physical functions, such as sneezing, spitting, &c., natural events, or calamities?

288. Are there any superstitions connected with stars, and may they be got over by burying a picture or rude representation of the star?

289. Is there any objection to crossing water under certain conditions? Is meeting a particular animal regarded as ominous, and does the character of the omen depend upon the direction in which the animal is seen? Are omens taken from accidents, such as stumbling, &c?

290. Are there any peculiar customs as to wearing or abstaining from wearing particular kinds of dress, jewels, ornaments, &c., as to using particular kinds of cooking vessels, or as to eating or growing particular plants or drugs?

291. In the case of plants, notice whether the name of the plant affected by the superstition corresponds with the name of a sub-division of the tribe.

292. Are there any superstitions as to the naming of children, *e.g.*, are two names given, one for everyday purposes and one for ceremonial use, or is a son whose elder brother has died given an opprobrious name?

293. Do these practices apply to girls as well as to boys?

294. *Oaths and ordeals.*—Are any forms of oath in common use, and are they accompanied by any symbolic forms, such as swearing on a tiger's skin?

295. What consequences are supposed to be entailed by breaking an oath?

296. Are any ordeals in use, such as plunging into water, passing through fire, eating food under special conditions, &c.?

297. Are they used merely for the decision of personal disputes or for questions affecting the community, such as the boundaries of villages, &c.?

298. *Magic and Witchcraft.*—Is the practice of magic arts confined to special sorcerers, witches, &c.?

399. Are these priests, &c., connected with religion or is there jealousy or hostility between the priest and the sorcerer.?

300. What are the functions of sorcerers and witches, and how are they generally regarded?

301. Are there any supposed arts by which it can be determined whether a particular individual is a witch or sorcerer or not?

302. Are spirits or demons called upon to give oracles, disclose secrets, do good or harm?

303. Is demoniacal possession believed in, and what remedies are resorted to in order to cure persons supposed to be possessed?

304. Is such possession regarded as a valuable quality; if so how is it acquired; is it confined to particular castes or clans?

305. Are dreams regarded? Do they give information of the past and prophecy or omens for the future?

306. Are any special persons called upon to interpret them, and is there any recognised system of interpretation?

307. Are they ascribed to visits or communications from spirits, as, for instance, to persons recently deceased in the family of the person who has the dream?

308. Is there any mode of propitiating the spirits of persons recently dead so as to prevent them from causing dreams?

309. Is the effect of the evil eye believed in?

310. To what is it attributed?

311. How is it obviated?

312. Are sorcerers and witches supposed to act on their victims by objects belonging to them or intimately connected with them, such as cut hair or nails, or by making effigies or pictures of them and wounding the pictures in order that the victims may be affected?

313. Is special care therefore taken to destroy cuttings of hair or nails?

314. Is any kind of divination or astrology practised?

315. Who are its professors?

316. Describe the modes of divination and exorcism in use; and state what class of persons are resorted to as exorcisers.

317. Is disease attributed to the influence of spirits?

318. How is the particular spirit at work detected and how appeased?

Ceremonial Prohibition or Taboo.

319. Is any particular food, animal or vegetable, forbidden, though obtainable and wholesome?

320. Do the whole caste abstain from it, or only certain families or individuals, or persons under some special circumstances?

321. Is the prohibition religious?

322. Is the animal or plant abstained from regarded as in any way divine, as a tribe fetish, the incarnation of a local deity, or personal guardian spirit or the soul of some ancestor?

323. Is it the animal or plant from which the caste or sub-division derives its name?

324. Give any explanation that may be current of the prohibition in question.

325. Do any members of the caste object to eating with, touching, speaking to, looking at, or calling by name other persons?

326. Do these prohibitions apply to persons of different rank, occupation, or caste?

327. Is any particular caste held in peculiar abhorrence, and if so why? A good instance of what is meant is afforded by the fact that the Doms hold the Dobis in special detestation It is believed that other low castes have similar eccentric prejudices.

328. Are women and children specially prohibited from doing any particular religious acts, entering particular temples, performing particular acts of worship, &c.?

329. Do similar prohibitions apply between relations? And specially between relations by marriage, *e.g.*, does the husband's father avoid the wife's relations, &c?

330. What appears to be the motive?

331. Is the person whose name may not be mentioned supposed to be holier than the other?

332. Is there an idea of magical harm, or is it merely a question of social separation?

333. Are the names of chiefs, dead persons, &c., avoided in conversation?

334. Are any special words or subjects considered improper?

335. Are there any cases in which gods, persons, or subjects whose mention by name is prohibited are spoken of under some honorific title?

336. *Agricultural Superstitions.*—Mention any remarkable superstitious beliefs connected with agriculture such as the days on which ploughing, sowing, reaping, &c., must be begun intermitted, or finished; the periods within which a shower of rain is specially lucky or unlucky; the customary number of times agricultural operations should be performed; the objects set up in the fields to avert injury to the crops, to frighten away demons, &c.

337. Is any propitiatory or quasi-religious ceremony observed before the commencement or after the completion of any agricultural operations, such as the sinking of a well, sowing, reaping, or the like?

338. What times and seasons are lucky or unlucky for the commencement or completion of the various agricultural operations?

339. Are there any gods specially connected with particular crops?

340. If any of these are peculiar to the caste, the fact should be noted?

V.—Social Customs.

341. *Food and drink.*—Which of the following articles of food do the caste eat or abstain from eating—flesh, wine, monkeys, beef, pork, the flesh of cloven-footed or uncloven footed animals, fowls, scaley or scaleless fish, crocodiles, snakes, lizards, jackals, rats, other vermin, the leavings of other people?

342. Are there any seasons during which the use of special articles of food is forbidden.

343. Are such restrictions due to the desire to increase the stock of such article of food or to superstitious or sanitary causes?

344. Is the use of certain articles of food restricted to women or children, or to chiefs and persons of rank?

345. Are individuals or families prevented from eating certain animals and plants for superstitious reasons, such, for instance, as their being the totems of the individuals or family?

346. Does all the household eat together, or each person separately, or is there a distinction of ranks, sexes or ages?

347. Do men and women eat together?

348. Are there any ceremonies used at the commencement of meals, such as offerings to the divinities, &c., or any religious rites connected with them?

349. Are there any marked peculiarities in the mode of eating and drinking of the caste, and how are these peculiarities explained?

350. State what spirituous liquors, drugs, and narcotics are in ordinary use.

351. Are any of them connected with particular religious ceremonies or festivals?

352. Are any of them supposed to have the effect of keeping off malaria?

353. How is the use of spirituous liquors and drugs regarded by the caste—for instance is (*a*) drunkenness, (*b*) habitual indulgence in opium or ganja looked upon as disreputable?

354. *Customs of Social Intercourse.*—What customs prevail as to salutation?

355. Do they differ according to rank and relationship?

356. How do members of a family, friends, and relations, and strangers greet one another?

357. What special processes of compliment and rules of precedence are in vogue?

358. How are guests, women, and aged or infirm persons treated?

359. What are the rules of hospitality as recognized between kinsfolk, neighbours, and strangers?

360. Are peculiar forms of language in use?

361. Are certain words or forms of address used or avoided in addressing certain people?

362. *Customs bearing on Social Status.*—Name the lowest well-known caste with which the caste will (*a*) eat pakki, (*b*) eat kachhi, (*c*) drink, (*d*) smoke.

363. Name the highest well-known caste which will eat, &c., as in the last question with the caste.

364. Is there any special article of food their abstaining from which tends in their opinion to raise them above some other caste which does not abstain from it?

365. Mention any remarkable customs of the caste regarding dress, ornaments, implements of handicrafts fishing or hunting, distinguishing marks, cutting of hair and beard, musical instruments, dances, &c., which affect their social status in relation to their neighbours.

VI.—OCCUPATIONS.

366. What do the caste believe to have been their original occupation or group of occupations?

367. To what extent have they or any sections of them departed from it?

368. Describe their present occupation?

369. If their occupation is that of—

(a) *Artizans*—What is their industry and in what special material do they work, or abstain from working?

(b) *Hunters*.—Do they catch game or vermin?

(c) *Fishermen*—Do they catch fish only or also crocodiles and tortoises?

(d) *Sweepers*—Do they remove night-soil or not?

370. Name any implement or mode of working which is characteristic of the caste, and also note whether there is any form or detail of their main occupation by abstaining from which they believe themselves to be raised above others of the same craft?

371. Do they habitually prostitute their (1) unmarried (2) married women?

372. Does a change of religion, such as conversion to Mahomedanism, or as joining a special sect of Hindus, usually involve a change or modification of occupation on the part of the convert?

373. In cases where an hereditary occupation is abandoned, do the persons changing their occupation change or modify their caste name and are their ties with those members who adhere to their original occupation in any way broken or relaxed?

VII.—RELATIONS TO LAND.

374. To what class of agriculturists do the caste or tribe usually belong, *e.g.*, are they—

(1) Zemindars;

(2) Tenure-holders, specifying the kind of tenures they hold;

(3) Occupancy or non-occupancy raiyats, stating whether they have or claim any privileges in respect of rent;

(4) Nomadic cultivators, specifying the mode of cultivation they follow;

(5) Landless day-labourers; stating the manner in which they are paid?

375. Have they any legend or tradition accounting for the position they occupy?

376. Have the caste any privileges in respect of land, *e.g.*, do they—

(a) hold at lower rates of rent than their neighbours;

(b) hold a certain proportion of their holdings rent-free;

(c) receive a certain proportion of the produce of each field or of particular crops in consideration of any kind of service?

377. Do they hold any peculiar kinds of tenures?

378. If so, have they any tradition accounting for the fact, such as that they are the descendants of the first clearers of the soil, of a former dominant race, or the like?

379. Do they claim special privileges in respect of land on the strength of traditional affinity to, or supposed contact with, the ancestors of the local zemindars?

380. Have they any hereditary right to perform certain services or receive certain fees?

381. Is it supposed that the ancestors of the local zemindars were members of the caste or tribe, and do they now admit this, or deny it?

382. Are there any traces among the caste or tribe of village communities, or of a communal organization embracing groups of villages?

383. Give all details that can be ascertained on this subject, or if the organization has already been described in print, quote the reference.

384. Does the system preserve its vitality, or is it dying out?

385. If the latter, state from what cause.

386. Are there any traces of the periodical redistribution of common arable land among the members or sections of the community?

387. If the communal organization has now fallen into disuse, can any trace of its previous existence be found in the character of distribution of the tenures now held by the caste or tribe?

388. Are there any restrictions upon the order in which certain fields are to be cultivated or certain crops sown?

389. Do communal rights of pasturage exist, or are they asserted over land which is private property?

390. Among hunting, fishing, or wandering tribes does any apportionment of land or water exist between the divisions of the tribe, each division confining its operations to the tract allotted to it, and does the apportionment extend to the individual members of the division?

391. Does this custom obtain even where the land or water apportioned is not the property of the tribe?

Sources of information.—Here should be noted the names, residence (village and thana), profession, caste, sub-caste, and section of the persons who answered the questions. If any of them are *ghataks*, genealogists, heads of caste panchayat or occupy any hereditary official position in relation to the caste, the fact should be stated. If the answers to the questions have been derived from any source other than personal enquiry addressed to members of the caste concerned, the source should be stated, and such references given as may enable the officer in charge of the enquiry to test the correctness of the answers.

JOHN C. NESFIELD.
H. H. RISLEY.

Extract from a Note, dated the 2nd April 1885, by Mr. H. H. Risley, C.S.

2. The objects aimed at in the enquiry are understood to be partly scientific and partly administrative. From the standpoint of the modern science of anthropology, it is hoped that it may be possible, by careful observation and record of the social practices now prevailing in Bengal, to arrive at fresh data throwing light on the ethnological problems on which scientific men, such as Sir John Lubbock, Sir Henry Maine, Mr. E. B. Tylor, M. F. de Coulanges, and Herr A. Bastian, are engaged in Europe. The principal points, which it is supposed a record of Indian customs may help to clear up, are the early history of marriage, the development of the family, modes of relationship, the early history of inheritance, and the growth of property in land. These are some of the questions which European ethnologists are interested in, and a distinct hope has already been expressed by Sir Henry Maine that something may be done to render available, for the use of scientific men in Europe, the large body of barbarous or semi-barbarous custom, both Aryan and non-Aryan, which still survives in India. It is felt that many of the ethnological speculations of recent years have been based too exclusively upon comparatively unverified accounts of the customs of savages of the lowest type; that the unrivalled opportunities for observation which European officials in India possess have hitherto been imperfectly utilized; and that such results as have been obtained have been recorded in publications not readily accessible and without sufficient regard to the lines of investigation pursued by ethnologists in Europe. It is also apprehended that the rapid spread of education and the growth of practical intelligence in India may lead, within the next generation, to the abandonment of many practices which are of special interest to ethnologists. Besides the general problems enumerated above, there are various questions of special interest to students of Indian history and literature, which may be rendered more intelligible by an accurate record of the actual facts existing at the present day in respect of caste arrangements.

3. From the administrative points of view, on the other hand, many persons will set down the proposed enquiry as practically useless. Indian administration, it will be said, is not made any more efficient by the elucidation of historical or pre-historic problems. Such researches are in the nature of luxuries. Government may countenance them in the same way and to the same extent as it patronizes learned societies; but they have no direct bearing upon the actual work of administration. This view is at first sight plausible enough, but it ignores the important fact that native society is made up of a network of sub-divisions governed by rules which affect every department of life, and that in Bengal, at any rate, next to nothing is known about the system upon which the whole native population regulates its domestic and social relations. If legislation or even executive action is ever to touch these relations in a satisfactory manner, an ethnographical survey of Bengal and a record of the customs of the people is as necessary an incident of good administration as a cadastral survey of the land and a record of the rights of its tenants. The census of 1881 has provided the necessary statistics: it remains to bring out the facts which lie behind the statistics. The relations of different castes to the land their privileges in respect of rent, their relations to trade, their social status, their internal organization, their rules as to marriage and divorce: all these are matters intimately concerned with practical administration. For instance, the marriage and divorce customs of the lower castes are constantly coming into the criminal courts, and I believe it is the wish of many experienced judicial officers that accurate information might be made available on the subject. Again, the distribution of the various castes in each district has a direct and important bearing on the relief of distress, as different classes of the population may require different modes of relief. Brahmans, for instance, weaving castes, and earth-workers cannot be treated on the same lines. The same argument applies to the working of primary village schools and to some kinds of land questions. Thus the Mundas in Lohardugga and the Sonthals in the Sonthal Pergunnahs and elsewhere put forward apparently fantastic claims to privileges in respect of land, the clue to which is probably to be sought in some traditional customary law peculiar to Kolarian tribes. Under the head of marriage, again, an accurate knowledge of the practices actually prevailing among the main body of the people, as distinguished from the literate castes, could hardly fail to be an important factor in any influence that Government or unofficial bodies might at any time bring to bear with the object of discouraging infant marriage or promoting the remarriage of widows. Finally, it is difficult to exaggerate the advantages of the hold over the people which even a slight knowledge of, or interest in, these matters gives to both judicial and executive officers.

4. A large mass of information regarding the castes and customs of the people is already in existence, but it is buried away in books not generally known; in the journals and proceedings of learned societies; in oriental periodicals; and in official reports. These data, though of great value as materials for an account of the castes of Bengal, are for the most part of a fragmentary character, and can only be made accessible to men of science in Europe by carefully collecting them, recasting them in accordance with the modes of treatment adopted by modern ethnologists, and testing them by comparison with the actual facts of the present day. This process differs widely from mere compilation, and involves the necessity of collecting fresh data on some regular system.

EXHIBITION OF SILK COCOONS.

No. 19M.A., dated Calcutta, the 17th March 1885.

From—A. Smith, Esq., Commissioner of the Presidency Division,

To—The Secretary to the Government of Bengal, Financial Department.

With reference to the correspondence ending with this office No. 17M.A., dated the 24th January last, I have the honour to submit herewith copy of a letter, No. 1779G., dated the 16th ultimo, from the Collector of Moorshedabad, containing a full account of the second exhibition of silk cocoons held in his district with reference to Government No. 277T.F. (Agriculture), dated the 8th April 1884.

2. It will be seen that the opening balance at the beginning of the year has been shown to be Rs. 2,631-2-3, while Rs 2,571-10-9 were shown as the closing balance at the end of the previous year, in paragraph 18 of Mr. Mosley's letter No. 2487G., dated the 19th February 1884, a copy of which was forwarded to you with this office No. 22M.A. of the 29th idem. The cause of this discrepancy is explained below:—

	Rs.	A.	P.
Balance shown in paragraph 18 of Mr. Mosley's letter No 2487G., dated the 19th February 1884 ...	2,571	10	9
The unexpended balance of subscriptions realized in Beerbhoom and remitted by the Collector of that district after the close of the exhibition of 1884 ...	51	7	0
Savings Bank interest for 1883-84	8	0	6
Balance shown in the report under review	2,631	2	3

3. The result of the exhibition seems, on the whole, to be fairly satisfactory.

No. 1779G, dated Berhampore, the 16th February 1885.

From—J Anderson, Esq, Collector of Moorshedabad,

To—The Commissioner of the Presidency Division.

With reference to the Bengal Government No. 277T.F. (Agriculture), dated 8th April 1884, copy of which was forwarded with your No. 2M A., dated 17th idem, a meeting was held on the 27th August last to take into consideration the subject of holding a second exhibition of silk cocoons.

2. It was resolved at this meeting that this second exhibition be held at Berhampore, opening on the 19th January, and closing on the 24th January 1885, when the prizes would be awarded, and that the following be appointed a working Committee, with power to add to their number:—

The Collector of Moorshedabad.
Mr. Stocks.
" A. Gallois.
" Morey.
Baboo Radhica Charan Sen.
" Sriram Dutt.
Rai Dhunput Singh, Bahadoor.
Baboo Shama Das Rai.
Baboo Mukund Lal Burman.

3. As the balance at credit of the Exhibition Fund at the time was Rs. 2,631-2 3, or more than what was expended for the first exhibition, it was resolved not to call for further subscriptions or to ask for aid from Government, but merely to request those who promised to subscribe annually to send in their subscriptions. The names of the subscribers, with the annual subscriptions which they had promised, are given below—

	Rs.
Maharanee Surnomoyee of Cassimbazar	500
Bengal Silk Company, Limited	200
Messrs. L. Payeen and Company	200
" Watson and Company	100

All the above sums were realized, except that from Messrs. Watson and Company, who, it appears from a communication from the Collector of Rajshahye, wished to have the present exhibition held at Rampore Beauleah, and were unwilling to subscribe towards a second exhibition if held here although at the first meeting, above alluded to, one of their Agents, Mr. Morey, was present and sanctioned its proceedings. Besides, the preparations for holding this exhibition at Berhampore were then too far advanced to allow of any alternative course being taken. A sum of Rs. 30 was also received from the Maharajah of Nattore, through the Collector of Rajshahye.

4. Notices of the forthcoming exhibition were sent to the Collectors of the neighbouring districts of Rajshahye, Beerbhoom, Maldah, and Nuddea for publication in their districts. Copies of the proceedings of the meeting referred to in my paragraph 1 above were also

forwarded to these officers, and their co-operation was solicited; but judging from the small number of exhibitors from these districts, it would appear that the subject did not receive much attention at their hands.

5. The exhibition was opened by me (as Collector) at noon on the fixed day (19th January) in the presence of a good number of European and native gentlemen and a large body of exhibitors. After a few general remarks, Baboo Baikant Nath Sen, one of the leading pleaders, and himself also a zemindar, was requested to address the cocoon rearers present in Bengali. In the course of his remarks he explained the object of the exhibition and the intention of its promoters, pointing out that, unless they (the rearers) sought to bring about a general improvement in the quality of their cocoons, that object and that intention would be entirely frustrated. The means which they should take to effect this were also indicated in the course of his remarks.

6. The exhibition remained open till the 24th January, on which date prizes and certificates were distributed by the Deputy Collector in charge during my absence in the interior, the cocoons having in the meantime been judged by two experts, namely Messrs. Stocks and Gallois, who were appointed judges by the Committee. As regards those who did not obtain any prizes, a rupee to each was granted as diet money and compensation for the trouble and expense to which they had been put.

7. The number of exhibits from each district for this and the previous year is shown below:—

	1884.	1885
Moorshedabad	157	416
Beerbhoom	25	27
Rajshahye	1	...
Maldah	1	1
Nuddea	...	4
	184	448

It is a matter of regret that Rajshahye and Maldah again this year, as last, practically failed to compete.*

8. The following were the prizes adjudged, viz:—

	Rs.	Rs.
1	of 75 =	75
2	of 50 =	100
4	of 40 =	160
9	of 30 =	270
13	of 20 =	260
17	of 16 =	272
43	of 10 =	430
100	of 5 =	500
189		2,067

Of these Moorshedabad obtained—

	Rs.	Rs.
1	of 75 =	75
2	of 50 =	100
2	of 40 =	80
9	of 30 =	270
10	of 20 =	200
16	of 16 =	256
42	of 10 =	420
91	of 5 =	455
173		1,856

Beerbhoom—

	Rs.	Rs.
1	of 40 =	40
2	of 20 =	40
1	of 10 =	10
7	of 5 =	35
11		125

Nuddea—

	Rs.	Rs.
1	of 40 =	40
1	of 20 =	20
2	of 5 =	10
4		70

And Maldah—

	Rs.	Rs
1	of 16 =	16

9. The cocoons this year have been decidedly superior in quality to those of last year; but this is due mainly to the large and plentiful crop of mulberry, which was sold very cheap, and which enabled the rearers to feed their worms at a much smaller cost than usual. The consequence was that we had cocoons giving 15 to 20 per cent. better produce than those of last year. But they were not superior to the cocoons of 1883, which gave even better produce.

10. The superiority of the present cocoons over those of last year cannot therefore be fairly attributed to extra care on the part of the rearers, but simply to cheap and plentiful mulberry, and I am of opinion that we shall always see good cocoons when the mulberry crop is large and cheap, and the reverse when it is scanty and dear.

11. The rearers came forward much more freely this year and took a far greater interest in the exhibition, as the increase in the number of exhibits proves. But, in their anxiety to obtain prizes, several dishonest rearers borrowed good cocoons and exhibited them as cocoons

* I should be glad if those gentlemen's attention were pointedly drawn to the desire on the part of Government to encourage the development of the cocoon trade, and this can only be done by improving the quality of the cocoon produced.

of their own rearing. In every instance where this was proved or suspected, the prizes were withheld; but it is nevertheless likely that many prizes have been dishonestly obtained. A meeting will be convened at the end of the present month for the purpose of framing rules to guard, as far as possible, against abuses such as are now suspected to take place.

12. The details brought to credit were—

	Rs.	A.	P.
Balance of last year	2,681	2	3
Subscriptions—			
Moorshedabad district	900	0	0
Rajshahye ditto	80	0	0
Sale proceeds of mats, &c.	24	11	9
Total ...	3,585	14	0
Disbursements—			
Prizes	2,067	0	0
Allowance to other exhibitors	251	0	0
Establishment	163	8	0
Contingencies	334	7	3
Total ...	2,815	15	3

thus leaving a balance of Rs. 769-14 9 in hand.

13. I have to express my thanks to the Managing Committee and the judges, and more especially to Mr. Stocks, who acted as Secretary, and who took all possible pains to make the exhibition successful.

14. At the meeting referred to in paragraph 11 above, which will be held before the close of the month, the rules regarding the quantity of cocoons that should be taken as forming a single exhibit must be revised and re-cast, as there is still reason to apprehend that the rearers feed up a small batch of worms in order that they may show the cocoons and secure a prize to the neglect of the rest. This practice is of course productive of no good result whatever. The Committee will take measures to prevent this, and to ensure that the rearers are encouraged to make provision for good seed as well. When this object has been attained, a general improvement in the quality of cocoons may reasonably be expected, and this result will be due to the encouragement given by these exhibitions.

15. It must have been also encouraging to the industry to notice the interest which Government took in the matter by sending down a special officer to the exhibition. However, I cannot expect that the public will take much interest in the exhibition until it be extended so as to show the processes by which silk is made and the final products. I suggested this to one of the silk merchants, and he said it might be considered.

16. There is no doubt that the cultivation of the mulberry and the rearing of silkworms has taken such root in this district, and contributed so much to its material prosperity, that any further decline in the trade would have a serious economic effect. It is well known that silk is woven here by the native weavers; and provided the European silk merchants encourage a loyal co-operation among all branches of the trade, I am convinced that a silk exhibition in a more extended form would be valuable.

17. Even as it is, I understand that silk piece-goods are purchased and exported. I know that the silk of Mirzapore is better than that of Bishnupore in the Bankoora district, and that the latter is highly appreciated by private individuals.

18. Further, the gradual extension of the exhibition to tusser silk would be beneficial, as this branch is now, I understand, being opened out in this district.

EXEMPTION FROM RE-MEASUREMENT IN HER MAJESTY'S DOMINIONS OF JAPANESE VESSELS, THE TONNAGE OF WHICH IS DENOTED IN THE CERTIFICATES OF JAPANESE REGISTRY OR OTHER NATIONAL PAPERS ISSUED AFTER THE 1ST JULY 1884.

No. 43, dated Simla, the 10th April 1885.

NOTIFICATION—By the Govt. of India, Department of Finance and Commerce·

THE following order of Her Majesty in Council, exempting from re-measurement in her Majesty's dominions Japanese vessels, the tonnage of which is denoted in the certificates of Japanese registry or other national papers issued after the 1st July 1884, is published for general information :—

D M. BARBOUR,
Secy. to the Govt. of India.

AT THE COURT AT OSBORNE HOUSE, ISLE OF WIGHT.
The 27th day of January 1885.
Present :

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by the Merchant Shipping Act Amendment Act, 1862, it is enacted that, whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty by Order in Council to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's dominions; but such ships shall be deemed to be of the tonnage denoted in their certificates of registry or other papers in the same manner, to the same extent, and for the same purposes in, to, and for which the tonnage denoted in the certificates of registry of British ships is deemed to be the tonnage of such ships :

And *whereas* it has been made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships now in force under "The Merchant Shipping Act, 1854," have been adopted by the Government of His Imperial Majesty the Emperor of Japan and are in force in the Japanese dominions ;

HER MAJESTY is hereby pleased, by and with the advice of Her Privy Council, to direct that the ships of Japan, the certificates of Japanese registry or other national papers of which are dated on or after the 1st day of July 1884, shall be deemed to be of the tonnage denoted in the said certificates of registry or other national papers.

APPOINTMENT OF MINISTERIAL OFFICERS IN THE PATNA DIVISION.

No. 220G, dated Bankipore, the 13th April 1885.

From—F. M. HALLIDAY, ESQ., Commissioner of the Patna Division,

To—The Secretary to the Govt. of Bengal, Appointment Department.

WITH reference to Government order No. 5646A, dated 28th December 1880, I have the honour to submit herewith a statement shewing the number of vacancies, both acting and permanent, that occurred during the past year in the several offices in this division.

The total number of vacancies which occurred during the last year in the several offices and departments in this division, was 513. These vacancies were thus distributed—

In the revenue and Magistrates' offices	134
,, Road Cess and Municipal ,, ...	54
,, Registration Department	28
,, Police	297
Total ...	513

The above appointments were filled up in the several offices and departments as follows—

	By Beharis.	By Bengalis.	By others.
In the revenue and Magistrates' offices ...	120	13	1
,, Road Cess and Municipal ,, ...	39	13	2
,, Registration Department ...	28	...	...
,, Police Department	294	3	...
Total ...	481	29	3

It will thus be seen that 93·7 per cent. of the vacancies were filled up by the natives of Behar, while 5·6 per cent. of the appointments were given to Bengalis, including those domiciled in Behar.

Statement shewing the number of vacancies, both acting and permanent, that occurred in the Districts of the Patna Division during the year 1884.

PATNA COMMISSIONER'S OFFICE;
BANKIPORE,
The 13*th April* 1885.

F. M. HALLIDAY,
Commissioner.

No. 246G, dated Bankipore, the 22nd April 1885.

From—J. F. K. HEWITT, ESQ., Offg. Commissioner of the Patna Division,
To—The Secy. to the Govt. of Bengal, Appointment Department.

IN continuation of this office No. 220G, dated 13th instant, I have the honour to forward a copy of a letter from the Inspector-General of Jails, Bengal, No. 3369, dated 11th idem, reporting how the vacancies in the Jail Department in this division during the year 1884 have been filled up.

No. 3369, dated Calcutta, the 11th April 1885.

From—E. V. WESTMACOTT, ESQ., Offg. Inspector-General of Jails, Bengal,
To—The Commissioner of the Patna Division.

WITH reference to your letter No. 76, dated the 24th February last, and subsequent reminder, I have the honour to inform you that during the year 1884 two vacancies occurred in Behar, one as jailor and one as an assistant jailor. These places were filled up by deserving Bengalis, as there were no competent up-country or Behari men in the service competent to hold these appointments.

The temporary appointment of store-keeper at the Buxar Jail has been filled up by the transfer of an apprentice assistant jailor, who is a native of Bengal. No eligible Behari candidates were available for the post.

LIBERALITY OF BABOO BHAIRAB CHANDRA NUNDI.

No. 221T—G, dated Darjeeling, the 27th April 1885.

From—A. P. MACDONNELL, Esq., Secretary to the Govt. of Bengal, Genl. Dept.,
To—The Offg. Director of Public Instruction.

I AM directed to acknowledge the receipt of your endorsement No. 2267, dated the 9th April 1885, with enclosure, regarding the offer made by Baboo Bhairab Chandra Nundi, Pleader of the Munsif's Court at Gyabanda, in the district of Rungpore, to invest a sum of Rs. 200 in four per cent. Government securities, in order to found a medal to be awarded every year, alternately, to the most deserving student of the Gyabanda School in Rungpore, and of the Mulajore Tagore Sanskrit College in the district of the 24-Pergunnahs.

2. The Lieutenant-Governor accepts the offer, and desires that his thanks may be conveyed to Baboo Bhairab Chandra Nundi for his public spirit and liberality. Sir Rivers Thompson also approves the proposal that the medal be designated the "Bhairab Chandra Medal."

Dated Tajpore, the 30th March 1885.

From—BABOO BHAIRAB CHANDRA NUNDI, Pleader, Munsif's Court, Gyabanda,
To—The Director of Public Instruction, Lower Provinces.

I BEG to ask your permission to make over to you a sum of Rs. 200 to be invested in Government securities for annually awarding, out of the interest (Rs. 8) a medal, to be called after my name "Bhairab Chandra Medal," alternately to the most deserving boy of Gyabanda School in Rungpore in one year, and Mulajore Tagore Sanskrit College in the 24-Pergunnahs in the next.

2. It is my earnest desire that the medal be awarded from the current year, for which I am willing to deposit a separate sum of Rs. 8. I pray that the most deserving boy of Gyabanda School in Rungpore be awarded a medal out of it.

3. I beg to request that the medal be struck in the vernacular.

4. If you be so kind as to accept my proposal, I should deem it a favour if you would kindly direct that I may be permitted to deposit the sum in the Gyabanda sub-treasury.

5. My address is Gyabanda, District Rungpore.

No. 2267, dated Calcutta, the 9th April 1885.

Memo. by—C. H. TAWNEY, Esq., Offg. Director of Public Instruction.

COPY forwarded to the Secretary, Government of Bengal, General Department, with the recommendation that the offer may be accepted and the thanks of Government conveyed to the donor for this act of liberality and public spirit; the correspondence being published in the *Calcutta Gazette*.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 2nd May 1885.

Division	No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.		*Western Districts.*		
BURDWAN DIVN.	1	Burdwan, May 2 '85	0·82	Weather—heat normal. Price of rice is from 11 to 15 seers per rupee. More rain is urgently wanted for preparation of lands for paddy.
		Raneegunge ..	0·88	
		Kulna ...	2·66	
		Cutwa ..	1·62	
	2	Bankoora, „ 2 „	0·27	Weather—excessively hot during day, but cool at the latter part of the night. Prospects of *rubbee* crops not favourable. Transplantation of sugarcane is going on, but more rain is wanted. Price of rice rising. Sporadic cases of cholera are reported from the interior; otherwise public health good.
	3	Beerbhoom, „ 2 „	0·75	Weather—cooler, with occasional dust-storms. The rain has proved beneficial and will facilitate ploughing. Prices have risen. Cholera has increased. Distress in the district is becoming more severe.
		Rampore Hat ..	0·75	
	4	Midnapore, „ 2 „	0·10	Weather—cooler, with occasional storms. The rain has done much good by enabling land to be cultivated. Fever is very prevalent in the Ghattal sub-division, and sporadic cases of cholera, small-pox, and cattle-disease are reported from many places.
	5	Hooghly, „ 2 „	2·13	Weather—stormy. The late storms have done much good, but more rain is wanted, especially in the Jehanabad sub-division. Prices rising on account of want of rain, and consequent backward state of cultivation. Public health good.
		Serampore .	1·10	
		Jehanabad ...	0·36	
		Howrah, „ 4 „	0·89	Weather—cool and showery. The recent rain has greatly facilitated cultivation. Public health good.

		Chooadangah ..	3·17	
		Ranaghat ...	2·33	
	8	Khoolna, „ 2 „	2·65	Weather—generally cloudy; rain has fallen throughout the district. Ploughing and sowing of *aman* and *aus* paddy have commenced. Harvesting of *boro* paddy is almost finished. Public health is fairly good.
	9	Jessore, „ 2 „	3·39	Weather—rain with storm in the first part of the week. The recent rain has removed to a great extent anxiety about the standing crops for the present. Cultivation is going on. Cases of fever and cholera are reported.
		Jhenidah . .	2·09	
		Magurah ..	1·13	
		Narail . .	1·51	
		Bongong .	3·50	
	10	Moorshedabad, „ 2 „	1·03	Weather—stormy for a few days, but now settled again, although cloudy. The rain has done much good, but the fall was insufficient. Land is being prepared for *aus* crop, which in some places is being sown. Common rice is selling at from 13 to 14 seers per rupee. A few cases of cholera are reported from several thanas; otherwise public health is good.
RAJSHAHYE DIVN.	11	Dinagepore, May 1 '85	1·30	Weather—very cool at present. Rain fell in the north and east of the district, but none in the southern part, which suffered most in late years. Ploughing and sowing are going on. Rice is selling at from 13 to 18 seers per rupee.
	12	Rajshahye, „ 2 „	1·20	Weather—cooler. Rain has done some good, but more is required. Public health also somewhat improved.
		Nattore ...	1·09	
		Nowgong ...	0·60	
	13	Rungpore „ 2 „	1·76	Weather—seasonable. The rain has done a great deal of good. Prospects of crops have considerably improved. Sporadic cases of cholera are reported from some places in the interior; small-pox has appeared in the interior of the Gaibanda sub-division; public health otherwise good.
		Kurigram ...	2·03	
		Gaibanda ...	0·10	
		Nilphamari .	1·92	
	14	Bogra, „ 2 „	0·18	Weather—has become cool again. Slight rain fell here and there, but more is wanted. Cholera still prevails in 6 out of 11 stations.
	15	Pubna, „ 2 „	0·77	Weather—cooler after a shower of rain. The state and prospects of *boro* paddy fair. More rain is wanted. Public health good.
	16	Darjeeling, „ 2 „	2·57	Weather—showery and cold. Prospects of crops very favourable after the recent rain. Two deaths from small-pox are reported from the Terai.
	17	Julpigoree, „ 2 „	1·19	Weather—seasonable. Prospects of crops satisfactory. Price of rice ranges from 15 to 18 seers per rupee. Public health good.
		Eastern Districts.		
DACCA DIVISION.	18	Dacca, May 2 '85	2·23	Weather—seasonable. Sowing of jute and *aman* and *aus* paddy is going on; *boro* paddy is being harvested. Rain has done much good to standing crops. Prospects of crops appear good.
		Manickgunge ...	1·49	
		Munshigunge ...	3·36	
		Naraingunge ...	2·58	
	19	Furreedpore, „ 2 „	1·67	Weather—violent storms have uprooted trees and levelled houses; no such storms have occurred in the district for some years. The rain that has fallen, and is falling, will do much good. Ploughing is going on briskly. Health fairly good.
		Goalundo ...	1·69	
		Madaripore ...	0·21	
	20	Backergunge, April 30 „	1·66	Weather—seasonable and less warm. There has been rain with occasional storms. Cultivation of *aus* paddy is progressing. The rain has done some good to standing crops. Cholera is reported to be abating. General health fair.
	21	Mymensingh, May 1 ..	2·55	Weather—much cooler since the rain. The rain has done much good in most parts of the district, but in the Kishoregunge sub-division it has done some damage to *boro* paddy which is ripening. Cases of cholera are reported from some places; otherwise public health is fairly good.

* Observations for six days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the sa[me pe]riod for the past ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. The *humidity* of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast [sky by] 10. The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "District" observations of rainfall" the normal means are the numerical means or averages of the rainfall in that district determined from the [illegible] [nor]mal stations for the period in question during the past 12 years. The means for the "district" are the numerical averages of the rainfall returns received

CALCUTTA, *the 4th May* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 1ST OF MAY 1885.

IN the report for the previous week, it was shown that at its close the former meteorological conditions which had obtained over the Province had completely changed. A strong easterly wind current had set in over North Bengal and North Behar in the place of the former westerly current, while westerly winds were still blowing in South Behar, Chutia Nagpur, and some parts of South-West Bengal. It was there also pointed out that the interaction between these wind systems had caused the sky to cloud over rapidly, and that the conditions had become favourable for the production of the usual hot-weather storms. On the 25th, or the first day of the present week, these conditions continued, a small area of low pressure began to develop in South Behar, and winds showed a fairly complete cyclonic circulation round it. The area of low pressure with accompanying wind circulation was also clearly noticeable in Behar and Chutia Nagpur on the 26th, 27th and 28th, but on the 29th and 30th the wind directions to a certain extent ceased to show the tendency to cyclonic circulation, though the area of low pressure could still be faintly traced. On the 1st of May the lowest pressure had moved to the west of South Behar, though there was still a tendency towards the reappearance of the circulation of winds as in the earlier part of the week.

It will thus be seen that from the 25th up to the 28th, the weather conditions over the Province were very disturbed, while on the 29th and 30th conditions began to clear up. Southerly and south-easterly moist winds have been blowing steadily over South-West, East and North Bengal, and heavy and general rain, to a great extent brought by local storms, has fallen over these districts. From the 30th, however, weather became more settled, and little or no rain fell.

Pressure, as stated above, has been relatively low in South Behar and Chutia Nagpur almost throughout the week, while it has been high in East Bengal. Gya has shown the lowest pressures, and here the mean pressure for the week is only 0·003″ above the normal. At Chittagong, on the other hand, the mean pressure for the week has been no less than 0·045″ above the normal, while the average excess pressure over the whole Province has been 0·032.″ In the previous week pressure was below the normal in all districts except Chutia Nagpur, the average defect being 0·033″, so it will be seen that the change from the previous week is rather marked.

With the heavy rainfall for the week, temperature has fallen very considerably, and it is now below the normal in all districts. The largest defect has been in East Bengal, where it is 4°. In South Behar the defect has been 3°, in Chutia Nagpur and North Behar it has been about 2°, while in South-West Bengal and Orissa the defect has been a little more than 1°.

Rainfall, as has been previously stated, was fairly general and moderately heavy in South-West Bengal from the 26th to the 28th, and in the eastern districts up to the 29th. In East and North Bengal rainfall was also fairly heavy, though not quite so general, from the 25th to the 29th, while a few showers fell in Orissa, in the Purneah district of North Behar, and in the Sonthal Pergunnahs. Fenny reports no less than 6·77 inches of rain during the week; Kishoregunge, Narail, Chittagong and Cox's Bazar have received more than 4 inches; Bongong, Chooadanga, Jessore, Rungamati, Perozepore, Munshigunge, Atia, and Cooch Behar report 3 inches of rain and upwards, while no less than 11 stations in South-West Bengal and 10 stations in East and North Bengal have received 2 inches and upwards during the week.

The average rainfall in East Bengal for the week has been 2·68 inches, in South-West Bengal it has been 1·30 inches, and in North Bengal 1·15 inches. In Orissa the general fall has been 0·31 inch, while in Behar and Chutia Nagpur the amounts are insignificant. The heavy rainfall during this week has brought the rainfall for the month of April almost up to the average fall in East Bengal. In South-West Bengal and North Bengal the fall in April has been rather more than half the normal; in Orissa it has been less than half, while in Behar and Chutia Nagpur the rainfall has been exceedingly scanty.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 1st of May 1885:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of former years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·2 lower; and finally, the thermometer, which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

VITAL STATISTICS OF THE CHIEF MUNICIPALITIES IN BENGAL FOR THE WEEK ENDING 18TH APRIL 1885.

DURING the week ending 18th April 1885, the principal Municipalities in Bengal returned the birth and death-rates of 24·5 and 39 7 per 1,000 of population, respectively, against 25·1 and 36·6 per 1,000, respectively, in the preceding week ending 11th April, showing a large increase in death registration.

2. In the following Municipalities births and deaths appear to have been recorded at the highest rates:—

Births.

	Ratio per mille.
Comillah	50·1
Bhagulpore	43·4
Durbhanga	37·7
Patna	33·1
Gya	32·1

Deaths.

	Ratio per mille.
Suburbs of Calcutta	65 1
Burdwan	61·0
Dacca	55 1
Comillah	46·2
Kishnaghur	45·5
Beauleah	44·6
Patna	44·1
Gya	39·7
Hughli	34·9
Purneah	34·6
Bhagulpore	34·4
Monghyr	34·4
Mozufferpore	32 8
Durbhanga	29·9

3. The mortality from the principal diseases specified in the table appended to this memoranda stood as follows:—

	Ratio per mille during weeks ending— 18th April 1885.	11th April 1885.
Cholera	10·5	8·1
Small-pox	1·5	1·4
Fever	15·1	13·3
Bowel-complaints	4·8	4·6
Injury	·5	·4
Other causes	7·3	8 8

The above figures denote chiefly that, in comparison with the preceding week, there occurred during the week under notice large increases of mortality from cholera and fever.

4. While the casualties from bowel-complaints and violence were nowhere severe, the rest of the diseases above indicated proved most fatal in the following Municipalities:—

Cholera.

	Ratio per mille.
Kishnaghur	30·3
Beauleah	28·9
Suburbs of Calcutta	28 5
Burdwan	25·9
Santipore	21·0
Chittagong	11·7
Hughli	10·7
Gya	8·8
Howrah	7·4
Bhagulpore	7·2
Patna	6·2

Small-pox.

	Ratio per mille.
Dacca	14·9
Durbhanga	3·9

Fever.

	Ratio per mille.
Comillah	42·4
Burdwan	24·4
Purneah	24·2
Mozufferpore	23·1

Other Causes.

	Ratio per mille.
Dacca	15·6
Poori	12·6
Suburbs of Calcutta	11·6
Patna	10·4
Gya	10·3

It will be noticed that cholera prevailed with marked severity in the Kishnaghur, Beauleah, Burdwan and Santiporo towns, and in the Suburbs of Calcutta, and fever in the Comillah Municipality.

5. In relation to *Sex, Class* and *Age*, the mortality of the week was distributed as follows:—

According to Sex.

	Ratio per mille.
Males	41·5
Females	37·8
Ratio of male deaths to every 100 female deaths	124

According to Class.

	Ratio per mille.
Christians	30·4
Hindus	38·8
Mahomedans	42·2
Budhists	48·4
Other classes	72·8

According to Age.

	Ratio per mille.
Under 1 year	269·2
1 and under 5 years	69·2
5 „ 10 „	25·8
10 „ 15 „	19 5
15 „ 20 „	27·2
20 „ 30 „	23 8

Secy. to the Govt. of Bengal.

NOTIFICATION.

The 12th May 1885.—It is hereby notified, under section 4 of the Indian Forest Act, (III of 1878) that it is proposed to constitute the block of land described below a "reserved forest" under the provisions of the said Act :—

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Hazaribagh.	Khurruckdiha (Gaddee, Khoorchoota).	Khoorchoot	*North.*—A demarcated line starting from the east of the lands of Khurriyodeeh to a point south of Bansjore at the head of a small stream; then that stream to a bend in it south-west of Lopeetlurkatand; then a demarcated line across the ridge to a bend of another small stream about a mile west of Lodhraterree. *East.*—A demarcated line west of Mohwatand to the Ghutiare nadi; then that nadi to the junction of two streams tributary to it about a mile west of Bathanbaree and nearly half a mile east of Kupsa; thence a demarcated line to the head of a small stream which forms the boundary between the village lands of Kendooatand and Chandpoor. *South.*—A demarcated line running north of Ghudjoree nearly due west to the boundary of village lands of Bengabad. *West.*—A demarcated line passing to the east of the cultivated lands of Phursodeeh, Harodeeh, Kurmataud, Basookoorah, Bhagabad, Oodalgedo, and Tulliya to the north boundary at Khurriyodeeh.

NOTE.—The village lands of Bissunpoor, which have been marked off by demarcation, are excluded from the proposed reserve.

The Lieutenant-Governor is pleased to appoint the Deputy Commissioner of Hazaribagh to be the Forest Settlement Officer under the provisions of chapter II of Act VII of 1878 to enquire into and determine the existence, nature and extent of any rights alleged to exist in favour of any person in or over any land comprised within the boundaries specified above, or in or over any forest produce to be found thereon, and to deal with the same as by law provided.

IRRAWADDY SHOAL.

COMMANDER A. CARPENTER, *R.N.*, Commanding Her Majesty's Indian Marine Surveying Steamer *Investigator,* who executed the survey on the coast of Burma, reports that the *Irrawaddy Shoal* consists of *two patches* lying north and south of one another, a mile apart.

The *Northern Patch* has as little as 2½ fathoms of water over it, and perhaps less. It consists of broken rock, and it lies 3¾ miles W ½ S. from the summit of Saddie Island off Kyouk Phyou.

The *Southern Patch* is a narrow ridge of four fathoms.

Note.—The clearing mark already mentioned in the Sailing Directions, namely the summit of Nondogee Island open westward of the North point of Sattelite Island, clears both dangers.

The Bearings are Magnetic.

This Notice affects Charts Nos. 70,829, and 821; also Sailing Directions for Bay of Bengal.

Revolving light exhibited from the lightship.

WITH reference to Notice to Mariners, No. 8, dated the 25th February 1885, on the intended establishment of a *revolving* light from the lightship in the Inner harbour of Aden (moored in the South side of the channel, in 18 feet of water):—

The Political Resident, Aden, has given further notice that the light will be exhibited on and after the 1st May 1885.

The light will be a *revolving* white light, attaining its greatest brilliancy *every twenyt seconds*. It will be visible all round the compass, elevated 45 feet above the level of high water, and in clear weather should be seen from a distance of 10 miles.

The illuminating apparatus is *catoptric*.

The lightship, painted *red* with a *red ball*, is situated in latitude 20° 46′ 50″ N.; longitude 44° 57′ 45″ E.

NOTE.—Fires a *gun* and burns a *blue* light on a vessel entering at night; tidal signals by day.

BURMA COAST—ARAKAN.

Fixed light on Oyster Island, Akyab.

WITH reference to Notice to Mariners, No. 25 of 22nd May 1884, the Superintendent of Lighthouses, Rangoon, has given notice that a *temporary* light is now exhibited from a lighthouse recently erected on the centre of Oyster Island, off the entrance to the Myou River, in order to render safe the western and northern approaches to Akyab harbour, in consequence of the Oyster Reef lighthouse having been destroyed by a cyclone in May 1884.

The light is a *fixed white* light, elevated 75 feet above the level of high-water, and in clear weather should be seen from a distance of 10 miles.

The illuminating apparatus is *dioptric*, or by lenses of the *fifth* order.

The lighthouse, constructed of *wood*, is situated on the centre of the island.

The Oyster island, which is very low and of small extent, has a little jungle grass growing on its summit, and is reported to be visible from a distance of 5 to 6 miles. It lies 8½ miles N. W. ½ N. from the Oyster Reef (the site of the old lighthouse) and about 10 to 11 miles off the nearest shore, and is surrounded with dangers, especially off its S. E. end, where shoal water extends for a distance of some 3 miles.

Position as given :—Latitude 20° 12′ N.; longitude 92° 33′ E.

NOTE.—A *blue* light is shown, from a wooden staging 24 feet high, every half-hour between sunset and sunrise.

Caution—Vessels approaching from the Southward and Westward should not shoal into less than 15 fathoms, and great care and attention therefore is necessary when making the light in thick or squally weather, owing to the weak power of the light, as also to the great danger of Oyster Reef. Masters of vessels are hereby warned to make certain of their position before standing in towards the island, and then, with the lead going, should not approach within a depth of 20 fathoms, unless the light is sighted.

The Bearings are Magnetic.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,

Port Officer of Calcutta.

IRRIGATION.

The 24th March 1885.

No. 119.—*Notification.*—Notice is hereby given that the Lieutenant-Governor of Bengal proposes under sections 78, 79, 80, 81 and 99 of Act III (B.C.) of 1876 to pass the following rules for carrying out the provisions of the said Act, with respect to the Sarun Canals. These rules will supersede those at present in force:—

1. In Notification No. 179, dated 18th August 1879, under the provisions of Part II of Act III of 1876, Government has reserved to itself the rights of property in the water in the following canals and river beds forming part of the Sarun irrigation scheme:—

1. Roopun Chap Sota.
2. The head cut.
3. The Daha river and the water channels in continuation of or in connection with it.
4. The Gandaki river and the water channels in continuation of or in connection with it.
5. The Dhanai river and the water channels in continuation of or in connection with it.
6. Gangri river and the water channels in continuation of or in connection with it.

These canals and rivers will hereinafter be referred to as the Sarun Canals.

2. No person shall take water from the Sarun Canals for irrigation or manufacturing purposes without the written permission of a duly authorized person.

Licenses will be required—

(*a*)—For the construction of temporary dams in the canal beds.

(*b*)—For the irrigation of lands by flow or lift.

(*c*)—For the construction of village channels and distributaries leading from the canals for the irrigation of lands.

(*d*)—For water used for the purpose of any manufacture by any person other than a canal manager.

(*e*)—For the erection of fishing weirs or the use of fishing nets—(1) in the head cut; (2) in the new cuts from the Roopun Chap Sota to the Daha, Gandaki, Dhanai, and Gangri river beds; (3) in any other new cuts which may be made hereafter.

3. Government reserves at present its right to levy tolls for irrigation, and to charge for filling tanks, watering cattle, or for water for other domestic purposes

4. The revenue administration of the Sarun irrigation scheme is vested in the Collector, who is ex-officio head of the Canal Revenue Department. The Executive Engineer of the Gunduck Division as canal officer is charged with the maintenance and management of the canals, but all orders passed by him under the Act or these rules are appealable to the Collector under whose general directions he will act. All orders relating to the canal revenue will usually be issued by the Collector (through the Executive Engineer or not, as the case may be), and all correspondence intended for the Collector in this department should be addressed to the Collector direct, or through the Executive Engineer, Mozufferpore, or the Assistant Engineer, Gopalgunge.

5. For administrative purposes, the Sarun district is divided into the sub-districts enumerated in the following rule, and shown in a map deposited in the Collector's office. The boundaries of the sub-districts and their number may be hereafter modified.

6. The following guarantors are, till further orders, appointed canal managers, and will, within the under-mentioned sub-districts, act as the agents of Government in managing the affairs of the canals.

Manager of the	Arua concern	for the time being.
Ditto	Bansapali	ditto.
Ditto	Bahrowli	ditto.
Ditto	Burhoga	ditto.
Ditto	Harpur	ditto.
Ditto	Hatwa estates	ditto.
Ditto	Jogapur concern	ditto.
Ditto	Nowada	ditto.
Ditto	Rajapatti	ditto.
Ditto	Ramkola	ditto.
Ditto	Sadowa	ditto.
Ditto	Sitalpur	ditto.

The more particular duties of a Canal Manager will be—

1*st*.—To receive applications and grant permits, printed in the prescribed form, for the use of water under sections 74, 75, and 77 of the Irrigation Act.

2*nd*.—Subject to the instructions of the canal officers to distribute, under the provisions of section 76, the water-supply allotted to his sub-district.

3*rd*.—To recover and credit to Government the water-rates.

4*th*.—To superintend and maintain such establishment as may be found necessary for the assessment and collection of water-rates within his sub-district.

8. Canal Managers have no power under Parts III, IV, and V of the Act; and all claims to remission under section 76 of Part VI should be referred to the canal officer or his assistant for disposal. Complaints regarding unauthorized use of canal water under sections 79, 80, and 81 are also to be referred to the canal officer or Collector for decision. All proceedings connected with the recovery of water-rates by distraint or other compulsory process will be undertaken by the Collector.

9. Any Manager desiring the construction of a temporary dam across the Roopan Chap Sota, or across the bed of the Daha, Gandaki, Dhanai, or Gangri rivers must prefer a written application to the canal officer specifying the object of the work and the length of time for which it is required. It will be at the discretion of the canal officer to reject the application or to grant it on such conditions as he may think fit, one of the conditions being the power reserved to the canal officer of cutting the bund, if it should ever appear to him, in the public interests, necessary to do so

Provided, however, that no such dam shall be constructed without due provision being made, by means of a proper escape channel, for the supply to the guarantor or guarantors, on the same river below such dam, of the share of water to which he or they may be entitled under the decision of the canal officer.

10. Any person other than a Manager who may desire to construct a temporary dam across the bed of any of the rivers mentioned in the last rule must prefer his application to the Canal Manager in charge of the sub-district in which the site of the proposed dam lies. The latter will then forward the application with his remarks to the canal officer for orders.

11. Any person, whether he be a Canal Manager or not, who constructs a dam across any of the river beds referred to in Rule 9, without having first obtained the written permission of the canal officer, or who after the construction of an authorized dam, does or abets the doing of any act to impede the free flow of water through the escape channel provided for such dam, will be liable to prosecution under section 93, Act III (B.C.) of 1876, chapter XVII of the Indian Penal Code, or otherwise as may seem proper to the Collector.

12. With reference to Rule 7, paragraph 2 above, it will be competent to the Canal Manager, subject to the control of the canal officer, and on his own responsibility,* to allow the construction of such temporary dams in any of the village channels (subsidiary to the main river beds mentioned in Rule 9) within his sub-district, as he may consider necessary for the proper distribution of the water-supply allotted thereto.

* With reference to the possible damage to crops, &c.

13. If one or more of the riparian proprietors desire to have a permanent dam or regulator constructed in any channel or river bed, he or they shall present an application to that effect to the Collector, who will consult the Canal Manager and the canal officer as to the desirability of constructing such dam or regulator. Should its construction be deemed desirable, the Collector will cause plans and estimates to be prepared, and he shall also call upon the applicants to deposit the cost (including cost of establishment), or to give a guarantee securing its payment when required, and providing that, if the cost of the work should, through unforeseen causes, exceed the original estimate, the balance will be made good by the applicant. The agreement will also provide for the dam or regulator being kept in proper repair, as well as for its being taken over by Government at a fair valuation, should this ever be considered expedient. The construction of such dam or regulator will be carried out by the canal officer, who shall also have power to stop all supplies of water if it is not subsequently maintained in proper repair.

14. Each application for a permanent dam or regulator will be considered on its own merits, and will only be granted on such conditions as the Collector in consultation with the Superintending Engineer shall consider fit.

15. A register will be kept of the owners of each permanent dam or regulator, and any person may at any time apply to the canal officer to be made a joint owner. The canal officer may either reject such application, or if he think fit, he may issue a notice upon the registered owner or owners, and after hearing any objection which the registered owner or owners may prefer against the admission of such applicant to be a joint owner, in either case he shall report fully to the Collector, who may confirm the original rejection of the application, or may direct that the applicant be registered as such joint owner, on payment to the registered owner or owners of such sums as may be fixed by him.

16. Persons desiring to irrigate their fields with canal water by flow or lift, must apply in person or by agent to the Canal Manager, whereupon the latter shall issue a permit in the prescribed form (Appendix B). The right to irrigate without extra charge extends up to the 31st of March following the date on which the permit was issued; provided, however, that under the operation of this rule one and the same crop be not assessed more than once. The rate charged shall not exceed Re. 1 per acre (or 12 annas per bigha), irrespective of the crops grown, except in special cases to be determined by Government.

17. Any person other than a Canal Manager desirous of taking water for the manufacture of indigo must apply for a permit to the Canal Manager, stating the estimated outturn, and undertaking that he will, on the 1st of October, declare the quantity he has manufactured. The charge will be at the rate of Rs. 2 per maund of indigo manufactured.

18. No person may allow water to run to waste, and no person other than a Canal Manager may use water for irrigation or for any other purpose without having first obtained a permit as required by the preceding two rules. Any person infringing this rule will, with the consent in writing of the Collector (but not otherwise), be charged double the ordinary rates for the water used without authority or wasted, and will in addition be liable, on prosecution by the Collector or canal officer, to the penalty provided by section 93 of Act III (B. C.) of 1876, or by any other law under which his offence may come. The charge in such cases will, as a rule, be laid by the Canal Manager by the submission to the canal officer or Collector of an "Unauthorized Irrigation Certificate." (*See* Appendix C.)

19. The privileges of guarantors are as follows:—

(1)—A prior claim to a supply of water for irrigation and manufacture during the continuance of their guarantee.

(2)—The right to use water for manufacturing purposes free of charge.

20. Any person may apply to the Collector to become a guarantor. If the Collector accept the application, which at his discretion he may or may not do, he shall proceed, in communication with the canal officer, to determine whether the new guarantee shall be utilized towards extending the canals, providing distributaries or embankments, or towards reducing the responsibility of any of the original guarantors. If the original guarantor (within whose sub-district the applicant's property or interest is situated) claims a reduction in his guarantee, and can at the same time show that the application of the new guarantor towards an extension of the canal would operate to reduce his collections below the amount of his guarantee, his claims to have his guarantee reduced shall be considered: otherwise the new guarantee may be applied towards extending the canals, and an area corresponding to the applicant's property or interests be marked off to him, within which he shall exercise the rights and privileges now exercised in their sub-districts by the guarantors mentioned in paragraph 6 of these rules.

If the applicant's interest or property be not situated within any sub-district as specified in paragraph 6, then the Collector shall apply the guarantee towards extending the benefits of the canal system.

21. The irrigation year will commence on the 1st April; and as soon as possible after the irrigation of any land has been completed or the manufacture of indigo [by a person other than the Canal Manager] has been concluded, the Canal Manager shall present the persons who used the water with bills for water-rates (in a form approved by Government) based upon the actual area irrigated or the outturn of indigo manufactured. If these bills are not paid [a] in the case of indigo manufacture within one month after presentation, [b] in the case of *rubbi* crops by the 1st March, [c] in the case of other crops within one month after the crop irrigated has been cut, the Canal Manager shall, without delay, submit a list of such unpaid bills to the Collector, who will put in force the powers vested in him for the recovery of the amount due in accordance with sections 83, 84, and 85 of the Indian Irrigation Act. Such list must be supported by the counterfoils of the bills (Appendix D) prepared by the Manager, as well as by his personal certificate, that he has satisfied himself of the justness of the claims; and in the case of unauthorized irrigation, by the "Unauthorized Irrigation Certificates" (Appendix C) required by Rule 18.

22. The sums thus recovered by the Collector will be placed in his (the Collector's) accounts to the credit of the Canal Manager as a set off against the amount due from him under his guarantee for the year during which such recoveries are made. The Canal Manager will be entitled to a commission of 20 per cent. on all recoveries (over and above the amount of his guarantee), made either by himself or by the Collector on lists submitted on or before the 31st March. Sums due on this account will not be shown by the Manager in his accounts, but will be paid to him by cheque after the adjustment by the Collector of the year's accounts. No percentage allowance will be granted to the Manager in respect of recoveries made by the Collector on lists submitted later than the 31st March, although the amount of such recoveries will, as stated above, be credited to him as an asset against the amount of his guarantee.

23. For water used by a Manager for the irrigation of his own lands, he will be charged at the ordinary rate of Re. 1 per acre (or 12 annas per bigha), and for sums due on this account he will not be entitled to any commission allowance.

24. It will be the duty of Canal Managers—

1st.—To see that all permits for the use of water be issued in the prescribed form and a copy be kept in counterfoil in books supplied for the purpose.

2nd.—That copies of bills presented for payment be kept in the counterfoils supplied, for record.

3rd.—That a cash-book of all receipts of water-rates be kept in forms supplied for the purpose.

4th.—That for all cash received receipts be granted in the form supplied by the canal officer, which will be kept in counterfoil.

5th.—That all cash received be paid monthly into the sub-divisional or district treasury, and that the treasury receipts be filed with the cash-book as vouchers.

6th.—To submit such returns as may be required from time to time by the Collector.

7th.—To afford every facility to the canal officer and Collector in their periodical inspection of the Canal Managers' office and accounts.

25. The amount yearly guaranteed by each Manager is payable in two equal instalments, viz. on the 30th of June and the 31st December of each year, and any arrear due on either of these dates will be deemed to be a demand under Act VII (B. C.) of 1880, and shall be recoverable by the processes prescribed by the above Act.

26. A yearly adjustment up to the 31st March will be made of each Manager's account as soon as possible after the close of the official year (31st March). For this purpose each Manager will, by the 15th April, submit to the Collector in duplicate a statement in form Appendix D, with the entries of the first 12 columns duly filled in. The Collector will supply the figures for the remaining columns, and return one copy to the Manager with a cheque for the sum payable on account of commission as shown in column 15, should no arrears from him be due. The Collector will also require the immediate deposit by the Manager of any arrears which may be shown to be due. Such arrears if not paid within one month after due notice to the Manager, will be recoverable under the Certificate Procedure Act (VII B.C. of 1880).

SENATE HOUSE,
The 8th May 1885.

THE Calcutta Medical College Session 1884-85 will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten (10) free presentations will then be awarded. These are given to students according to their relative position in the University B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as matriculated students of the College who has no previously passed the First Arts Examination of the Calcutta University, or some one of the preliminary Arts Examination of the United Kingdom recognized by the British General Medical Council.

4. All matriculated students of the College are required to pay Rs. 15 on entrance, Rs. 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year.

5. Students who have failed to pass their final examination and who, under the regulations of the University, are required to attend a further course of lectures and of hospital practice before being allowed to present themselves again for examination, will pay for such further course an annual fee of Rs. 45 in two instalments of Rs. 30 and Rs. 15, payable at the beginning of the summer and winter sessions respectively.

6. Any matriculated student of the College may, with the permission of the Principal and the Professors of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and he shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he has really studied the subject. The fees payable in advance for such additional courses are the following :—

	Rs.
For a single course of lectures on each subject	40
For six months' attendance in each department of hospital practice ...	60

7. Any matriculated student who leaves the College before completing his University course with the object of continuing his studies at a Medical School in Europe may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

8. Any person not being a matriculated student of the College who may be desirous of attending any course of lectures or any department of hospital practice may do so with the permission of the Principal and Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 6.

If such student has passed the Entrance Examination of the University, he may receive certificates of attendance at lectures, provided the Professors are satisfied that he has attended the full course of lectures, and has mastered the subjects taught.

A student who has not passed the Entrance Examination will be entitled to no certificates of any kind.

9. College scholarships, prizes, and certificates of Honour are open for competition only to matriculated students of the College Hospital apprentice class and Female Certificate class.

10. No fees are payable by the holders of the Calcutta Medical College scholarships.

The holders of the Doorga Charan Laha and all other scholarships will be required to pay fees as a matriculated student. These scholars may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

11. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligent prosecution of his studies.

12. The offices of class assistant, clinical clerk, dressers, &c., can be held only by students whose names are on the rolls of the College.

Calcutta, the 9th May 1885. (135—1) T. MUNRO, for Traffic Manager.

Municipality of Madras.

DEBENTURE LOAN.

UNDER section 209 of (Madras) Act I of 1884, the Governor in Council of Fort St. George has given sanction in order No. 487, Financial, dated 9th March 1885, and in order No. 11M, dated 10th April 1885, for a Debenture Loan of three hundred thousand rupees on the security of the rates and taxes levied under the said Act. The Municipal Commissioners are therefore prepared to receive tenders for this loan, which will be expended in carrying out the drainage project in Black Town.

2. Debentures will be issued for the said amount bearing interest at the rate of five per cent. per annum payable half-yearly on the 18th September and 18th March of each year, and having a currency of thirty years.

3. The form of Debenture Bonds will be that given below. Each Debenture will be issued for the sum of Rs 100, or some multiple of Rs. 100.

4. Tenders for the whole or any part of the above named sum of three hundred thousand rupees will be received by the President of the Municipal Commission up to noon on the 18th July 1885.

5. Each tender should be in the form hereto annexed and enclosed in a sealed cover superscribed "Tender for Municipal Loan, 1885," and sent to the Municipal Office addressed to "The President, Municipal Commission, Madras."

6 The tenders will be opened by the President at the Municipal Office at noon on the 18th July 1885; a minimum rate, below which no tenders will be accepted, having first been fixed by the President.

7. Parties tendering must pay direct to the President or into the Bank of Madras to the credit of the Municipal Fund, or must deposit with Messrs H. S. King & Co., 15, Pall Mall, London, S.W., a sum equivalent to two per cent of the amount tendered. If the deposit be paid into the Bank of Madras or lodged with Messrs. H. S. King & Co, the banker's receipt must be forwarded with the tender

8. If the tender be accepted, the deposit will be taken in part payment, but it will be forfeited if, after the acceptance of the tender, the allotment is not fully paid up on or before the 18th September 1885.

9. Debentures will be issued as soon as possible after receipt of the amount of allotment.

10. The deposit on tenders which may not be accepted will be returned on application.

11. In the case of two or more tenders at the same rate (not being below the minimum), a *pro ratâ* allotment will, if necessary, be made.

12. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

13. In order to avoid mistakes, a separate tender must be made at each rate tendered and a separate deposit must accompany each tender.

14. The annual income from the rates and taxes, which will form the security for the loan, amounts to Rs. 7,90,000. Loans which have already been raised on the same security are as follows:—

	Annually. Rs.		
Water Works Loan of 1869, Rs. 14,30,000, interest at 4 per cent., payable to Government ...	57,200	Repayable in 30 years by a Sinking Fund, at 2 per cent.	
Market Loan of 1879, Rs. 20,000, interest at 6 per cent., payable to debenture-holders ...	1,200	Ditto	ditto.
Water Works Loan of 1882, Rs. 25,000, interest at 5 per cent., payable to debenture-holders ...	12,500	Ditto	ditto.
Drainage Loan of 1882, Rs. 1,00,000, interest at 5 per cent, payable to debenture-holders ...	5,000	Ditto	ditto.

THE LIBRARY.

This institution has been established, at the desire and with the assistance of the Punjab Government, in order to provide a Public Library for the use of all classes in the province.

Admission to the Reading-Room is free; and books will be lent out subject to rules and subscriptions, which can be ascertained on application to the Librarian.

A large contribution of books and pecuniary support have been promised by Government; but the Committee earnestly appeal to the public for further contributions of books, both European and Oriental.

Privileges will be given to donors of twenty volumes and upwards.

Until the library is formally opened, a private donation of standard works, accepted by the Committee and valued by them as worth not less than Rs. 50, will entitle the donor to the privileges of life member. A second donation of the same value will entitle the donor to nominate a life member.

Life members will be exempt from payment of *deposits,* subscriptions and fees otherwise required by the rules.

Assistance is especially desired towards securing a complete collection of books relating to India and the East.

Societies, Institutions, and Departments of Government are invited to contribute.

Donors of books may make it a condition of the donation that any of the books they give shall not be lent out, except to the Donor.

Communications should be addressed to——The Secretary, Punjab Public Library, Lahore.

LONDON EXHIBITION OF 1886.

REVENUE DEPARTMENT.—MISCELLANEOUS.—(F.)

Darjeeling, the 2nd May 1885.

RESOLUTION.

READ—

Resolution by the Government of India, Revenue and Agricultural Department, dated the 18th March 1885, defining the share to be taken by India in the London Exhibition of 1886, and publishing certain information for the guidance of intending exhibitors.

Letter from the Government of India, Revenue and Agricultural Department, No. 26Ex.—1—24, dated 18th March 1885, forwarding with remarks copy of a despatch from the Secretary of State, determining the functions of the Government of India and the Provincial Governments respectively in connexion with the London Exhibition.

Letter from the Government of India, Revenue and Agricultural Department, No. 22Ex.—1—29, dated 23rd March 1885, forwarding a sketch plan of the Exhibition and communicating certain instructions.

In the correspondence cited above, the Secretary of State and the Government of India have indicated the general character of the duties to be undertaken by the several Provincial Governments in connexion with the London

Exhibition of 1886. It follows from these instructions that the operations of the Government of Bengal will be confined to the equipment of the Provincial Court illustrating the artware, ornamental fabrics, and decorative work of Bengal, and to the executive duty of receiving and forwarding, either to the Government of India or to the Royal Commission, applications for space submitted by private exhibitors resident within the Province. In order to lighten as far as possible the burthen upon the Provincial finances, it has further been decided that no special collection and no special allotment of funds shall be made for the purpose of the London Exhibition, but that the contribution which the Lieutenant-Governor was in any case prepared to make towards the adequate representation of Bengal at the Bombay Exhibition of 1887 shall be, in whole or part, expended at once upon a characteristic collection of artware which will be utilized to furnish the Bengal Court in the London Exhibition, and will afterwards be exhibited at Bombay. If any exhibits are sold in London, duplicates will be prepared for Bombay. To meet the cost of this collection, an allotment of Rs. 20,000 is sanctioned from Provincial funds. The experience gained in equipping the Bengal Court of the Calcutta Exhibition tends to show that in representing the artistic resources of the Province in the space allotted to Bengal by the Royal Commission, a larger sum than this could hardly be expended to advantage. Should it be found, however, that the decorative industries of Bengal admit of illustration on a larger scale, additions may be made to the collection now to be prepared for London before it is exhibited in Bombay. It is understood that the charges for freight to England and again back to Bombay will be met by the Government of India, which will also pay for the deputation of native attendants to take charge of Provincial collections in London.

2. In the Resolution of the 2nd May 1885 constituting and defining the functions of the Agricultural Department in Bengal, the organization of exhibitions has been mentioned among the duties of the Director. In the present instance, however, the pressure of work necessarily accompanying the formation of a new department, and in particular the preparations for the cadastral survey of part of Behar, will render it impossible for the Director to undertake the conduct of exhibition business without skilled assistance. The Lieutenant-Governor has therefore determined to appoint a Committee, consisting of the gentlemen whose names are noted in the margin, to take charge of the arrangements for the Bengal Court in the London Exhibition. The grant of Rs. 20,000 will be placed at the disposal of the Committee, and local officers and heads of departments will be requested to co-operate with them in bringing together a collection of exhibits fairly representing the artistic industries of these Provinces.

Mr. H. A. Cockerell, C.S.I., President.
Hon'ble Colonel S. T. Trevor.
Mr. M. Finucane.
Dr. George King.
Mr. H. H. Risley.
Major Waterhouse.
Mr. H. H. Locke.
Surgeon-Major D. D. Cunningham.
Hon'ble A. P. MacDonnell.
Mr. A. Pedler.
Mr. M. Jackson, Member and Secretary.

3. The general duties of the Committee are sufficiently apparent from the correspondence connected with the exhibition, copies of which will be supplied to them. Arrangements will also be made to place at their disposal a report, specially prepared for this purpose, showing the best examples of artware, fabrics, &c., contributed from Bengal to the Calcutta Exhibition, with the price of each article. Using this report as a basis, the Committee will probably find little difficulty in drawing up for each district or division provisional lists of the articles which the local officers should purchase if the manufacturers do not wish to exhibit on their own account, though with the Committee's general assistance. Commissioners of Divisions will be instructed to form district or divisional committees, as may be most convenient, to consider these lists, to amend or supplement them by the light of local knowledge, and to carry out the instructions of the Central Committee as to the manner in which the exhibits should be dealt with.

4. Apart from the exhibits to be collected locally, the chief ornament of the Provincial Court will consists of screens (the general plan of which is described in the correspondence) showing either the characteristic styles of Bengal architecture or the features and peculiarities of the decorative arts

of the country. For the construction of these screens a grant of Rs. 1,500 has been sanctioned by the Government of India; but it will be open to the Committee to employ some portion of the grant of Rs. 20,000 in preparing the screens should the allowance made by the Government of India not suffice, provided that this additional expenditure may be so directed as to work in with the proper representation at Bombay of the arts and industries of Bengal. The comparative backwardness of the arts of wood and stone-carving in Bengal will probably dispose the Committee to invite from the pupils of the School of Art and other competent persons designs for screens based upon those modes of architectural ornament which are most characteristic of the chief Hindu, Mahomedan, and Buddhist buildings in these Provinces. If such a reproduction of selected ornamental details commends itself to the taste of the Committee, and can be carried out in a manner compatible with the necessary form and proportions of a screen, the Lieutenant-Governor hopes that it may form a worthy illustration of a branch of art little known in Europe, and may, at the same time, offer some encouragement to the pursuit of wood-carving and modelling in Bengal. No time should be lost in commencing the work, as all articles intended for exhibition in London must be ready for despatch by the 25th December, and it is understood that even the simplest type of screen will require considerable labour and constructive skill to adapt it to the conditions imposed by the dimensions of the Exhibition building.

5. The Lieutenant-Governor therefore desires that the President of the Committee will arrange to hold a meeting at as early a date as possible, in order to decide the preliminary questions noted above, and to start work throughout Bengal with the co-operation of the local officers.

ORDER.—Ordered that copies of the Resolution be forwarded to all Departments of Government, all Commissioners, and the Members of the Committee, for information and guidance.

Also that it be published in the *Calcutta* and *Vernacular Gazettes*.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

ANNUAL REPORT ON THE WORKING OF THE CALCUTTA COURT OF SMALL CAUSES FOR 1884.

RESOLUTION.

JUDICIAL.

Dated Darjeeling, the 6th May 1885.

READ—

The Report of the Judges of the Small Cause Court, Calcutta, for 1884.

The year under review was the second complete year throughout which the Presidency Small Cause Courts Act of 1882 was in force.

2. The following statement shows the number of suits which came before the Court, and the manner in which they were disposed of, in each of the last three years:—

	1884.	1883.	1882.
Pending from the previous year ...	1,801	1,557	1,333
Instituted during the year ...	31,074	26,027	29,553
Total ...	32,875	27,584	30,886
Decreed in favour of plaintiff after contest	4,076	3,859	4,397
Decreed in favour of plaintiff without contest	9,450	7,478	8 141
Dismissed after trial	1,312	1,352	1,358
Nonsuited or withdrawn ...	816	920	1,641
Compromised	11,492	9,599	11,040
Dismissed for default of plaintiff ...	2,995	2,514	2,704
Dismissed uncontested	70	61	48
Pending at close of the year ...	2,664	1,801	1,557
Total ...	32,875	27,584	30,886

There was thus an increase of 5,047 in the number of suits instituted compared with the figures of 1883, and of 1,521 compared with those of 1882. In 1882 the old procedure was in force for the first six months of the year. The increase is attributed by the Judges to two causes—*firstly*, to the people having now become more accustomed to the new procedure, and resorting to the Court with greater freedom; and *secondly*, to the fact that creditors have greater security for their loans, in so far as they are able to seize and sell tiled huts in execution of their decrees. There was an increase in every description of suit. Suits of values up to Rs. 10 increased from 8,387 to 10,411, or to within 365 of what they were before this class of cases began to diminish in 1883, and of values between Rs. 10 and Rs. 50 from 11,020 to 13,159. In suits of values between Rs 500 and Rs. 1,000 there was an increase from 505 to 546, and of those over Rs. 1,000 from 315 to 379. The above represents a considerable increase in the work of the Judges.

3. It would appear therefore that the inconveniences of which complaints were made when the Act came into operation, noticed at length in paragraph 2 of the Resolution on the Report of the Small Cause Court Judges for 1883, have not had the effect of permanently discouraging the smaller suitors. Moreover, some at all events of the grievances most strongly urged after the coming into operation of the new Act, have now been removed. For example, during the year the Lieutenant-Governor took into consideration the issue of a notification withdrawing the extension to the Small Cause Court of sections 37 and 41 of the Civil Procedure Code, by the operation of which the procedure of the ordinary Civil Courts with regard to recognized agents had become applicable to the Small Cause Court. It was, however, finally decided that the notification should not come into force until the 1st January of this year. In October 1883 the Government of India reduced the stamp duty payable on a power-of-attorney under article 50 (*b*), Schedule I of the Indian Stamp Act, when required in suits or proceedings under the Presidency Small Cause Courts

Act, from Re. 1 to annas 8, thereby giving material relief to the poorer suitors. The question of reducing the institution fees was another subject which received the attention of this Government. The Court, however, on being consulted, remarked that the effect of the reduction would probably be an increase in the number of suits, and that the present staff—judicial and ministerial—was unable to cope with any further addition of work. For the reasons given by the Court, and because the returns for the year 1884 show that the present scale of the institution fees has not prevented a large increase in the litigation, the Lieutenant-Governor has decided that no steps shall be taken for the present towards its reduction.

4. The total number of cases disposed of (omitting transfers), compared with the result of the preceding year, increased from 25,783 to 30,211. The average duration of contested suits increased from 71·5 to 114 4 days, yet the number of contested cases only increased from 5 211 to 5,388. The Court have, in paragraph 7 of their Report, given reasons, all doubtless of more or less weight, why the average duration of suits has again increased, and will probably continue to do so. These, together with the increasing difficulty felt by the Judges in getting through their daily boards, must be accepted as accounting sufficiently for an evil which, in a Court of Small Causes especially, is a very serious one. The Court sat for 265 days. There were 863 suits pending at the close of the year more than at the close of the preceding year. The total value of the suits instituted increased from Rs. 19,89,465 to Rs. 22,47,816. The amount realized on applications for execution of decrees with the issue of process increased from Rs. 2,11,407 to Rs. 2,46,451, and without the issue of process from Rs. 2,17,355 to Rs. 2,29,159. In 440 cases the judgment-debtor was imprisoned, in 369 arrested but released without imprisonment.

5. The total receipts rose from Rs 2,82,968 to Rs. 3,24,516; those in court-fee stamps for process and other fees alone having increased from Rs. 2,80,339 to Rs. 3,21,419. The charges were Rs. 2,11,940, almost the same as in the preceding year. The net amount credited to Government increased from Rs. 71,954 to Rs. 1,12,576

6. The work of the Court was distributed among the Judges and the Registrar. The Chief Judge dealt with all suits and miscellaneous cases from Rs. 700 and upwards for half of the year, and from Rs. 600 and upwards for the other half. The Second, Third and Fourth Judges dealt each with one-third of all suits and miscellaneous cases between Rs. 15 and Rs. 700 (or Rs. 600), and one-fourth of all suits, &c., between Rs. 10 and Rs. 15 The Registrar heard one-fourth of all suits and miscellaneous cases between Rs. 10 and Rs. 15, and all suits, &c., up to Rs. 10.

7. In paragraph 3 of the Resolution on the Report of last year's working of this Court, it was remarked that upon the facts contained in the Report for 1883, the Lieutenant-Governor found it impossible to press on the Government of India a recommendation for the appointment of an Additional Judge, or any increase to the pay of the present Judges. The Judges have now represented in detail the difficulties with which they have to contend, and the impossibility, with the present judicial staff, of preventing the growing accumulation of arrears. While admitting that as regards suits alone the numbers are not so great as in the years previous to the extension of the jurisdiction of the Court to suits of values up to Rs. 2,000, they state that the value of the suits has greatly increased, thereby involving more frequent contests and a greater complication of details. They further represent that the new procedure has given rise to a variety of miscellaneous applications which were previously unknown, and they show by the analysis of an ordinary day's work that arrears must at present necessarily accumulate. With reference to the refusal of the Government of India, after a careful comparison of the work done in the Calcutta Court of Small Causes with that in other Presidency Small Cause Courts, to sanction the appointment of an Additional Judge and an increase to the pay of the Second and Third Judges of the Court as proposed in 1882, the Judges explain that the Small Cause Courts of Madras and Bombay have to deal with a far larger proportion of the very suits which are most easy to try, viz. suits on "written promise for sum certain." They finally point out that in the course of the last ten years the Calcutta Court has yielded a much larger revenue than either of the other Presidency Small Cause Courts,

and that the number of days on which the Judges actually work is also greater. It appears to Sir Rivers Thompson that the Judges make out some case for an enlargement of the Court; but the present moment is not a favourable one for any representation which involves increased expenditure, and the Lieutenant-Governor would prefer if the Judges would re-submit the case in a special report when the Court closes for its vacation in October next. A fuller experience will then have been gained of the work to be dealt with, and the ability of the Court to cope with it. It might be a consideration whether the pecuniary limit of the powers of the Registrar in trying suits should not be extended.

ORDER.—Ordered that a copy of the above Resolution be communicated to the Judges of the Calcutta Court of Small Causes.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

Secy. to the Govt. of Bengal.

		Meherpur ...	3·07	
		Chooadangah ...	2·65	
	8	Khoolna, „ 9 „	5·48	Weather—rain towards evening almost every day. There has been abundant rain for ploughing and sowing. Public health fair.
	9	Jessore, „ 9 „	2·43	Weather—windy; rain at intervals. Cultivation is being vigorously pushed on; the recent rain has done much good. Public health has on the whole improved in consequence of the rain.
		Jhenidah .	1·79	
		Magoora ...	1·32	
		Narail ...	2·99	
		Bongong ..	1·12	
	10	Moorshedabad, „ 9 „	0·77	Weather—cloudy and unusually cool for the time of year. Rain fell all over the district on the 4th instant, and it has done much good; *aus* paddy is being sown, and in some places it is above the ground; more rain is wanted; price of rice varies from 11 to 14 seers per rupee. Cholera is decreasing.
RAJSHAHYE DIVN.	11	Dinagepore, May 8 '85	2·12	Weather—rain fell generally throughout the district, but very light in the south. Ploughing for and cultivation of *bhadoi* paddy, jute, and sugarcane are going on. Cholera is reported from thana Parsha. Rice is selling at from 14 to 18 seers per rupee.
	12	Rajshahye, „ 9 „	1·29	Weather—cool and cloudy. Rain has done much good to *boro* paddy and other standing crops; but more is still wanted; sowing of *aus* and *amun* paddy is now going on vigorously. Public health somewhat improved, but cases of cholera are still reported.
		Nattore ..	1·34	
		Nowgong ..	1·28	
	13	Rungpore „ 9 „	4·60	Weather—cooled down by recent rain; the recent rain has benefited standing crops; prospects of *aus* paddy, jute, and sugarcane are promising. Cholera still reported from some parts of the district; public health otherwise good.
		Gaibandah .	0·99	
		Kurigaon ..	0·75	
		Nilphamari ..	1·84	
	14	Bogra, „ 9 „	0·35	Weather—a few showers have made the weather chilly. The rain has done some good to the standing crops; ploughing for jute and *aus* paddy has commenced. Cholera still reported from the interior.
	15	Pubna, „ 9 „	3·22	Weather—cool. The recent rain has rendered the out-look quite safe; it has also benefited public health. Sporadic cases of cholera are reported from several parts of the district, but cholera is fast disappearing.
	16	Darjeeling, „ 9 „	4·29	Weather—unseasonably cold and wet. All very fair
	17	Julpigoree, „ 9 „	5·09	Weather—cool and cloudy with frequent rain and thunder-storms. Prospects of crops favourable; the rain has benefited sowing of late paddy and cultivation; owing, however, to difficulty in husking and drying paddy in wet weather prices have temporarily risen at Julpigoree. Public health good. Prospects of tea also very good.
		Eastern Districts.		
DACCA DIVISION.	18	Dacca, May 9 '85	3·96	Weather—storms with heavy showers of rain. Harvesting of *boro* paddy nearly finished; sowing and ploughing are still going on; prospects of crops fair. Public health fair.

	Eastern Districts.		
	CHITTAGONG DIVN.		
22	Chittagong, May 11 '85	0·53	Weather—seasonable; cold-weather crops have been somewhat damaged by the late rain. Sowing of *aus* paddy has commenced. Prices steady. Cholera continues.
23	Noakholly, " 8 "	4·35	Weather variable; cloudy and rainy at times. *Rubbee* crops are being harvested with very fair outturn. The early sowings of *aus* paddy have been much benefited by the late rain. Cholera reported from the interior.
	Fenny ...	3·97	
24	Tipperah, " 8 "	6·08	Weather—the rains have apparently set in with the usual succession of thunder-storms. The country round the Sudder station is a sheet of water, and considerable damage has been done to young paddy, linseed, jute and sissamum. A spell of dry weather is now needed for cultivation. Public health shows a slight improvement, though small-pox and cholera are still prevalent.

	Chandpore ...	5 05	
25	Chittagong Hill Tracts, " 5 "	4·56	Weather—rainy and cloudy occasionally with high winds. Sowing in *jooms* in full swing; lands are being ploughed for *aus* paddy. Prospects of sugarcane good. Fever is very prevalent.
	Hill Tipperah, " 6 "	3·73	Weather—cloudy and rainy and occasionally stormy. *Satya* paddy is still being sown. Chillies and tobacco are being harvested *Joom* cultivation nearly over. Public health good.
	BEHAR.		
	PATNA DIVN.		
26	Patna, May 9 '85	0·14	Weather—cooler with some rain on the first accompanied by hail-storm. *Rubbee* harvest operations completed; cutting of *cheena* has commenced; cholera is prevailing in Behar and Seelao thanas, and also in Dinapore town. Small-pox in Chandi, Hilsa and Seelao thanas; some small-pox is reported in the Dinapore sub division also.
	Behar ..	0·67	
27	Gya, " 9 "	0·01	Weather—cooler towards the end of the week; a few drops of rain fell at the Sudder and slight showers in the north and east of the Nowada sub-division. Sugarcane continues to do well. Fields are being prepared for *bhadoi* paddy. *Mahua* crop has been poor in the Nowada sub-division, and the mango crop will also be poor all over the district. Prices show no material change. Public health normal.
28	Shahabad, " 9 "	0·02	Weather—hot and occasionally cloudy; it has been unsettled, with occasional thunder-storms and slight showers in the head-quarters sub-division. Sugarcane and millet, the only crops on the ground, are doing well.
29	Durbhunga, " 9 "	1·27	Weather—cloudy. Early paddy, *jenura, mung* and indigo have been immensely benefited by the late rain where it fell heavily; more rain is, however, required. Prices stationary. Public health generally good
	Tajpore ...	1·25	
	Madhubani ...	0·20	
30	Mozufferpore, " 9 "	3 02	Weather cool east winds with rain towards night. The rain that has fallen during the week has considerably improved agricultural prospects. It has been pretty general over the district; but most has fallen in the sudder sub-division. Prices stationary. Public health fairly good.
	Hajeepore ...	0 16	
	Sitamarhi ...	0·80	
31	Sarun, " 9 "	0·07	Weather—cool for the time of the year Winds variable, drizzling rain with occasional hail. *Cheena,* sugarcane and indigo are being kept up by constant irrigation where practicable; lands are being prepared for sowings of *bhadoi* crops Public health good.
	Sewan ...	0·10	
	Gopalgunge ...	0 26	
32	Chumparun " 9 "	1·02	Weather—cool with easterly winds The rain which has fallen during the week has facilitated preparation of land for sowings of *bhadoi* crops. Opium weighments are in progress. Public health fair.
	BHAGULPORE DIVN.		
33	Monghyr, May 9 '85	0·61	Weather much cooler; cloudy. The rain has been beneficial to sugarcane, indigo, and *cheena* crops, and has enabled lands to be prepared for *bhadoi* crops. Prices steady. Public health good.
	Beguserai ..	1·05	
	Jamooi ...	1·41	
34	Bhagulpore, " 9 "	0·86	Weather cool and cloudy. Sowings of *bhadoi* paddy continue. The rain has done good to the crops on the ground and facilitated ploughing; but more rain is wanted Prices stationary. Public health good.
	Banka ...	0 37	
	Soopole ...	1·31	
	Mudhipurah ...	0 70	
35	Purneah " 9 "	2·71	Weather—unsettled. Sugarcane, millets, jute, and *bhadoi* crops are doing well. Health fair.
	Kissengunge ...	2·28	
	Arrareah ...	2·17	
36	Maldah, " 9 "	0·97	Weather—hot and occasionally cloudy with thunder and wind generally easterly. The rain has been general and moderate, and has done much good to standing crops, and greatly facilitated ploughing and sowing of autumn and broadcast winter paddy. *Boro* paddy is ripening, and in some places harvesting has begun. The outturn is estimated at from 10 to 12 annas. Price of rice ranges from 13 to 18 seers per rupee. There is still a good deal of cholera and some small-pox, but no other diseases prevail.
37	Sonthal Perghs. " 9 "	0 04	Weather—variable; occasional heavy storms with little rain from south and east. Sugarcane is doing well; *boro* paddy wants rain. Ploughing is going on here and there. Heavy rain reported from Jamtara. Prices stationary. Cholera and small pox are reported here and there. General health good.
	Deoghur ...	0·33

	ORISSA.		
	ORISSA DIVN.		
38	Cuttack, May 8 '85	0·17	Weather—hot, occasionally cloudy with high winds There was slight rain last week almost in every part of the district. Reaping of *dalua* still continues. Ploughing is in progress. Price of rice is rising; common rice is selling at from 15 to 18 seers per rupee in the town Public health is generally good.
39	Pooree, " 7 "	Nil	Weather—hot. Ploughing for ensuing *sarad* crops is over and sowing has begun. *Dalua* is still being harvested; common rice is selling at an average of 21 seers 12 chittacks per rupee in the Sadder station and 21 seers 9 chittacks in the Khorda sub-division Public health good.
40	Balasore " 8 "	0·71	Weather—hot and cloudy at times. There has been more or less rain throughout the district. Ploughing is in progress. Sowing of paddy has begun in some places. Public health is generally good, except that a few cases of cholera have been reported from the interior.
	CHOTA NAGPORE.		
	South-West Frontier Agency.		
41	Hazaribagh. May 8 '85	0·90	Weather—cloudy. The rain of yesterday and that which fell on the 5th instant much facilitated ploughing operations for ensuing crops; but the hail which accompanied the rain did considerable damage to the mango crop. Public health good.
42	Lohardugga, " 9 "	0·34	Weather—wet and stormy and hot till the 5th, since then the weather has been stormy with showers of hail and rain; mango crop more or less a failure everywhere Prices stationary Small-pox is still very prevalent.
43	Singbhoom, " 8 "	0·06	Weather—unsettled; comparatively cool. No crops to report about. General health good
44	Manbhoom, " 9 "	0 44	Weather—cool and stormy. The recent rain has improved agricultural prospects. Ploughing is going on everywhere. Price of rice is falling. Cholera is somewhat prevalent.

average excess being equal to 0·032″. The averages for the whole month therefore show pressure, as a rule, very slightly removed from the normal, and the variation over the whole Province is a defect of 0·012″, though the seat of the greatest defect is in Behar.

Temperature was extremely high, and in most cases much above the normal, up to the 23rd, but from that day it decreased with great rapidity, and except at Chittagong and False Point mean temperatures for the month have been slightly below the normal: the greatest defect is 1·1° at Cuttack, and the largest excess 2·4° at Chittagong. In certain cases maximum temperatures have been very high during the month, and higher than in many previous years. This has been especially the case in South-West Bengal, where at Burdwan a maximum temperature of 109·7° was registered on the 23rd, and at Calcutta on the 16th, where a temperature of 105·5° was registered, the highest recorded temperatures at these stations during April for many years having been 108·7° and 105·3°, respectively.

The distribution of rainfall, as to time and place, has been already dealt with; it remains therefore only to consider the variations in amount. In all districts the fall during April has been below the normal. Thus East Bengal has received 95 per cent. of the usual fall; South-West Bengal and North Bengal about 60 per cent. of the normal; Orissa has received 44 per cent. of the usual amount; Chutia Nagpur 31 per cent.; North Behar 22 per cent., while South Behar has only received 6 per cent. of the normal quantity. In Orissa the False Point district appears to have suffered from the largest defect. In South-West Bengal the Midnapore, Bankoora, and Raniguuge districts have received comparatively small amounts. In East Bengal, Furreedpore has received decidedly less than the proportion stated previously. The district of Dinagepore has received only a third of the normal fall, while in North Behar, Purneah has received moderate amounts of rain, and the districts of Durbhunga, Motihari, and Chupra have been almost rainless. In South Behar the Sontal Pergunnahs and Bhagulpore districts have received a little rain, but elsewhere it has been almost rainless, while in Chutia Nagpur the Singbhoom district has suffered most from want of rain.

The following table gives the summary of the temperature and rainfall data of each of the seven Meteorological Divisions of the Province for the month of April 1885:—

ALEXANDER PEDLER,
Offg. Meteorological Reporter to the Govt. of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE MONTH OF APRIL 1885.

THE normal meterological conditions of April in Bengal are very similar to those which were described for March, but with the continuance of the conditions, they become stronger and more developed. These conditions, it will be remembered, are steadily increasing temperature over the whole of Northern India, accompanied by reducing pressure, the latter effect being the result of a series of oscillations in which the downward movement is greater than the upward. The wind system over the Province in this month, as in March, is usually made up of three components. Easterly winds, the continuation probably of winds down the Assam Valley, prevail along the foot of the hills, and their influence is frequently felt even to the western limit of the Province. Southerly and south-westerly sea winds blow over the southern districts of Bengal, and as the month advances they gradually penetrate further into the interior of the Province. At the same time hot westerly and north-westerly winds blow from Upper India over the greater part of Behar, Chutia Nagpur and the western districts of South-West and Central Bengal. By the interaction of these almost opposing wind systems, which differ in strength, humidity, &c., the hot-weather storms of Bengal are almost certainly produced, and with the inland extension of the southerly moist winds, the rainfall brought by these storms advances into the interior of Bengal.

The rainfall of April is practically entirely due to these storms, and the average distribution of the rainfall in Bengal during this month is simple. The lines of equal rainfall run mainly north and south, or parallel to the hills on the borders of Eastern and Northern Bengal. To the east of a line running through Julpigoree, Rungpore, Serajgunge, Burrisal and Chittagong the rainfall varies from 4 to 6 inches. The rainfall diminishes westwards, and to the west of a curved line running through Bettia, Durbhunga Doomka, Hazaribagh and the Cuttack hills, the average rainfall of the month of April is less than one inch. It is least in Shahabad, where it is barely a fifth of an inch.

The meteorology of the past month has been of considerable interest, and, for the purpose of discussion, the month should be divided into two portions—one part up to the 22nd or 23rd, and the second from the 23rd to the end of the month, for the conditions in the second portion were almost the reverse of those of the first.

The month commenced with rapidly increasing, and in some cases extremely high, temperatures, and with pressure, which was, except in Chutia Nagpur, distinctly below the normal. Winds also were strongly westerly over the whole Province, except in North and East Bengal, and rainfall was practically absent, except for a few showers which were reported from North Bengal, and which were induced by a small area of low pressure which developed in Behar, and passed into North Bengal. Winds continued to become even more strongly westerly, particularly from the 8th instant, when a north-westerly current invaded the whole Province. This was accompanied with a rapid increase of pressure, which in some instances, as at Hazaribagh, amounted to nearly a quarter of an inch. During the third week of the month, the former conditions continued to hold, temperature steadily increased, and winds were strongly westerly except in East Bengal, but pressure now began to fall rapidly, and it was decidedly below the normal at this period. With the steady dry westerly current which was blowing almost all over the Province, conditions up to the 23rd of the month were extremely unfavourable to rainfall, for during this period practically no interaction between the wind currents, as noted above, could take place, and consequently hot-weather storms or nor'-westers were almost entirely absent during this period. The rainfall was therefore confined to a few local showers in East Bengal, where moist south-easterly winds were still blowing. On the 23rd, the movements of the barometer became rather irregular, showing that conditions were unsettled, and on the 24th a strong easterly current set in over North Bengal and North Behar, and at some stations in South Behar. In East Bengal winds were south-easterly; in the southern parts of South Behar and Chutia Nagpur winds were north-westerly and westerly, and in South-West Bengal winds were southerly. A considerable amount of interaction necessarily took place between these opposing wind systems, and the previous meteorological conditions of the Province became almost reversed, and the conditions at once became favourable for the production of hot-weather storms or nor'-westers. These conditions continued, and a small area of low pressure began to develop in South Behar and Chutia Nagpur, and winds showed a fairly complete cyclonic circulation round it. This continued up to about the 29th and 30th of the month, when wind directions to a certain extent ceased to show the tendency to cyclonic circulation, though the area of low pressure could still be faintly traced. It will thus be seen that from the 23rd or 24th, up to nearly the end of the month, weather conditions over the Province were very disturbed, and local storms, in many cases of considerable intensity, have been of almost daily occurrence over a considerable portion of the Province. Thus, during this period, rainfall generally brought by such storms has been general in South-West Bengal, East Bengal and North Bengal, while a few showers have fallen in Chutia Nagpur and Orissa; but in Behar, except in the Purneah district, rainfall has practically been absent. With the heavy rainfall during the last eight days of the month, temperature of course fell rapidly, and was below the normal in all districts.

Pressure, as stated above, was at the commencement of the month, except in Chutia Nagpur, distinctly below the normal. The defect also continued through the greater part of the second and third weeks, and in fact until the sudden change of conditions noted above, when the setting in of easterly winds was followed by a rapid increase of pressure, and for the last week of the month pressure was above the normal in all parts of the Province, the

CALCUTTA, *the 4th May* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 8TH OF MAY 1885.

The conditions which had prevailed over Bengal during the previous week, and which were then favourable to the formation of hot-weather storms or nor'-westers, have continued to exist during the present week without interruption. General rain, in many cases in large amounts, has therefore fallen over almost the whole of the Province, and in almost all districts rainfall has been very considerably above the normal for the week.

The week opened with the existence of a distinct area of low pressure over Chutia Nagpur and part of South Behar, and there was a decided tendency for wind directions to circulate round it. This area of low pressure apparently moved towards the south, and on the 3rd it gave rise to strong winds, unsettled weather, and heavy rain in many parts of Bengal. These conditions were present in a more or less pronounced form for two or three days, but from the 6th, however, pressure began to increase rapidly over the whole Province, the area of low pressure filled up, and on the 8th pressure was very largely above the normal, and at the same time the distribution became decidedly irregular, for it was highest in North and East Bengal, while some parts of South-West Bengal showed pressures which were distinctly low in comparison with the surrounding districts. Throughout the week the easterly component in the wind directions has been very clearly and strongly marked, particularly in the northern and eastern districts, and at one time it almost appeared to be prevailing over the westerly current which generally blows over the western districts at this season of the year. Southerly winds have also been blowing steadily in South Bengal, so that the conditions remained favourable for the formation of local storms up to the close of the week.

Pressure during the previous week had been above the normal by about 0·032″; the changes and oscillations which have occurred during this week have generally had an upward tendency, and the mean pressure for the week over the whole Province is now no less than 0·09″ in excess. The excess pressure is smallest in Chutia Nagpur, where it is about 0·05,″ but in other parts of the Province the excess is fairly evenly distributed.

With the heavy rainfall over almost the whole of the Province, temperature has been decidedly below the normal at almost all stations. The average defect has been about 2,° but at such stations as Chittagong and Berhampur the defect has been nearly 5°.

Rainfall has been general throughout the week in almost all districts. East Bengal, North Bengal and South-West Bengal have received the largest amounts; North Behar and Orissa have also received considerable quantities, while South Behar and Chutia Nagpur have reported the smallest amounts. The average fall over East Bengal amounts to no less than 4·11 inches; North Bengal has averaged 2·75 inches, and South-West Bengal 2·28 inches. North Behar has received an average of 1·46 inches, and Orissa comes next with 1 inch. Lastly, the fall in Chutia Nagpur has been 0·73 inch, and in South Behar 0·65 inch. Comparing these numbers with the normal fall for the week, East Bengal has received an excess fall of 47 per cent.; in Orissa the excess has been equal to only 10 per cent. In North Behar the excess amounts to no less than 120 per cent., in South-West Bengal and North Bengal the excess is about equal to 60 per cent. The and excess is smaller in South Behar and Chutia Nagpur, where it is about 50 per cent. In certain divisions and sub-divisions, however, the rainfall has not been so plentiful as the above figures would seem to imply; thus the Singbhoom district has only received about a third of the normal fall for the week, Nya Doomka has received practically no rain for the week, the Gya and Shahabad districts have also had very little rain, and finally parts of the Moorshedabad, Beerbhoom, and Bankoora districts are considerably below the average for this period.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 8th of May 1885:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 85 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDA.

THE annexed table presents the vital statistics of the principal Municipalities in Bengal for the week ending 25th April 1885. The results to be gathered from it, contrasted with those for the preceding week ending 18th April, are the following:—

Births and Deaths recorded.

	During the weeks ending— 25th April 1885.	18th April 1885.
Ratio of births per 1,000 of population ...	24·1	24·5
Proportion per cent. of male to female births ...	116	114
Ratio of deaths per 1,000 of population ...	38·5	39·7
Proportion per cent. of male to female deaths ...	135	124

2. The above events were returned in the highest proportions from the following Municipalities:—

Births.

	Ratio per mille.
Durbhanga ...	43·3
Bhagulpore ...	38·0
Gya ...	36·2
Purneah ...	34·6
Burdwan ...	32·0
Comillah ...	30·8

Deaths.

	Ratio per mille.
Burdwan ...	88·5
Bhagulpore ...	69·7
Chittagong ...	63·4
Kishnaghur ...	58·8
Suburbs of Calcutta ...	50·5
Beauleah ...	49·9
Purneah ...	48·4
Durbhanga ...	44·1
Mozufferpore ...	43·8
Comillah ...	38·5
Patna ...	37·0
Hughli ...	34·8
Dacca ...	34·4
Midnapore ...	32·5
Poori ...	31·5

3. From the figures in the following table, it appears that during the week under notice the mortality from small-pox and fever had declined to a small extent, that the death-rate from the diseases recorded under the head of "Other causes" exhibits no variation, and that there were no marked differences in fatal results from the rest of the death-causes:—

	Ratio per mille during weeks ending— 25th April 1885.	18th April 1885.
Cholera ...	10·4	10·5
Small-pox ...	·7	1·5
Fever ...	14·1	15·1
Bowel-complaints ...	5·0	4·8
Injury ...	·7	·5
Other causes ...	7·3	7·3

4. Of the abovementioned diseases cholera, small-pox, fever, bowel-complaints, and "other-causes" exhibited greatest severity in the following Municipalities:—

Cholera.	Ratio per mille.	*Small-pox.*	Ratio per mille.	*Fever.*	Ratio per mille.	*Bowel-complaints.*	Ratio per mille.	*Other Causes.*	Ratio per mille.
Burdwan	53·4	Dacca ...	5·8	Purneah ...	41·4	Durbhanga	15·7	Poori ...	25·2
Kishnaghur ...	43·6	Durbhanga ...	3·9	Mozufferpore	30·4	Patna ...	12·3	Midnapore ...	15·5
Chittagong ...	39·9			Burdwan ...	29·0			Suburbs of Calcutta ...	11·6
Beauleah ...	31·5			Comillah ...	26·9			Dacca	11·0

Hughli ...	17·4			Chittagong ...	21·1				
Santipore ...	7·0								
Howrah ...	6·9								
Gya ...	3·4								
Patna ...	2·9								

It is observable that, in comparison with the outcome of the preceding week, there was a considerable increase of mortality from cholera in Burdwan, Kishnaghur, Chittagong, Beauleah, and Bhagulpore, and from fever in Purneah and Mozufferpore.

5. With reference to *Sex*, *Class* and *Age*, the mortality stands as follows:—

According to Sex.

	Ratio per mille.
Males ...	41·7
Females ...	34·9
Ratio of male deaths to every 100 female deaths ...	135

According to Class.

	Ratio per mille.
Christians ...	13·0
Hindus ...	38·0
Mahomedans ...	40·5
Budhists ...	48·4
Other classes ...	36·4

According to Age.

	Ratio per mille.

GENERAL REMARKS AND EXPLANATIONS

During the month under review 2,859·36 tons more merchandise have passed over the line than during the same month last year, which gives a net increase of 17·89 per cent. The increase is general under all heads of traffic, excepting ginger, railway material, and salt. The season for ginger has ended, railway material cannot well be looked upon as a staple of the line; and salt, has suffered from an overstocking of the local markets consequent on a reduced rate introduced in December, which was apparently too eagerly availed of by despatches.

Increases.

Ale ... ... Tons 3 07

This increase is not worth noticing.

Food-grain ... ... Tons 972·41

There is a little more animation in the rice market. This increase, however, is due to paddy, for which there is a good demand. During the corresponding month last year, 925·53 tons of paddy went forward, while in the present month the traffic amounted to 1,849·74 tons.

Gunny-bags ... ... Tons 42·86

Owing to the cheapness of the raw material, and the want of orders from home, mill-made bags are under-selling hand-made gunnies for packing purposes. A local demand, however, for the latter still exists.

Jute ... ... Tons 2,301·87

During the month there has been a fair demand for loose jute; but business in baled jute has been at a discount.

Miscellaneous ... . Tons 832 28

Machinery, stores, &c, are still coming forward to meet the extensive requirements of the numerous tea gardens and other local industries.

Piece-goods ... ... Tons 172·93

Though the spring season has not fairly opened yet, enquiry from the mofussil markets is said to be good.

Sugar ... ... Tons 33·54

Nothing is reported doing in this staple.

Seeds ... ... Tons 107·86

There has been fair enquiry for linseed, and the market closes firm with plenty of buyers. In the other descriptions nothing is doing.

Tea ... ... Tons 102 18

For *common Pekoes* and *medium Broken Pekoes* there was an active enquiry at an advance of one anna per pound on previous quotations.

Tobacco . ... Tons 124·77

The demand both from the Rangoon and local markets continues.

Decreases.

Ginger ... ... Tons 25·54

There is no demand for this staple.

Railway material ... ... Tons 1,600·80

The usual quantity of coal for the Locomotive Department was not carried during the month, and stores and machinery for the A. B. Railway have almost all passed up.

Salt ... ... Tons 208·07

The reduced telescopic rate of ⅐ to ⅙ pie per maund per mile introduced last December has apparently had the effect of over-stocking local markets, and thus retarding despatches until the surplus supply is sold off.

General Remarks on the fluctuation of principal staples carried over the East Indian Railway during the month ended 28th March 1885.

INCREASES.

Opium.—The increase in this commodity is attributable to a larger quantity having been manufactured than in March 1884, the poppy crop being an unusually good one this year.

Salt.—This is due to heavy despatches having been made from Howrah to the Patna and Behar districts and to Oudh.

Wheat.—Improved demand for export accounts for the increase in this staple.

Hides and Skins.—A good supply attended with brisk demand and low prices caused an active market and led to the increase in these commodities.

Tobacco.—This increase is accounted for by a better crop and demand.

Minerals.—The increase was principally in lime despatched from Raneegunge to Hajeepore *viâ* Patna for the Gunduk bridge and to Howrah for the port works.

Government Stores.—Heavy despatches of stores by the various Military Departments to the Punjab led to this increase.

Sugar.—A better sugarcane crop and an active demand from stations on the Rajputana-Malwa and Bombay-Baroda and Central Indian Railways account for the increase in this staple.

DECREASES.

Coal.—The heavy decrease in both the upwards and downwards coal traffic is due to want of demand from the foreign Railways and for trade and brick-burning purposes.

Rice (husked and unhusked).—Partial failure of the rice crop in the Beerbhoom district is assigned as the cause of this decrease.

Saltpetre.—This decrease is attributable to a rise in sea freights which restricted all business.

Seeds.—A dull market at Calcutta and want of supplies are the reasons for the decrease in seeds.

Railway Material, Foreign.—There has been an increase in weight and a decrease in earnings, and this is due to the despatches having been for shorter distances this year than in 1884.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

REDUCTION OF HARBOUR AND LIGHT DUES AT PORT LOUIS (MAURITIUS).

Dated Mauritius, the 1st April 1885.

From—CHAS. BRUCE, ESQ., Colonial Secretary,
To—The Chief Secretary to the Government of Bengal.

I AM directed by His Excellency the Governor of Mauritius to transmit to you, for the information of the Bengal Government, copies of an Ordinance lately passed to reduce the harbour dues and to amend and consolidate the laws relative thereto.

I am also to transmit to you copies of a proclamation issued by the Governor reducing the light dues leviable for defraying the expenses of maintaining light-houses and lights on the coast of Mauritius.

By these enactments some of the charges previously levied on vessels entering the harbour of Port Louis have been reduced, others have been totally abolished, the reductions on the whole amounting to at least 50 per cent. of the charges hitherto levied.

ORDINANCE No. 18 OF 1884-85.

AN ORDINANCE

Enacted by the Governor of Mauritius and its Dependencies, with the advice and consent of the Council of Government thereof.

To reduce the harbour dues and to amend and consolidate the laws relative thereto.

I assent.

[L.S.] J. POPE HENNESSY.

(10*th February* 1885.)

WHEREAS it is expedient to reduce certain harbour dues levied and collected in Port Louis, and to consolidate the laws relative to such dues:

Abolition of charges on port clearances.

3. The charges hitherto levied on port clearances are hereby abolished.

Vessels abandoned.

4. All vessels abandoned in the harbour and sold shall either be broken up or fitted for sea within six months from the date of sale, subject to a charge of Rs. 10 per diem for every day that every such vessel shall remain not broken up or not fitted for sea after the lapse of six months.

Abandoned vessels to have keepers and proper moorings.

5. The owners of vessels abandoned in the harbour shall be bound to have a keeper and two men on board of each such vessel, and to moor it securely with four bower-anchors—two ahead and two astern—in such situation as shall be pointed out by the Harbour Master. Any such owner failing to comply with the provisions of this Article shall be subject to a penalty not exceeding Rs. 500.

Tonnage how determined in certain cases.

6. For the purpose of levying the dues imposed by this Ordinance the tonnage of a vessel shall be deemed to be the tonnage denoted in the certificate of registry or other national papers of the vessel, whenever such vessel shall be of British nationality, or of any foreign country touching which a Royal Order in Council made by virtue of the Merchant Shipping Act Amendment Act, 1882, shall have directed that the vessels of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers.

Tonnage how determined in other cases.

7. In regard to vessels not within the scope of the provisions of the last preceding Article, the tonnage shall, for the levying of the dues imposed by this Ordinance, be ascertained by measurement as directed by Article 1 of Ordinance 18 of 1871, and all the provisions of the said Article shall apply to such vessels.

Government may remit or reduce harbour dues.

8. The Governor in Executive Council shall have power to remit or to reduce the harbour dues chargeable on any vessel under this Ordinance.

To whom dues shall be paid.

9. The dues leviable under this Ordinance shall be levied by, and paid to, the Collector of Customs.

Repealing clause.

10. The following laws are hereby repealed:—

(1) Ordinance 6 of 1852;
(2) Ordinance 32 of 1852;
(3) Ordinance 38 of 1875;
(4) Sections *a* to *g*, inclusive, of Schedule C, appended to Ordinance 19 of 1877;

PROCLAMATION No. 6.

IN the name of Her Majesty Victoria, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, Empress of India, &c., &c., &c.

J. POPE HENNESSY.—*By His Excellency* SIR JOHN POPE HENNESSY, K.C.M.G., *Governor and Commander-in-Chief in and over the Colony of Mauritius and its Dependencies, &c., &c., &c.*

(Seal)

WHEREAS it is provided by Ordinance 22 of 1885, entitled an Ordinance "For providing ways and means for defraying the expenses of maintaining light-houses and lights on the coast of Mauritius" that the Governor may, with the advice of the Executive Council, reduce the light dues leviable on vessels entering the harbour, or discharging or shipping cargo or immigrants in the roadstead of Port Louis.

And whereas it is expedient to reduce the rate of R. 0.09 now leviable as light dues on such vessels:

Now therefore in virtue of the powers in me vested as aforesaid, and with the advice of the Executive Council, I do order and proclaim that from and after the date of this proclamation the rate R. 0.09 per ton now leviable for light dues on such vessels as aforesaid shall be and is hereby reduced to R. 0.05 per ton.

GOD SAVE THE QUEEN!

Given at Government House, Mauritius, this 14th day of February 1885.

By command of His Excellency the Governor.

INSTRUCTIONS FOR THE GUIDANCE OF ENGINE-DRIVERS IN CHARGE OF SMALL STEAMERS AND STEAM LAUNCHES.

BENGAL MARINE CIRCULAR.

GOVERNMENT OF BENGAL, GENERAL DEPARTMENT.

Calcutta, the 1st July 1884.

THE following circular is published for the guidance of officers and engine-drivers entrusted with the charge of small steamers and steam launches.

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

Instructions for Engine-room Artificers, Leading Stokers, and others in charge of machinery of steam-boats on detached service.

A COPY of these instructions is to be carried by every person who may be in charge of the machinery of a steam-boat on detached service, and all men in these boats are to be made thoroughly acquainted with these instructions.

1. Fresh water, distilled water if possible, is to be used for filling and feeding the boiler. When the fire is lighted, there is not to be less than 5 inches of water over the top of the fire-box, which may be blown down to 4 inches just before getting under way, unless the boat is required for continuous steaming for some considerable time at a low power.

2. Steam is to be raised very slowly, except in cases of urgency.

3. When the fire is lighted, drain the steam pipes and cylinders, and then open the stop valves a little to warm gradually the cylinders and cylinder jackets.

4. Lift the safety valves occasionally whilst getting up steam.

5. Clear the cylinders of water before starting, and keep the jackets clear of water at all times.

6. Keep the water level in the boiler constant, and blow through the water-gauge cocks occasionally.

Note.—The middle sentence refers only to condensing engines.

7. Use both main feed pumps. If the pumps are not drawing, the hands of the feed pump pressure gauges will be stationary and the hot-well will overflow: get the pumps to work by opening the pet-cocks.

8. If no cocks are fitted in the feed delivery pipes, the feed pump air-vessels are not to be taken off while steam is up, before it is ascertained by disconnecting the pressure gauge on the feed pipe and opening its cock that the non-return valve on the boiler is shut.

9. If the boiler primes, ease the engines as much as possible.

10. Fill up the fresh tanks at every available opportunity.

11. Sea water is not to be used in the boiler, except on emergency. When it is used the density is not to exceed 20 or $\frac{3}{32}$, and the boiler is to be opened and cleaned as soon after as possible. A salinometer is to be demanded for every launch that is not already provided with one, if she at any time runs in salt water.

12. The boiler is not to be emptied by blowing out.

13. The boiler is not to be emptied, except for examination, cleaning, or repairs, and the water is to be changed as seldom as possible while it remains clean.

14. The fire is not to be kept laid if the boiler is empty.

15. When the engines are no longer required, the cocks and valves are to be closed and if there is no objection, the fire is to be allowed to die out.

16. If the launch is attached to a steamer, the number of hours per day that the fire is alight is to be noted in the engine-room register of the ship to which the boat belongs.

FOR BOATS NOT FITTED WITH FRESH-WATER TANKS.

As many of the foregoing instructions as will apply, and—

17. Great care is to be taken to prevent an accumulation of deposit in the boiler, and boiler composition is to be regularly used to prevent the formation of scale.

18. In salt water a depth of water approximately equivalent to the length of the gauge glass will require to be blown off by the brine cocks every two hours.

19. The boiler is to be opened out at least once a month to clean out accumulation of mud, &c., or as much oftener as the state of the water used renders it necessary. If very muddy, once a week will be required.

GENERAL.

20. The funnel should be kept covered.

21. The engines to be turned round by hand daily when steam is not up.

NOTIFICATION.

The 16th May 1885.—In exercise of the powers conferred on him by section 3 of Act I of 1882 (the Inland Emigration Act), the Lieutenant-Governor is pleased to vest Dr. V. Richards, Superintendent of Emigration at Goalundo, with the powers of a Magistrate under sections 78 and 79 of the Act.

BAY OF BENGAL—BRITISH BURMA.

ARRAKAN COAST.

IRRAWADDY SHOAL.

COMMANDER A. CARPENTER, *R.N.*, Commanding Her Majesty's Indian Marine Surveying Steamer *Investigator*, who executed the survey on the coast of Burma, reports that the *Irrawaddy Shoal* consists of *two patches* lying north and south of one another, a mile apart.

The *Northern Patch* has as little as 2½ fathoms of water over it, and perhaps less. It consists of broken rock, and it lies 3¾ miles W ½ S. from the summit of Saddle Island off Kyouk Phyou.

The *Southern Patch* is a narrow ridge of four fathoms.

Note.—The clearing mark already mentioned in the Sailing Directions, namely the summit of Nondogee Island open westward of the North point of Sattelite Island, clears both dangers.

The Bearings are Magnetic.

This Notice affects Charts Nos. 70,829, and 821; also Sailing Directions for Bay of Bengal.

CALCUTTA,
The 18th May 1885.

RADHIKA PRASANNA MUKHERJI,
Offg. Inspector of Schools, Presidency Division.

Government Engineering College, Seebpore.

CANDIDATES for admission to the Engineer Department should apply to the Principal before the 25th May 1885. The session begins on Monday, the 1st June 1885. Candidates must furnish proof that they have passed the Calcutta University Entrance Examination, and that they are under 19 years of age. This limit will be raised to 21 years of age in the case of candidates who have passed the F.A. Examination of the University.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior scholarships. The scholarships will be awarded with general reference to the place taken by candidates at the Entrance Examination. Applications for scholarships will be received by the Principal up to the 25th May.

Students who have passed the University Entrance Examination in April are eligible for admission to the Mechanical Apprentice Department up to the 1st June 1885. They must send in their applications before 25th May 1885.

Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eye-sight.

Further particulars will be supplied on application to the Principal.

SEEBPORE,
The 27th April 1885.

S. F. DOWNING, *Principal,*
Government Engineering College, Seebpore.

THE Calcutta Medical College Session 1884-85 will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten (10) free presentations will then be awarded. These are given to students according to their relative position in the University B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as matriculated students of the College who has no previously passed the First Arts Examination of the Calcutta University, or some one of the preliminary Arts Examination of the United Kingdom recognized by the British General Medical Council.

4. All matriculated students of the College are required to pay Rs. 15 on entrance, Rs. 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year.

5. Students who have failed to pass their final examination and who, under the regulations of the University, are required to attend a further course of lectures and of hospital practice before being allowed to present themselves again for examination, will pay for such further course an annual fee of Rs. 45 in two instalments of Rs. 30 and Rs. 15, payable at the beginning of the summer and winter sessions respectively.

6. Any matriculated student of the College may, with the permission of the Principal and the Professors of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and he shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he has really studied the subject. The fees payable in advance for such additional courses are the following :—

	Rs.
For a single course of lectures on each subject	40
For six months' attendance in each department of hospital practice ...	60

7. Any matriculated student who leaves the College before completing his University course with the object of continuing his studies at a Medical School in Europe may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

8. Any person not being a matriculated student of the College who may be desirous of attending any course of lectures or any department of hospital practice may do so with the permission of the Principal and Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 6.

If such student has passed the Entrance Examination of the University, he may receive certificates of attendance at lectures, provided the Professors are satisfied that he has attended the full course of lectures, and has mastered the subjects taught.

A student who has not passed the Entrance Examination will be entitled to no certificates of any kind.

9. College scholarships, prizes, and certificates of Honour are open for competition only to matriculated students of the College Hospital apprentice class and Female Certificate class.

10. No fees are payable by the holders of the Calcutta Medical College scholarships. The holders of the Doorga Charan Laha and all other scholarships will be required to pay fees as a matriculated student. These scholars may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

11. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligent prosecution of his studies.

12. The offices of class assistant, clinical clerk, dressers, &c., can be held only by students whose names are on the rolls of the College.

DISTRICT ROAD FUND.

NOTIFICATION No. 202.

The 18th May 1885.

The following Annual Accounts and Abstracts of Reports of the Road Cess Committees of the districts of Chittagong, Noakhally, Tipperah, and Chittagong Hill Tracts for the cess year 1883-84, together with the remarks thereon of the Commissioners of the Chittagong Division, are published for general information:—

G. F. E. S. NEILL, *Major*, M.S.C.,
Under-Secy. to the Govt. of Bengal.

Abstract of Report of the District Road Committee, Chittagong.

Village roads.—A sum of Rs. 16,000 was sanctioned for the repair of the village roads during the year. Of this a sum of Rs. 14,000 was reserved for the Sudder sub-division, and Rs. 2,000 handed over to the Branch Committee for repair of the village roads within the sub-division.

Planting trees.—No trees have been planted during the year. the trees that were planted on the Ramghur road in the previous year have been maintained.

Construction of a workshop for iron-work.—A temporary workshop was constructed for fitting iron-works for bridges, the system of repairing or replacing timber bridges by iron ones having been introduced this year. But the Executive Engineer, having raised objections to a thatched building near the cutcherry offices, a corrugated iron workshop has lately been constructed.

Construction of Road Cess office building.—Brick making for the road cess office building was arranged for with a contractor, but owing to the early setting in of the rains, he failed to manufacture any bricks.

Repairs to District Engineer's office building.—Repairs to the District Engineer's office bungalow and the godown attached to it have been executed this year.

The roads in the district have been maintained and various improvements have been carried out.

A conditional grant of Rs. 2,000 was made by the Committee for metalling a portion of Moheshkhally Strand Road, but the condition not having been fulfilled, the work could not be done. This amount of Rs. 2,000 was then granted for keeping a stock of glazed stoneware pipes, iron trough plates and rolled joists in stock for use in repairing damage to roads during the rains. These have been utilized in repairing bridges in the head-quarter, north and south sub-divisions.

The construction of roads in this district is very costly on account of the necessity for bridging the numerous hill streams crossed by them. The requirements of the district exceed its road cess resources.

The establishment generally have worked satisfactorily.

A. MANSON,
Chairman, District Road Committee.

No. 101 R.C.C., dated Noakhally, the 5th December 1884.

From—A. BOROOAH, Esq., Chairman, District Road Cess Committee, Noakhally.
To—The Commissioner of the Chittagong Division.

I HAVE the honour to submit, under section 179 of the Cess Act, the Annual Report and Accounts of the District Road Cess Fund for the year 1883-84, approved by the Committee held on the 5th instant.

2. The damage done, to Chaguluya and Pashuram Roads by last year's early rain, was repaired during the year under review. But as some injury was done this year also from the same cause, I have proposed that all earthwork should as a rule be completed in the winter; all the main roads were surface repaired and they are all in good passable order.

3. Bricks required for the bridge works on the important roads were manufactured to a large extent, and it is hoped many of them will be completed in the present year (1884-85), so far as our funds will permit.

4 During the year under review, seven iron bridges with masonry abutments and a few masonry culverts were completed. Masonry abutments of 12 other bridges were taken in hand. Two timber bridges were repaired and one thoroughly renewed.

5. The proposal of putting up a screw pile bridge over Nakholly khall at Dhoomchur was abandoned for the present for want of funds.

6 With the encouragement received from the principal landholders, the Committee have resolved to open steam communication both between Noakholly and Backergunge and between the main land and the islands of Hattia and Sundip, your approval was communicated in your No. 586G.M., dated 17th September 1884, but the decision of Government is not yet known.

7. Several village roads were opened during this year as noted in the margin.*

8. The Branch Road Cess Committee at Feni spent a portion of the allotment in the marginally† noted village communications.

9 About 1,500 new plants were planted this year on some of the roads. Both these and last year's plants are generally thriving well.

10. The Vice-Chairman, Baboo Ram Lal Sen, and District Engineer Baboo Binode Behari Pal, have both worked satisfactorily, I have not been always satisfied with the work of the overseers.

RAM LAL SEN, *Vice-Chairman, Road Cess Committee.*

Explanation.

Provincial Rates, Establishment and contingencies of office of collection.—It will appear that the amount under this head exceeds the budget grant. This is owing partly to the extra establishment consisting of three clerks having been entertained from 4th August 1884 under the order of Board of Revenue, conveyed in their No. 56A of 15th July 1884, and partly to the pay of regular establishment for 13 months having been disbursed during the year. Annas 6-6 drawn in excess of the salary of three ticca mohurirs has been refunded.

Administration, Establishment and contingencies of office of collection.—The sanctioned budget has also been exceeded under this head owing to 13 months' pay of clerks and peons having been brought during the year because the durga pooja holidays beginning before the close of the year, pay which otherwise would not have been disbursed till October following.

Stationery and Printing.—The excess amount is owing to the forms for revaluation work having been indented for by the Collector.

RAM LAL SEN,
Vice-Chairman.

No. 75R., dated Commillah, the 9th December 1884.

From—H. G. COOKE, ESQ., Chairman, Road Cess Committee, Tipperah,
To—The Commissioner of the Chittagong Division.

UNDER section 179 of Act IX of 1880, (B.C.), I have the honour to submit the following report on the Road Cess Administration of this district during the cess year ending 30th September 1884, together with a copy of the annual accounts of income and expenditure for the same year, as passed by the District Road Cess Committee at a special meeting held on the 6th December 1884.

2. *Audit of Accounts.*—The Audit Sub-Committee held one meeting in every month during the cess year, in accordance with Bengal Government order No. 201 A. of 26th February 1880. The result of the audit was on the whole satisfactory. A copy of the Vice-Chairman's audit report No. 63R, of 28th November 1884, is herewith submitted.

3. The District Road Cess Office and that of the District Engineer's were inspected by Baboo Mohendra Lal Mukerjee, Local Auditor, on July last, who carefully examined all accounts, &c., and found them correct.

4. *Committee meeting.*—In all, nine meetings of the District Road Cess Committee were held. The attendance of the members of the District Road Cess Committee and that of Chowdogram, Muradnagar and Chandpur Branch Committees was fair, but that of the Brahmanbariah Branch Committee bad.

5. *Original Works.*—The principal works on which the Committee spent their money during the year under report are—

(a) bridging the Commillah to Nayanpur road,
(b) the Nayanpur to Arrybary road.
(c) the Arrybary to Brahmanbariah road.

The first and second sections, *i e.*, the road from Commillah to Nayanpur and from Nayanpur to Arrybary are completely finished. The third section, the road from Arrybary to Brahmanbariah, only seven bridges are to be constructed during the current cess year, the road will be then drivable upto Brahmanbariah.

6. Three important projects (*a.*) Hajigunge to Chandpur Road, (*b*) Gokorna khall's project, and (*c*) Laksham to Berullah, *i e.*, a road giving direct communication between the Civil stations of Commillah and Noakali, have been sent back by the Superintending Engineer without being approved by him, with a recommendation that these projects should await the completion of the proposed Railway embankment. The large sum thus saved will be utilized on other projects.

7. *Repairs.*—Repairs on the roads noted below, consisted chiefly on surface repair and the maintenance or construction of temporary bridges and the planting of young trees &c. They are all good fair-weather roads, and have been kept open for foot passengers during the rains by means of shankoos or bamboo rail bridges, and many of them for wheeled traffic.

RAJ KISSEN BANERJEE,
for Vice-Chairman, District Road Cess Committee, Tipperah.

No. 94R., dated Rangamatti, the 11th February 1885.

From—The Deputy Commissioner of the Chittagong Hill Tracts,
To—The Commissioner of the Chittagong Division.

I HAVE the honour to submit herewith in duplicate the Road Fund annual accounts for the year 1883-84, and beg to state that the question of retention of the existing line of road from Rangamatti towards Chittagong has not yet been decided, and nothing beyond annual ordinary repairs by clearance of jungle and repairing of bridges, &c., on the road could in consequence be done to this road during the past year.

2. The opening up of the bridle path to Demagri, sanctioned in Bengal Government No. 936P., dated the 17th August 1883, was taken in hand at the commencement of the year under review.

3. The first line ran through Burkal and terminated at Demagri; about 20 miles of road have been opened out.

4. The second line opened out from Demagri to Ohipoom guard station, along the Ohipoom Range. It is about 22 miles in length.

5 The third line of road opened out from Burkal to Ohipoom direct. This road meets the Demagri and Ohipoom road, mentioned above, about 12 miles from Demagri station.

6. The road at the head-quarter station at Rangamatti has been improved by metalling and draining. The metalling of a little less than a mile of this road has been completed.

7. The annual ordinary repairs have been done to all other existing roads during the year, except two borne in the list, namely one from Chandergonah to Wagga and the other Manickcherry to Kunchanpoor; consequently no charge exhibited against them.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estate, situate in the district of Bhagulpore, will be put up to sale at the Bhagulpore Collectorate on Saturday, the 6th June 1885, corresponding with 9th Jaith 1292 Fusli.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price.

The purchaser of this estate will be considered as the proprietor of the estate and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

No. 308—L. G.M., dated Chittagong, the 24th March 1885.

From—D. R. LYALL, ESQ., Offg. Commissioner of the Chittagong Divison,
To—The Secretary to the Govt. of Bengal, Public Works Dept.

I HAVE the honour to submit the Annual Report on the administration of Road Fund in the districts of this division for the cess year ending 30th September 1884, and to forward the district reports and accounts in original, together with a general abstract of the accounts for the whole division.

An abstract of the particulars regarding the meetings of the District Road and Branch Committees in the Regulation Districts of this division during the year under report is also enclosed.

2. The reports and accounts were received in this office on the dates noted on the margin. As usual the delay was in Chittagong and it is attributed to non-receipt of the Annual Accounts of the Road Cess Collection Office and Cox's Bazar Branch Committee on account of which the figures could not be compiled and laid before the Committee for approval.

Chittagong, 11th March 1885.
Noakhally, 8th December 1884.
Tipperah, 14th ditto ,,
Hill Tracts, 13th February 1885.

3. The statement below shows the attendance of the members of the District and Branch Road Committees as compared with that of the preceding year.

COMMITTEE.	CESS YEAR ENDING 30TH SEPTEMBER 1883.				CESS YEAR ENDING 30TH SEPTEMBER 1884.			
	Members.		Number of meetings held.	Average attendance at meeting.	Members.		Number of meetings held.	Average attendance at meetings.
	Official.	Non-official.			Official.	Non-official.		
Chittagong	5	15	8	10·4	5	15	10	8·2
Cox's Bazar	2	4	5	4·2	2	4	4	3
Noakholly	5	12	10	5·7	5	12	10	6
Feni	2	10	4	2	2	9	6	6
Tipperah	5	11	9	6·8	5	11	9	6
Brahmanbarriah	6	12	4	6·25	6	12	4	5·25
Chandpur	6	15	7	9	6	21	7	10
Muradnagar	2	18	6	9·6	2	19	7	8·5
Chowdagram	4	13	6	8	3	11	6	8·1

The above statement shows that Cox's Bazar, Feni, and Chowdagram were the only places where the attendance averaged 50 per cent. or over. In the head-quarters Committees the results are worst in Noakhally and best in Chittagong, but all three districts show badly.

4. The total revenue of the division for the year under report amounted to Rs. 2,84,831-2-1. This, together with the unexpended balance of the previous year and the receipts on account of advances and deposits, gave a total income of R. 4,03,149-2-5 available for expenditure during the cess-year under report against Rs. 4,03,360-1-8 in the previous year. Out of this sum, the total disbursements including advance and deposit repayments amounted to Rs. 3,22,644-15-5 against Rs. 315,829-13 in the year 1882-83, leaving a balance in hand of Rs. 80,504-3 against Rs. 87,530-4-8 in the previous year.

5. In Chittagong a very large amount was spent under the head of "Repairs." The construction of roads in this district is very costly on account of the supposed necessity for bridging the numerous hill streams crossed by them. I believe most of these could be made perfectly fit for traffic by a causeway and judicious widening at the point of crossing.

The Road Cess Committee shoud be compelled to spend at least the amount got from canal tolls on canals, until they are put in good order. The canals of this district are infinitely more important as traffic routes than its roads. In fact the Balookhali, Palkador, Banskhali, Chandkhali, and Boalkhali represent the only means of communication between the north and south of the district during the south-west monsoon for all except foot traffic, carts being unknown in that part of the district. The sum proposed to be spent on village roads appear to me out of all proportion to the income of the district and to the imperfect state of repair of the Trunk Roads.

My own view, which I hold very strongly, is that every rupee spent on village roads until the trunk systems are complete is wasted; but I am aware this is not the opinion held by Government.

The Chairman does not report whether the accounts were audited monthy: he will be asked to do so.*

Tipperah.—I have nothing to add to the report. The cause of the large amount of balance is explained and is sufficient. The accounts are in good order and free from outstanding balances.

Noakhally.—In this district as in Chittagong there is nothing to show that the accounts were audited monthly, and the amount of advances is far too great, as is also the case in Chittagong.

* Report since received stating that the accounts of both the District Road Cess Committees of Chittagong and Noakhally were audited monthly during the year ending September 1884.

Municipality of Madras.

DEBENTURE LOAN.

UNDER section 209 of (Madras) Act I of 1884, the Governor in Council of Fort St. George has given sanction in order No. 487, Financial, dated 9th March 1885, and in order No. 11M, dated 10th April 1885, for a Debenture Loan of three hundred thousand rupees on the security of the rates and taxes levied under the said Act. The Municipal Commissioners are therefore prepared to receive tenders for this loan, which will be expended in carrying out the drainage project in Black Town.

2. Debentures will be issued for the said amount bearing interest at the rate of five per cent. per annum payable half-yearly on the 18th September and 18th March of each year, and having a currency of thirty years.

3. The form of Debenture Bonds will be that given below. Each Debenture will be issued for the sum of Rs. 100, or some multiple of Rs. 100.

4. Tenders for the whole or any part of the above named sum of three hundred thousand rupees will be received by the President of the Municipal Commission up to noon on the 18th July 1885.

5. Each tender should be in the form hereto annexed and enclosed in a sealed cover superscribed "Tender for Municipal Loan, 1885," and sent to the Municipal Office addressed to "The President, Municipal Commission, Madras."

6 The tenders will be opened by the President at the Municipal Office at noon on the 18th July 1885; a minimum rate, below which no tenders will be accepted, having first been fixed by the President.

7. Parties tendering must pay direct to the President or into the Bank of Madras to the credit of the Municipal Fund, or must deposit with Messrs. H. S. King & Co., 45, Pall Mall, London, S.W., a sum equivalent to two per cent. of the amount tendered. If the deposit be paid into the Bank of Madras or lodged with Messrs. H. S. King & Co., the banker's receipt must be forwarded with the tender.

8. If the tender be accepted, the deposit will be taken in part payment, but it will be forfeited if, after the acceptance of the tender, the allotment is not fully paid up on or before the 18th September 1885.

9. Debentures will be issued as soon as possible after receipt of the amount of allotment.

10. The deposit on tenders which may not be accepted will be returned on application

11. In the case of two or more tenders at the same rate (not being below the minimum), a *pro ratâ* allotment will, if necessary, be made.

12. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

13. In order to avoid mistakes, a separate tender must be made at each rate tendered and a separate deposit must accompany each tender.

14. The annual income from the rates and taxes, which will form the security for the loan, amounts to Rs. 7,90,000. Loans which have already been raised on the same security are as follows:—

	Annually. Rs.		
Water Works Loan of 1869, Rs. 14,30,000, interest at 4 per cent., payable to Government ...	57,200	Repayable in 30 years by a Sinking Fund, at 2 per cent.	
Market Loan of 1879, Rs. 20,000, interest at 6 per cent., payable to debenture-holders	1,200	Ditto	ditto.
Water Works Loan of 1882, Rs. 25,000, interest at 5 per cent, payable to debenture-holders ...	12,500	Ditto	ditto.
Drainage Loan of 1882, Rs. 1,00,000, interest at 5 per cent., payable to debenture-holders ...	5,000	Ditto	ditto.
Drainage Loan of 1883, Rs. 3,00,000, interest at 5 per cent., payable to debenture-holders ...	15,000	Ditto	ditto.
Total ...	90,900		

G. T. MACKENZIE, President.

Municipal Office, Madras, 24th April 1885.

FORM OF TENDER.

I hereby tender for Rupees of the loan advertised in the notification of the President of the Madras Municipality, dated 24th April 1885, and agree to pay the same subject to the conditions notified at the rate of Rupees for every Rs. 100 allotted to me. I enclose (a cheque, currency notes or the banker's receipt for) Rupees , being 2 per cent. on the amount of my tender, and engage, if my offer be accepted, to pay to the account of the Municipal Fund in the Bank of Madras the sum allotted to me on or before the 18th September 1885.

RESOLUTION ON THE REPORT ON ROAD AND PUBLIC WORKS CESS OPERATIONS FOR THE CESS YEAR 1883-84.

FINANCIAL DEPARTMENT—ROAD AND PUBLIC WORKS CESS.

Darjeeling, the 5th May 1885.

RESOLUTION.

READ—

The Report of the Board of Revenue on Road and Public Works Cess operations for the cess year 1883-84.

Read again—

The Report for 1882-83 and the Resolution recorded upon it.

As in the preceding year, the Public Works cess was levied at the maximum rate in all districts where the Act is in force, and the road cess at maximum rates in all districts except Backergunge, where it was levied at half rates. The following statement compares the results of the year with those of the three preceding years:—

	DEMAND.			BALANCES.			Deduct remissions.	Net arrears.	Percentage of net balance on gross demand.
	Current.	Arrear.	Total.	Current.	Arrear.	Total.			
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
1880-81	69,14,587	9,22,041	78,36,628	10,06,326	1,84,826	11,91,152	17,523	11,73,629	14·9
1881-82	70,10,994	11,71,062	81,82,056	9,54,818	1,92,233	11,47,051	10,941	11,36,100	13·8
1882-83	73,10,811	11,42,296	84,53,107	10,09,330	1,77,390	11,86,720	27,940	11,58,780	13·7
1883-84	73,75,697	12,60,272	86,35,969	13,56,778	2,64,196	16,20,974	26,903	15,93,081	18·4

The current demand under the head of Road Cess rose from Rs. 36,08,459 in 1882-83 to Rs. 36,40,856 in 1883-84, while the Public Works cess rose from Rs. 37,02,352 to Rs. 37,34,841. The percentage borne by the net balance outstanding at the close of the year to the gross demand rose from 13·7 in 1882-83 to 18·4 in 1883-84. This unsatisfactory result is attributed by the Board "partly to scanty crops, partly to the fact that the last day for payment of the September instalment fell within the Doorga Poojah holidays, so that collections could not be made till after the cess year had closed, and partly to the inclusion of the demand from rent-free holdings in certain districts with retrospective effect." The first two of these causes, of which the second is the most important, must be accepted as valid. The third cause, however, merely shifts the need for explanation one step backward.

2. The three tests to which the collections should be subjected in order to measure the success or failure of the year's operations are—(1) comparison of the arrear collections with arrear balances; (2) comparison of current collections with net current demand; and (3) comparison of advance payments with those made in the previous year. As remarked in the Resolution of last year, the first two tests are the most important. In the following districts the arrear collections were less than 90 per cent. of the arrear demand:—

	Percentage of arrear collection on arrear demand.	Percentage of current collection on current demand.
Burdwan	33·3	77
Balasore	53 0	82·8
Hooghly	63 4	57
Cuttack	65·3	87·6
Bankoora	68·3	88·8
Durbhunga	68·6	69·4
Patna	69·3	84·3
Dacca	71·1	60 9
Mozufferpore	71 5	75·9
Furreedpore	73·4	66 9
Moorshedabad	78·5	87·5
Monghyr	79	82 2
Bhagulpore	81·5	87·4
Nuddea	81·6	86
Midnapore	86 1	69
Chittagong	87·4	82
Shahabad	87·5	74·5

The figures for both arrear and current collections work out very badly in Burdwan and Hooghly. This circumstance is attributed to the inclusion of three years' arrear demand from petty lakhiraj holdings brought for the first time under assessment under section 70 of the Act. The increase in the demand from this source is said to be large and to be almost entirely due in small sums, which are only paid under coercion. In the Burdwan district the total accumulated demand from these rent-free holdings amounted to a lakh of rupees, while the collections only amounted to Rs. 19,538. The Collector remarks that, if this demand had not been added during the year, the percentage of arrear collections on arrear demand would have been 66, and of current collections on current demand 93·04 per cent. The Board justly remark that even these figures would have been unsatisfactory in regard to the liquidation of the arrear balance. The collections in the Nuddea district have also been affected by the same cause as in Burdwan and Hooghly. The provisions of the Act under which rent-free holdings are brought under assessment are being extended to most of the other districts of Bengal, and this will result in a considerable increase in the demand of cess from rent-free holders, who now altogether escape payment. It is at the same time necessary to guard against the demand being allowed to accumulate into a balance which, in the lapse of time, will become unrealizable. As soon as the demand is ascertained, unremitting exertions must be made to realize it. The difficulty lies in the inclusion of the three years' balances as an initial demand in accordance with the provisions of the Act, and the Board think that, in the interest of the cess collections, it might possibly be advisable to forego this amount. The Board would, however, wish to gain the benefit of further experience before submitting any proposal for the amendment of the law in this particular.

3. In the realization of the current demand, the worst results were obtained in Hooghly (57), Dacca (60·9), Furreedpore (66·9), Midnapore (69), and Durbhunga (69·4). In the following districts also, where the arrear collections were good, the current collections fell below 90 per cent. of the demand, viz. Sarun (71·2), Backergunge (73·7), Chumparun (73·8), Gya (80·5), Jessore (82·3), Dinagepore, (85·6) Tipperah (86·4), Beerbhoom (87·1) 24-Pergunnahs (87·9), Pooree (88·4), Maldah (88·5), Khoolna (89·2), and Rungpore (89·9). The districts in which the percentage on both the current and arrear demand exceeded 90 per cent. are Lohardugga, Noakhally, Rajshahye, Mymensingh, Manbhoom, Hazaribagh, Julpigoree, Pubna, Purneah, Bogra and Darjeeling.

4. The advance collections made during 1883-84 amounted to Rs. 1,10,137 against Rs. 1,32,342 in the preceding year. The districts in which such collections exceeded Rs. 5,000 are Bhagulpore (Rs. 13,758), Durbhangah (Rs. 11,402), Mozufferpore (Rs. 7,567), Gya (Rs. 7,133), Patna (Rs. 7,679), Mymensingh (Rs. 7,452), Dacca (Rs. 6,974), and Hooghly (Rs. 5,308).

5. There was a further reduction during the year in the number of certificates filed under the Public Demands Recovery Act. The number of fresh certificates filed for the recovery of cess arrears was 74,674, which, with the 37,859 pending at the close of the previous year, gave a total of 112,533 for disposal against 118,204 in 1882-83. Seventy-three thousand three hundred and eighty-six were disposed of during the year; in 35,971 cases payment was made on the mere issue of notice; in 10,553 on the attachment of moveable and in 17,818 of immoveable property. Of the remainder, 4,603 were struck off and 447 were cancelled on objection, leaving 3,994 cases in which other measures had to be taken. It is reported that in 428 cases only was it necessary to resort to the actual sale of property. The smallest number of certificates filed was in the Chota Nagpore (511), Presidency (2,958) and Rajshahye (3,190) Divisions.

In paragraph 6 of the Resolution recorded on the Report for 1881-82, the question was raised whether, in view of the comparatively small number of cases in which the coercive functions of the Public Demands Recovery Act were brought into play, some measures could not be devised to relieve the district officers in some degree from the enormous mass of clerical labour involved in the present system. The Board had suggested an optional procedure under which, in the case of petty arrears, the Collector should be able to realise at once, by the issue of summary process against moveable property only, the present procedure remaining intact to meet cases in which the arrears would be considerable; and the Lieutenant-Governor asked the Board to furnish a full report on the subject after consulting district and divisional officers. Shortly before the close of the year under review, the Board submitted a report in which they suggested that the Collector's action would be much simplified and accelerated if, in the case of demands up to a limit which might be fixed at Rs. 10, he were permitted to revert to the old procedure provided by Act X (B.C,) of 1871, and to issue summary process against the moveable property of the defaulter. The Board, however, noticed two objections to any such modification of the law: (1) the danger involved in the removal of the precautions now taken to ensure that the defaulter or alleged defaulter shall have full notice of the claim made against him, and full opportunity of bringing forward his objections; and (2) the probability that the officers of Government would be tempted to make too general and extensive a use of these summary powers. In view of these objections, and also of the amount of legislation connected with land at present before Government, the Lieutenant-Governor has decided to let the matter remain in abeyance.

6. Complete re-valuations were brought to a close in Patna, Durbhangah, and Lohardugga, with the result that the aggregate cess demand will be increased by Rs. 1,38,736. In Rajshahye also there was practically a complete re-valuation resulting in an increase in the cess demand of Rs. 9,851. Partial re-valuations have been made in Bogra, Chumparun, Khoolna, Jessore and Furreedpore. In each case the operations have resulted in an increase, more or less considerable, in the valuation and assessment of the district. The revision of re-valuations in Manbhoom noticed in last year's Resolution

has, with the exception of one pergunnah, been completed. Summary valuations have been resorted to most sparingly during the year.

7. The Board have again submitted a table showing for each district the number of estates and tenures assessed, and the number of recorded shareholders. Although endeavours were made during the year to supply more accurate information than that furnished in the preceding year, the statistics are admittedly imperfect, and must be accepted with great caution. The figures include only estates and tenures assessed with cess; and it follows therefore that all revenue-paying estates situated within the boundaries of municipalities, all revenue-free estates of which the value is less than five rupees, and all tenures of less than a hundred rupees annual value, are excluded from the statement. Such as the statement is, it shows that the total number of estates in the Province is 262,254, and the number of recorded proprietors is 1,211,519, giving on an average 4·6 shareholders to every estate. In Monghyr the number of shareholders to an estate is 10·2, while in the adjoining districts of Bhagulpore, Purneah and Maldah the numbers are only 3·0, 2·9 and 2·1 respectively. No inference of any practical value can be drawn from such varying proportions. The figures also show a total number of 1,181,218 tenures, or an average throughout the whole of Bengal of 4·5 tenures to every estate. Detailed criticism of the figures at present available would lead to no useful result.

8. The Lieutenant-Governor again desires to express his acknowledgments to the Board for the efficient supervision exercised by them during the year over this branch of the Administration.

ORDER.—Ordered that a copy of the Resolution, and of the Board's Report, be submitted to the Government of India, in the Department of Finance and Commerce, for information.

Ordered further that a copy of the Resolution be forwarded to the Board of Revenue, and copies of the Resolution and of the Board's Report to the Appointment and Revenue Departments of the Government of Bengal for information.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Secretary to the Government of Bengal.

ENDOWMENT IN AID OF MAHOMEDAN EDUCATION MADE BY SYED KAZI REZA HOSSEIN AND OTHERS.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 16th May 1885.

RESOLUTION.

READ the following papers :—

Proposal by Syed Kazi Reza Hossein, his sister and sister-in-law, to assign an estate named Sheikpoora, in the Patna district, for education of Mahomedan youths.

Letter from the Commissioner of Patna, No. 350G, dated 13th May 1884, and enclosures.

Letter to the Director of Public Instruction, No. 581T—G, dated the 4th June 1884.

Letter from the Director of Public Instruction, No. 5613, dated 20th July 1884.

Endorsement to the Commissioner of Patna, No. 1571T—G, dated the 15th August 1884.

Letter from the Commissioner of Patna, No. 876G, dated 16th December 1884, and enclosure.

Letter to the Commissioner of Patna, No. 49, dated 26th January 1885.

Letter from the Commissioner of Patna, No. 225G, dated 15th April 1885, and enclosure.

Syed Kazi Reza Hossein, a resident of the Patna City, and two ladies of his family have offered to devote an estate named Sheikpoora, in the district of Patna, as an endowment towards education of Mahomedan youths in English. The Kazi possesses a three-fourths share in the estate, the value of his share being estimated at Rs. 24,000, and the annual income, after paying the Government revenue, road cess, and the collection expenses, amounting to Rs. 1,200. The ladies own a fourth share worth Rs. 8,000. The annual income of their share, after paying the necessary expenses, is valued at about Rs. 400.

2. There was at first some uncertainty as to the terms of the documents by which the wishes of the donors might be effected, but now it has been agreed that the Kazi shall remain *mutwali* or trustee of the endowment till his death, and that during his lifetime he shall have power to expend the annual profits of the estate in the promotion of education among Mahomedan students. After his death the Government shall become trustee, and shall thenceforward be bound to devote the funds of the endowment to the objects declared in the deed, but with a discretion as regards the method which from time to time may be deemed best calculated to give effect to those objects. The Government shall also have full power, after the kazee's death, to sell the property and to convert the proceeds into Government securities, if it considers it necessary to do so, to be held as a trust fund known by the donors names, the interest being appropriated for the award of scholarships and prizes in the manner proposed in the trust deed.

3. The Lieutenant-Governor accepts with much pleasure the assignment, on the conditions specified, of the estate Sheikpoora in aid of Mahomedan education, and desires that his cordial thanks may be conveyed to Syed Kazi Reza Hossein and the ladies who join with him in establishing this endowment, for their public spirit and liberality.

The Principal of the Patna College will administer the Fund, to be formed of the sum made over by the Kazi during his lifetime. As desired by the donors, the value of the scholarships to be established will be decided by Government, and the Director of Public Instruction should now submit a report on this point in communication with the Principal of the Patna College.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Govt. of Bengal.

DETERIORATION OF THE CHANNELS OF THE HOOGHLY.

No. 446, dated Calcutta, the 21st February 1885.

From—A. P. MacDonnell, Esq., Secretary to the Govt. of Bengal, General Department,

To—The Vice-Chairman of the Port Commissioners.

In forwarding, for the consideration of the Port Commissioners and for report, the accompanying copy of a letter, dated the 14th February 1885, from Messrs. Gladstone, Wyllie and Company, on the subject of the deterioration of the channels of the river Hooghly, I am directed to say that the first point on which the Lieutenant-Governor would be glad to have the opinion of the Commissioners is whether the channels have really deteriorated. Sir Rivers Thompson understands that in some years there is less water over the bars than in others, and that during the current year they have been unusually shoal. He particularly desires, therefore, to ascertain whether the state of things prevailing this year is unprecedented, whether it is likely to be permanent, or whether an improvement may reasonably be looked for.

2. In giving their reply to the points mentioned above, the Commissioners' attention is specially requested to the possible effects on the river channels of the reclamations on the Howrah foreshore, so far as they affect the volume of tidal water passing up and down the river.

3. The Lieutenant-Governor would also take this opportunity of asking the Commissioners whether they have in contemplation any further reclamation or river improvement schemes either at Howrah or on any part of the river banks, and he desires, should any such plans be in contemplation, that he may be favoured with a statement of them in their entirety. It seems to him very desirable that at this juncture Government should be in possession of a complete statement of the Commissioners' views in this direction, and that no detailed plans should afterwards be proposed which do not find a place on the general scheme.

No. 447, dated Calcutta, the 21st February 1885.

From—A. P. MacDonnell, Esq., Secretary to the Government of Bengal, General Department,

To—The Port Officer, Calcutta.

In forwarding for report the accompanying copy of a letter, dated the 14th February 1885, from Messrs. Gladstone, Wyllie & Co., on the subject of the deterioration of the channels of the river Hooghly, I am directed to state that the first point on which the Lieutenant-Governor would be glad to have your opinion is whether the channels have really deteriorated. It is understood that in some years the bars are shoaler than in others, and that during the current year they have been unusually shoal. You are particularly requested therefore to state whether the state of things is unprecedented, whether it is likely to be permanent, or whether any improvement may reasonably be looked for.

No. 1277, dated Calcutta, the 30th March 1885.

From—Captain A. W. Stiffe, I.M., Port Officer, Calcutta,

To—The Secretary to the Government of Bengal, General Department.

I have the honour to acknowledge the receipt of your No. 447 of 21st ultimo, and in reply to report that these representations as to the state of the river Hooghly are raised periodically on what appears to me entirely insufficient grounds.

2. In connection with this subject, I beg to refer to a Government of Bengal's Resolution No. 2162, dated 30th July 1877, commenting on a very elaborate report by Colonel Stewart, and to submit the following remarks.

Para. 22 of the Resolution. I concur in the remarks of the Government that "it is clear the approaches to the port have not detorated during the last half century. It is an historical fact, as stated in Colonel Stewart's report, that 40 years ago a draught of 17 feet was thought to be the extreme limit of safety for a vessel proceeding from Calcutta to sea."

3. In paragraph 211 of Colonel Stewart's report, it is stated "that, in the evidence taken by the Committee of 1854, the pilots seem to consider that 24 feet draught was the maximum, and that vessels of that draught could *only* be taken up or down the river under *most favourable* circumstances." The Committee of 1872-73 mentions that "several vessels of 24 feet draught had lately visited the port." This, I would point out, was mentioned apparently as an exceptional kind of occurrence.

4. I beg to submit a list of ships detained in the river or "neaped" for want of water for the last four years. The number appears to fluctuate according to the year, but is not a large item. No doubt there is, *indirectly*, delay owing to vessels of heavy draught having to wait and start from Calcutta at springs during the low season; or inconvenience owing to such vessels as start on fixed dates being restricted as to draught.

1881-82	...	... 1
1882-83	...	... 7
1883-84	...	... 0
1884-85	...	... 7

5. I further submit a diagram showing the number of ships over 21 feet draught passing up or down the river since 1875-76, showing the large increase, especially in the heavier draughts. Only seven years ago the total number of vessels over 24 feet was only 19 during the year, and it is now made a cause of complaint that such vessels are detained during neap tides.

6. I would observe that the remedy is in the hands of the ship-owners themselves: there is no necessity whatever to build ships of this excessive draught, especially for this river. The largest vessel in port draws only 23 feet when deeply laden, and vessels should be designed with some regard to the trade they are intended for.

7. The two diagrams* attached show the comparative depth of water in the best track over the two principal bars for the last five years, each year being in different colours. They show a constantly changing depth, but it cannot be said there is any deterioration.

* Not printed in the Gazette.

8. To talk (as in the letter from Messrs. Gladstone, Wyllie and Company) about dredging channels through quicksand is highly unpractical: the present channels not only change in *depth* continually, but in *position* in the river, according to the seasons, and to attempt to deal *directly* with them is as impossible as to pump all the water out of the river.

9. There is, in my opinion, no prospect of the river seriously deteriorating within any period we are called on to consider practically. If large areas are reclaimed in the port or higher reaches, and the amount of tidal water passing up and down thereby diminished, it is a question whether prejudicial effect on the bars lower down the river may not result.

CALCUTTA PORT OFFICE.

No. 137, dated Calcutta, the 16th April 1885.

From—W. DUFF BRUCE, ESQ., C.E., Vice-Chairman to the Port Commissioners,
To—The Secretary to the Government of Bengal, General Department.

I HAVE the honour to acknowledge the receipt of your letter No. 446, dated the 21st February, forwarding a copy of a letter, dated the 14th idem, from Messrs. Gladstone, Wyllie and Company, on the subject of the deterioration of the channels of the river.

2. I now beg to state, for the information of Government, that a regular survey of the Port is being made, and as soon as it is completed it will be submitted together with the surveys that were made by Colonel Stewart in 1875, and a comparison of the charts will show at a glance the changes which have been produced on the channels by the works on the Howrah foreshore. For the present, however, I am in a position to state that the direct effect of those works has been the clearing away to a great extent of the "chur" which formerly existed in the middle of the river and extended from below the East Indian Railway station to Fort Point. Prior to the construction of the spurs on the Howrah foreshore, the "chur," above alluded to, was dry at low water, but now boats can pass over it freely at all stages of the tide.

3. In connection with the survey which is being made, a preliminary report has been submitted by Lieutenant Petley, the Deputy Conservator, and I beg to enclose a copy for the information of Government.

Dated Calcutta, the 28th March 1885.

From—LIEUT. E. W. PETLEY, R. N., Deputy Conservator of Port Approaches,
To—The Vice-Chairman to the Port Commissioners.

IN reply to your question as to whether the navigable channels of the Hooghly river show any marked difference this year as compared with former years, I have carefully taken up the movements of the Moyapore and James' and Mary's bars, taking these obstructions as my standard by which to reply to your question. These places are known to change and shift so often that special men are employed daily to report on the alterations, and for this reason I have made them the basis for my answer.

I have plotted the maximum and minimum water over the bars at both places since the year 1865-66, and then again plotted the least water in the best track across these bars, that is, the least water a vessel ever had to cross over with throughout each year. From these calculations I find that in both the James' and Mary's and Moyapore bars the water in the rains appear in former years to have scoured the channels deeper than at present, but the uniform height of the bars in the dry season, more especially on the James' and Mary's, are now more even and slightly deeper than 10 to 15 years ago, so that on those facts alone I am of opinion that their is fair ground for supposing that the bed of the Hooghly river has not deteriorated as compared with former years, nor have its changes been any greater than other rivers composed and formed of the same material as the Hooghly.

Below Diamond Harbour the channels as they now exist, as compared with those of former years, are unrecognizable, and to thoroughly work up the extensive changes that have happened would take up a very great deal of time; but it is within the recollection of some of our present pilots that vessels were neaped in the Gasper, there being only about 11 feet anywhere at the entrance to the river, and then again higher up the river was barred, and a small cut across the river opened out, called the Lloyd's channel, with only about 11 to 12 feet in it, and vessels crossing and getting be-calmed stood a very good chance of being wrecked on account of the direction of the channel.

Again, the inner and outer Rangafulla channels, which had been used for a number of years, was finally closed for big ships in 1872. These channels had always been a great source of anxiety to the pilots on account of the frequent and sudden changes.

The few instances I have quoted of course afford a very slight insight into the alteration of the river channels, but at present, below Diamond Harbour, we have a fine and steady channel called the Bellary opened in 1872, when the Rangafulla was closed; then follows the Huldia, Jellingham, and Dredge, all broad channels with plenty water; the Auckland channel next follows with a bar formed last year with 15 to 16 feet in it; then comes Saugor Roads, and lastly the Gasper channel, with 21 feet least water in it.

Comparing the present charts of the river with the former ones, I find nothing to lead me to consider that the river is deteriorating. Annual fluctuation in any particular channel will occur always more or less frequently, but when one channel closes another opens out, which is fully exemplified when the Rangafulla closed and the Bellary opened, or when the Eastern bar of the James and Mary closed the Western bar opened out, and was used for navigating the larger ships.

In reply to paragraph 2 of the letter under reference, it does not appear to me that the reclamation on the Howrah foreshore has in any way restricted the volume of tidal water passing up and down the channel, but rather, since these reclamations have been undertaken, the area of waterway has been improved and equalised, and we may later on reasonably expect a still further improvement in the section of the channel.

The sectional area of the river at the Hooghly Bridge, opposite East Indian Railway frontage and Government Dockyard, have been worked out with the available data at hand, and the results show as follows, taking the calculations from mean high water for the year, viz., 16 above Kidderpore dock sill :—

Hooghly Bridge.		*East Indian Railway.*		*Government Dockyard.*	
	Sq. ft.		Sq. ft.		Sq. ft.
1879	... 60,093	1879	... 67,036	1879	... 63,267
1885	... 65,203	1885	... 72,025	1885	... 68,383

These figures have been calculated by first plotting the sections and then working them out by Simpson's rule for finding the area of irregular figures; and in which Mr. Soutter of your office was good enough to check and verify them.

PILGRIMAGE TO MECCA.

The 14th May 1885.—The following Notice is republished for general information.

F. B. Peacock,
Secy. to the Govt. of Bengal.

PUBLIC NOTICE.

All persons proposing to make a pilgrimage to Mecca are hereby warned that they will be required by the Turkish Government to perform quarantine for at least 10 days on the Island of Camaran before being allowed to go on to Jeddah, during which period the pilgrims will have to provide for all their expenses. They should, therefore, make certain, in taking their passages, that the steamer starts so as to arrive at Jeddah in time for the Haj, after making due allowance for the detention at Camaran. During the quarantine at Camaran the Turkish Government require the pilgrims to pay certain fees, besides arranging for their own provisions, and ships which have evaded quarantine are not allowed to land their pilgrims at Jeddah.

Pilgrims are, therefore, warned that before starting they should see that they have sufficient funds for the expenses of quarantine and of the Haj, and for their journey back to India. The Mahomedan Vice-Consul at Jeddah, Abdur Ruzzak, suggests that each pilgrim should have at least Rs. 300 with him when he leaves India, after having paid his passage to Jeddah. No pecuniary assistance can be obtained from the British authorities at Jeddah.

Intending pilgrims should apply to the Protector of Pilgrims, Bombay, and to the Port Officer at other ports for information as to the latest safe date for sailing.

CALCUTTA, *the 19th May* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 15TH OF MAY 1885.

DURING the whole of the previous week the weather conditions in Bengal were those favourable to the production of hot-weather storms or nor'-westers, and the same conditions remained in force during the earlier days of the present week. The westerly element in the wind directions over the Province has, however, been gradually strengthening during the present week, and the area of action of the moist southerly, and of the easterly winds has gradually diminished, these winds being forced back by the advancing westerly current. At the close of the week westerly and north-westerly winds were blowing over the greater part of the Province, but easterly winds were still reported from North Bengal, and south-easterly winds were blowing at some of the stations in South-East Bengal. As has been explained several times previously, nor'-westers are probably caused by the interaction of opposing winds, which differ in force, humidity, temperature, &c., such as the currents mentioned above. It will thus be seen that while in the earlier parts of the week conditions still remained favourable for the production of local storms, and consequently of rainfall, over the greater part of the Province, as the southerly and easterly winds were driven back towards the eastern and northern districts, so also the area of rainfall steadily diminished, rain first ceasing in the western and south-western districts, till at the close of the week, the area of rainfall was practically confined to East Bengal and perhaps to parts of Orissa, where still southerly moist winds were blowing. Rain was thus fairly general in South-West Bengal, North Bengal, Behar, and in some parts of Chutia Nagpur during the first three or four days of the week, but the second half of the week has been comparatively rainless in these districts. In East Bengal rain has been general on almost every day of the week, while Orissa has also received, as might be expected, fairly general rain during a considerable part of the week.

The changes of pressure during the week have been of the usual oscillatory character, but with the gradual establishment of dry westerly winds, which has been accompanied by cessation of rainfall as above explained, and by generally increasing temperature, the tendency has been for the downward oscillations to be larger than the upward. Consequently, the large excess pressure over the Province, which was noted in last week's report, has commenced to diminish. In the previous week the average excess pressure was 0 09", while the mean pressure for the present week is only 0 06" in excess of the normal. This excess pressure is fairly evenly distributed, the extremes being from an excess of 0 08" in South Behar and Chutia Nagpur to an excess of 0 05" in East Bengal.

Temperature has continued rather low throughout the week, but, as before explained, with the gradual cessation of rainfall in the western districts, the tendency has been for temperature to increase. Temperature has, however, been still below the normal in all districts, the greatest defect having been in Chutia Nagpur and Orissa, where it equals 7° and 6° respectively. In South Behar the defect has been nearly 5°, while in South-West Bengal, East Bengal, and North Behar, the defect has been equal to about 3°.

Rainfall has been very largely above the normal for the week in Orissa, the normal fall being 0 78", and the average amount recorded having been 2 42 inches. North Bengal reports a rainfall rather above the normal. East Bengal and Behar have received about the normal fall, while Chutia Nagpur and South-West Bengal have received amounts decidedly less than the normal fall for the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 15th of May 1885:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 85 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDA.

FROM the annexed table exhibiting the mortuary statistics of the districts in Bengal for the month of March 1885, the following results have been gathered :—

1. That the deaths of 115,150 persons were recorded in these districts among their population of 66,163,884 representing an annual death-rate of 20·88 per 1,000 against 17·40 per 1,000 in the preceding month and 19·44 per 1,000 during the corresponding month of the past year.

2. That the highest death rates were reported to have occurred in the following districts :—

Districts.	Ratio per mille.	*Districts.*	Ratio per mille.
Nuddea	47·76	Noakhali	27·84
Bogra	36·00	24-Pergunnahs	27·60
Burdwan	31·32	Howrah	26·76
Rajshahye	31·20	Poori	26·76
Hughli	30·12	Serampore	25·32
Cuttack	30·00	Monghyr	25·20
Jessore	28·68	Backergunge	24·72
Pubna	28·44	Birbhum	24·12

3. That the principal diseases (specified in the table appended to this memoranda) exhibited the death-rates indicated below in comparison with the rates from the same causes during the corresponding month of 1884 :—

	Ratio per mille during—	
	March 1885.	March 1884.
Cholera	2·16	1·80
Small-pox	·24	·36
Fever	14·52	13·32
Bowel-complaints	·84	·84
Injury	·12	·12
Other causes	2·64	2·61

The noticeable fact disclosed by the above figures is that the mortality from cholera and fever had increased sensibly.

4. That while the casualties from small-pox, bowel-complaints and injury did not exceed the normal numbers generally, and the diseases classed under the head of "Other causes" proved conspicuously fatal only in Poori at the rate of 13·68 per 1,000 of its population, cholera and fever displayed their greatest activity in the following districts :—

Cholera.	Ratio per mille.	*Fever.*	Ratio per mille.
Nuddea	12·96	Nuddea	30·60

MEMORANDA.

The table annexed to this memoranda shows—

1. That during the week ending 2nd May 1885, the mean birth and death-rates of the principal Municipalities in Bengal amounted to 20·7 and 31·8 per 1,000 of population, respectively, as opposed to 24·1 and 38·5 per 1,000, respectively, in the preceding week ending 25th April, showing large decreases in the records of both events.

2. That the undermentioned Municipalities registered the highest proportions of births and deaths:—

Births.

	Ratio per mille.
Comillah	50·1
Beauleah	34·2
Poori	33·6
Gya	30·8

Deaths.

	Ratio per mille.
Burdwan	53·4
Chittagong	49·3

Patna	40·5
Durbhanga	38·5
Mozufferpore...	37·7
Jessore	36·7
Poori	35·7
Serampore	31·4

3. That the diseases specified below proved fatal at the rates exhibited opposite them:—

	Ratio per mille during the weeks ending—	
	2nd May 1885.	25th April 1885.
Cholera	7·6	10·4
Small-pox	·8	·7
Fever	10·9	14·4
Bowel-complaints	4·4	5·0
Injury	·4	·7
Other causes	7·7	7·3

indicating, chiefly, that in comparison with the preceding week the severity of cholera and fever had on the whole declined considerably.

4. That while small-pox and bowel-complaints prevailed with normal severity in all the Municipalities (excepting in Dacca, where 5·8 per 1,000 of the population died from the former cause, and in Durbhanga and Patna, where the mortality from the latter disease stood as high as 12·6 and 11·3 per 1,000 respectively), cholera, fever, and the diseases grouped under the head of "Other causes" proved most fatal to life in the following Municipalities:—

Cholera.

INCREASE.

	Tons.
Coal	154
This increase is due to one of the silk merchants having arranged to lay in stock.	
Jute	75
This increase is due to high rate in Calcutta market.	
Revenue stores	25
This increase is due to revenue stores being carried by ordinary trains.	

DECREASE.

	Tons.
Edible grains	133
This decrease is due to partial failure of paddy crops for want of rain, as well as that of pulse (*kalai*) which was damaged by sudden rise of the Ganges.	
Seeds of all sorts	115
This decrease is due to carriage by boat this year.	
Sundries	87
This decrease is due to carriage by boat	
Salt	138
This decrease is due to carriage of salt this year by river.

PORT PHILIP.

Removal of facilities for Navigation in case of War.

TELEGRAPHIC information has been received by the Government of India from the Hon'ble Premier of Victoria that at any moment it may become necessary to remove the facilities now afforded for the navigation of Port Philip in the event of war. Masters of vessels are warned to be cautious in approaching the heads, as they may find the lights on points Lonsdale and Queenscliff extinguished. No vessel would be permitted to enter during the night, but arrangements will be made for piloting vessels by day only. As electric lights may be exhibited from Queenscliff and Neapean points for defence purposes, masters of vessels are particularly warned that they are not to treat them as guiding lights.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

NOTIFICATION.

The 19th May 1885.—The following correspondence is published for information.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

REDUCTION OF HARBOUR AND LIGHT DUES AT PORT LOUIS (MAURITIUS).

No. F—7J, dated Mauritius, the 1st April 1885.

From—CHAS. BRUCE, ESQ., Colonial Secretary to the Govt. of Mauritius,
To—The Chief Secretary to the Government of Bengal, General Department.

I AM directed, by His Excellency the Governor of Mauritius, to transmit to you, for the information of the Bengal Government, copies of an Ordinance lately passed to reduce the harbour dues and to amend and consolidate the laws relative thereto.

I am also to transmit to you copies of a proclamation issued by the Governor reducing the light-dues leviable for defraying the expenses of maintaining light-houses and lights on the coast of Mauritius.

By these enactments some of the charges previously levied on vessels entering the harbour of Port Louis have been reduced, others have been totally abolished, the reductions on the whole amounting to at least 50 per cent. of the charges hitherto levied.

ORDINANCE No. 18 OF 1884-85.

AN ORDINANCE

Enacted by the Governor of Mauritius and its Dependencies, with the advice and consent of the Council of Government thereof.

To reduce the harbour dues and to amend and consolidate the laws relative thereto.

I assent.

J. POPE HENNESSY.

[L.S.]

(*10th February* 1885.)

WHEREAS it is expedient to reduce certain harbour dues levied and collected in Port Louis, and to consolidate the laws relative to such dues:

Be it therefore enacted by His Excellency the Governor, with the advice and consent of the Council of Government, as follows:—

Abolition of charges on port clearances.

3. The charges hitherto levied on port clearances are hereby abolished.

Vessels abandoned.

4. All vessels abandoned in the harbour and sold shall either be broken up or fitted for sea within six months from the date of sale, subject to a charge of Rs. 10 per diem for every day that every such vessel shall remain not broken up or not fitted for sea after the lapse of six months.

Abandoned vessels to have keepers and proper moorings.

5. The owners of vessels abandoned in the harbour shall be bound to have a keeper and two men on board of each such vessel, and to moor it securely with four bower-anchors—two ahead and two astern—in such situation as shall be pointed out by the Harbour Master. Any such owner failing to comply with the provisions of this Article shall be subject to a penalty not exceeding Rs. 500.

Tonnage how determined in certain cases.

6. For the purpose of levying the dues imposed by this Ordinance the tonnage of a vessel shall be deemed to be the tonnage denoted in the certificate of registry or other national papers of the vessel, whenever such vessel shall be of British nationality, or of any foreign country touching which a Royal Order in Council made by virtue of the Merchant Shipping Act Amendment Act, 1882, shall have directed that the vessels of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers.

Tonnage how determined in other cases.

7. In regard to vessels not within the scope of the provisions of the last preceding Article, the tonnage shall, for the levying of the dues imposed by this Ordinance, be ascertained by measurement as directed by Article 1 of Ordinance 18 of 1871, and all the provisions of the said Article shall apply to such vessels.

Governor may remit or reduce harbour dues.

8. The Governor in Executive Council shall have power to remit or to reduce the harbour dues chargeable on any vessel under this Ordinance.

To whom dues shall be paid.

9. The dues leviable under this Ordinance shall be levied by, and paid to, the Collector of Customs.

Repealing clause.

12. This Ordinance shall come into effect from the day of its publication.

Passed in Council at Port Louis, Island of Mauritius, this 3rd day of February one thousand eight hundred and eighty-five.

G. LUMGAIR,
Secy. to the Council of Government.

PUBLISHED by order of His Excellency the Governor.

CHAS. BRUCE,
Colonial Secretary.

PROCLAMATION No. 6.

IN the name of Her Majesty Victoria, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, Empress of India, &c., &c., &c.

J. POPE HENNESSY.—*By His Excellency* SIR JOHN POPE HENNESSY, K.C.M.G., *Governor and Commander-in-Chief in and over the Colony of Mauritius and its Dependencies, &c., &c., &c.*

(Seal.)

WHEREAS it is provided by Ordinance 22 of 1885, entitled an Ordinance "For providing ways and means for defraying the expenses of maintaining light-houses and lights on the coast of Mauritius" that the Governor may, with the advice of the Executive Council, reduce the light-dues leviable on vessels entering the harbour, or discharging or shipping cargo or immigrants in the roadstead of Port Louis.

And whereas it is expedient to reduce the rate of R. 0.09 now leviable as light-dues on such vessels:

Now therefore in virtue of the powers in me vested as aforesaid, and with the advice of the Executive Council, I do order and proclaim that from and after the date of this proclamation the rate R. 0.09 per ton now leviable for light dues on such vessels as aforesaid shall be and is hereby reduced to R. 0.05 per ton.

GOD SAVE THE QUEEN!

Given at Government House, Mauritius, this 14th day of February 1885.

By command of His Excellency the Governor.

INSTRUCTIONS FOR THE GUIDANCE OF ENGINE-DRIVERS IN CHARGE OF SMALL STEAMERS AND STEAM LAUNCHES.

BENGAL MARINE CIRCULAR.

GOVERNMENT OF BENGAL, GENERAL DEPARTMENT.

Calcutta, the 1st July 1884.

THE following circular is published for the guidance of officers and engine-drivers entrusted with the charge of small steamers and steam launches.

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

Instructions for Engine-room Artificers, Leading Stokers, and others in charge of machinery of steam-boats on detached service.

A COPY of these instructions is to be carried by every person who may be in charge of the machinery of a steam-boat on detached service, and all men in these boats are to be made thoroughly acquainted with these instructions.

1. Fresh water, distilled water if possible, is to be used for filling and feeding the boiler. When the fire is lighted, there is not to be less than 5 inches of water over the top of the fire-box, which may be blown down to 4 inches just before getting under way, unless the boat is required for continuous steaming for some considerable time at a low power.

2. Steam is to be raised very slowly, except in cases of urgency.

3. When the fire is lighted, drain the steam pipes and cylinders, and then open the stop valves a little to warm gradually the cylinders and cylinder jackets.

4. Lift the safety valves occasionally whilst getting up steam.

5. Clear the cylinders of water before starting, and keep the jackets clear of water at all times.

6. Keep the water level in the boiler constant, and blow through the water-gauge cocks occasionally.

Note.—The middle sentence refers only to condensing engines.

7. Use both main feed pumps. If the pumps are not drawing, the hands of the feed pump pressure gauges will be stationary and the hot-well will overflow: get the pumps to work by opening the pet-cocks.

8. If no cocks are fitted in the feed delivery pipes, the feed pump air-vessels are not to be taken off while steam is up, before it is ascertained by disconnecting the pressure gauge on the feed pipe and opening its cock that the non-return valve on the boiler is shut.

9. If the boiler primes, ease the engines as much as possible.

10. Fill up the fresh tanks at every available opportunity.

11. Sea water is not to be used in the boiler, except on emergency. When it is used the density is not to exceed 20 or $\frac{2}{32}$, and the boiler is to be opened and cleaned as soon after as possible. A salinometer is to be demanded for every launch that is not already provided with one, if she at any time runs in salt water.

12. The boiler is not to be emptied by blowing out.

13. The boiler is not to be emptied, except for examination, cleaning, or repairs, and the water is to be changed as seldom as possible while it remains clean.

14. The fire is not to be kept laid if the boiler is empty.

15. When the engines are no longer required, the cocks and valves are to be closed and if there is no objection, the fire is to be allowed to die out.

16. If the launch is attached to a steamer, the number of hours per day that the fire is alight is to be noted in the engine-room register of the ship to which the boat belongs.

FOR BOATS NOT FITTED WITH FRESH-WATER TANKS.

As many of the foregoing instructions as will apply, and—

17. Great care is to be taken to prevent an accumulation of deposit in the boiler, and boiler composition is to be regularly used to prevent the formation of scale.

18. In salt water a depth of water approximately equivalent to the length of the gauge glass will require to be blown off by the brine cocks every two hours.

19. The boiler is to be opened out at least once a month to clean out accumulation of mud, &c., or as much oftener as the state of the water used renders it necessary. If very muddy, once a week will be required.

GENERAL.

20. The funnel should be kept covered.

21. The engines to be turned round by hand daily when steam is not up.

THE Calcutta Medical College Session 1884-85 will commence on the 23rd June next Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten (10) free presentations will then be awarded. These are given to students according to their relative position in the University B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as matriculated students of the College who has not previously passed the First Arts Examination of the Calcutta University, or some one of the preliminary Arts Examination of the United Kingdom recognized by the British General Medical Council.

4. All matriculated students of the College are required to pay Rs. 15 on entrance, Rs 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year.

5. Students who have failed to pass their final examination and who, under the regulations of the University, are required to attend a further course of lectures and of hospital practice before being allowed to present themselves again for examination, will pay for such further course an annual fee of Rs. 45 in two instalments of Rs. 30 and Rs. 15, payable at the beginning of the summer and winter sessions respectively.

6. Any matriculated student of the College may, with the permission of the Principal and the Professors of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and he shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he has really studied the subject. The fees payable in advance for such additional courses are the following:—

	Rs.
For a single course of lectures on each subject	40
For six months' attendance in each department of hospital practice ...	60

7. Any matriculated student who leaves the College before completing his University course with the object of continuing his studies at a Medical School in Europe may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

8. Any person not being a matriculated student of the College who may be desirous of attending any course of lectures or any department of hospital practice may do so with the permission of the Principal and Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 6.

If such student has passed the Entrance Examination of the University, he may receive certificates of attendance at lectures, provided the Professors are satisfied that he has attended the full course of lectures, and has mastered the subjects taught.

A student who has not passed the Entrance Examination will be entitled to no certificates of any kind.

9. College scholarships, prizes, and certificates of Honour are open for competition only to matriculated students of the College Hospital apprentice class and Female Certificate class.

10. No fees are payable by the holders of the Calcutta Medical College scholarships.

The holders of the Doorga Charan Laha and all other scholarships will be required to pay fees as a matriculated student. These scholars may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

11. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligent prosecution of his studies.

12. The offices of class assistant, clinical clerk, dressers, &c., can be held only by students whose names are on the rolls of the College.

Sarun Collectorate, the 18th May 1885. A. FORBES, Offg. Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estate situate in the sub-division of Dinapore in the district of Patna will be put up to sale on the spot (at the estate) at 8 A.M. on the 13th July 1885 corresponding with 16th Assar 1292 Fusli.

The purchaser will be subject to the following conditions of sale—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number in statement of Government estates.	Number on the district roll or towzi number.	Name of estate and pergunnah.	Share which will be put up to sale.	Approximate area in local bighas.	Government revenue or sudder jumma of the entire estate.	Jumma khari of the share which will be put up to sale.	Deduct Government revenue of the share which will be put up to sale.	Net income. In the Court of the Additional District Judge of 24-Pergunnahs.

EXECUTION CASE No. 6 OF 1884.

Decree-holder Govind Chunder Addy.
Judgment-debtor Jogendranath Sircar, &c.

TO be sold, on the 1st of June 1885 at 12 o'clock noon, by the Nazir of the District Judge's Court of 24-Pergunnahs, in the Court-house, the undermentioned properties of the judgment-debtors—

Description of Properties.

1. District 24-Pergunnahs, pergunnah Magoorah, thana and sub-registry Alipore, mouzah Chetlah:—an undivided 10 annas 6 gundas 2 kara 2 krant share of a plot of lakraj land, measuring 6 bighas in area, including tanks, buildings, trees, &c., known as the auction purchased land of the debtors on account of Panchoo Mistry. The land is occupied as hat for selling goats, foul, and pigeons. Of the entire 16 annas of the property, the decree-holder having purchased the one-third undivided share of one of the original debtors, Lalit Mohun Sircar, has released that share from attachment, so that the remaining two-third share will be sold.

Boundaries.

East.—Land of hat Chetla and buildings of Furrok Hossein.
North.—Public road.
West.—Lane and Chunder Bewa's house, and the auction purchased land of Brojendra Kumar Mundle.
South.—Torap Mistry's garden, now in the possession of Munshi Erlanoolla and others, and also the auction purchased land of Durga Sunderi Debi.

2. In mouzah Chetla aforesaid, a plot of 11 bighas 7 katas of land, 7 bighas 7 katas of which is rent-paying and 4 bighas lakraj, lying in Mr. Maddock's garden to the west of what the decree-holder purchased at auction, together with the broken one-storeyed house and two-storeyed stables and the materials thereof, as also the tanks and trees therein. The annual rental payable for the rent-paying land is Rs. 21 to the zemindar Ram Kisto Roy and others. The extent of interest to be sold is an undivided two-third share as in the preceding lot - that is to say, the interest of Lalit Mohun Sircar will not be sold.

Boundaries.

East.—Decree-holder's auction purchased land.
North.—Buklall Shaha's garden.
South and West.—Government public road.

3. In mouzah Chetla aforesaid, within taluq 1069, and within Chandney Mahal, a plot of 1 bigha of rent-paying land with the family dwelling house of the debtors and all its appurtenances. The interest to be sold is a two-third share, excluding the other undivided one-third share of Lolit Mohun Sircar.

Boundaries.

East.—Tolly's Nullah and towing path.
North and South.—Land of hat Chetla.
West.—Lane and land hat Chetla.

PART III.

Act of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[First Publication.]

THE following Act passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 6th April 1885, and having received the assent of His Excellency the Governor-General on the 15th May 1885, is hereby published for general information:—

ACT No. I OF 1885.

An Act to regulate Ferries in Bengal.

Preamble.

WHEREAS it is expedient to regulate Ferries within the territories subject to the Lieutenant-Governor of Bengal: It is enacted as follows:—

Preliminary.

Short title.

1. This Act may be called the "Bengal Ferries Act, 1885."

Extent and commencement of Act.

2. It shall extend to all the territories subject to the Lieutenant-Governor of Bengal:

And it shall come into force on such date as the Lieutenant-Governor may, by notification in the *Calcutta Gazette*, appoint in this behalf.

Regulation VI of 1819 and Bengal Act I of 1866 repealed.

3. Regulation VI of 1819 and Bengal Act I of 1866 are hereby repealed; but all determinations, declarations, orders, and rules made, engagements entered into, and securities taken, under such Regulation and Act shall be deemed to be respectively made, entered into and taken under this Act.

Act not to apply to municipal ferries.

4. Nothing in this Act contained shall apply to any ferry deemed or declared to be a municipal ferry under the provisions of the Bengal Municipal Act, 1884.

Interpretation.

5. In this Act, unless there be something repugnant in the subject or context,—

"Commissioner."

"Commissioner" means the Commissioner of a Division.

"Ferry."

"Ferry" includes a bridge of boats, pontoons or rafts, a swing-bridge, a flying-bridge, a temporary bridge, and a landing stage.

"Notification."

"Notification" means a notification published in the *Calcutta Gazette*.

"Private ferries."

"Private Ferries" includes all ferries other than those declared to be public ferries, or established as such, under section six of this Act.

PART I

PUBLIC FERRIES.

Power to declare, establish, define, and discontinue public ferries.

6. It shall be lawful for the Lieutenant-Governor from time to time to—

(*a*) declare what ferries shall be deemed public ferries, and the respective districts in which, for the purposes of this Act, they shall be deemed to be situate;

(*b*) take possession of a private ferry and declare it to be a public ferry;

(*c*) establish new public ferries where, in his opinion, they are needed;

(*d*) define the limits of any public ferry;

(*e*) change the course of any public ferry, and

(*f*) discontinue any public ferry which he deems unnecessary.

Every such declaration, establishment, definition, change or discontinuance, shall be made by notification:

Provided that, when any alteration in the course or in the limits of a public ferry is rendered necessary by changes in the river on which such ferry is established, such alteration may be made, by an order in writing, by the Magistrate of the District.

Control of public ferries vested in the Magistrate of the District.

7. The control of all public ferries shall be vested in the Magistrate of the District, subject to the direction of the Commissioner.

Superintendence of public ferries.

8. The immediate superintendence of every public ferry shall be vested in the Magistrate of the District in which such ferry is situated, or in such other officer as the Lieutenant-Governor may, from time to time, either by name or by official designation appoint.

And such Magistrate or officer shall, except when the tolls at such ferry are leased, make all necessary arrangements for the supply of boats for such ferry, and for the collection of the authorized tolls leviable thereat.

Ferry-tolls may be leased by auction.

9. The tolls of any public ferry may, from time to time, be leased by public auction for such term as the Magistrate of the District in which such ferry is situated may, with the approval of the Commissioner, direct.

The Magistrate of the District or the officer authorized by him to conduct such auction may, for sufficient reason to be recorded in writing, refuse to accept the offer of the highest bidder, and may accept any other bid, or may withdraw the tolls from auction.

Execution of contract by lessee.

The lessee of the tolls of every ferry which have been leased under this section shall execute a contract setting forth the conditions on which the tolls of such ferry are to be held, and shall give security for its due fulfilment.

Lessee of the tolls of a public ferry and his servants bound to conform to rules.

10. When the tolls of a public ferry have been duly leased, the lessee and every servant of the lessee shall be deemed to be legally bound to conform to the rules made under this Act for the management and control of such ferry.

Provision for the establishment of subsidiary ferries.

11. On the requisition of the Magistrate of the District the person in charge of a public ferry situate in such district shall maintain at one or more places, in addition to the place at which the said public ferry is established, and within two miles therefrom, such number of subsidiary ferries as may seem to the Magistrate to be necessary for the public convenience: and all the provisions contained in this Act in regard to the management and control of public ferries shall be deemed applicable to any subsidiary ferry maintained under the requisition of the Magistrate.

Recovery of arrears from lessee.

12. All arrears due by the lessee of the tolls of a public ferry on account of his lease;

any pecuniary forfeiture for breach of contract inserted in the deed of contract or conditions of sale by public auction; and

all sums due from the lessee on the surrender of his lease under section fourteen,

may be recovered from the lessee or his surety (if any) as a demand under Bengal Act VII of 1880, or any other Act at the time being in force for the recovery of public demands.

Power to cancel lease.

13. The lease of the tolls of any public ferry shall be liable to be cancelled at once by the Magistrate of the District in which such ferry is situated if it shall appear to such Magistrate that the lessee has failed to make due provision for the convenience or safety of the public within fifteen days after being required to do so by a notice in writing from such Magistrate.

Surrender of lease.

14. The lessee of the tolls of a public ferry may surrender his lease on the expiration of one month's notice in writing to the Magistrate of the District in which such ferry is situated of his intention to surrender such lease, and on payment of such reasonable compensation as the Magistrate may, with the approval of the Commissioner, in each case direct.

Power to make rules in regard to public ferries.

15. The Magistrate of the District, with the approval of the Commissioner, may, from time to time, make rules consistent with this Act—

(*a*) for the management of all public ferries within such district, and for regulating the traffic at such ferries;

(*b*) for regulating the time and manner at and in which, the terms on which, and the person by whom, the tolls of such ferries may be leased by auction;

(*c*) for compensating persons who have compounded for tolls payable for the use of any such ferry when such ferry has been discontinued before the expiration of the period compounded for, and

(*d*) generally to carry out the purposes of this Act:

And when the tolls of a ferry have been leased under section nine, such Magistrate may, from time to time with such approval as aforesaid, make additional rules consistent with this Act—

(*e*) for collecting the rents payable for the tolls of such ferries;

(*f*) for regulating the returns of traffic to be, from time to time, submitted by the lessee of such ferries;

(*g*) in cases in which the communication is to be established by means of a bridge of boats, pontoons or rafts, or a swing-bridge, flying-bridge or temporary bridge, for regulating the time and manner at and in which such bridge shall be constructed and maintained, and opened for the passage of vessels and rafts through the same, and

(*h*) in cases in which the traffic is conveyed in boats, for regulating

the number and kinds of such boats and their dimensions and equipment;

the number of the crew to be kept by the lessee for each boat;

the maintenance of such boats in good condition;

the hours during which, and the intervals within which, the lessee shall be bound to ply, and

the number of passengers, animals and vehicles, and the bulk and weight of other things that may be carried in each kind of boat at one trip.

And may, from time to time, with such approval as aforesaid, repeal or alter such rules.

Rules made under this section shall be subject to the control of the Lieutenant-Governor, and shall be published in the *Calcutta Gazette* in such manner as the Lieutenant-Governor directs, and shall thereupon have the force of law.

Private ferry not to ply within two miles of public ferry without sanction.

16. No person shall, except with the sanction of the Magistrate of the District, maintain a ferry to or from any point within a distance of two miles from the limits of a public ferry:

Provided that in the case of any specified public ferry, the Lieutenant-Governor may, by notification, reduce or increase the said distance of two miles to such extent as he thinks fit:

Provided also that nothing hereinbefore contained shall prevent persons keeping boats to ply between two places, one of which is without, and one within, the said limits, when the distance between such two places is not less than three miles, or shall apply to boats which the Magistrate of the District expressly exempts from the operation of this section.

Claims for compensation, and what amount to be awarded.

17. Claims for compensation for any loss sustained by any person in consequence of a private ferry being taken possession of or a new public ferry, or subsidiary ferry, being established under section six or section eleven, shall be enquired into by the Magistrate of the District in which such ferry is situated, who shall, with the approval of the Commissioner, award compensation to any person who may appear justly entitled thereto. Such compensation shall be calculated upon an estimate of the annual net profit actually realized by such person from such ferry on an average of the five years next preceding such declaration, and shall in no case exceed the amount of fifteen times such net annual profit.

Tolls.

18. Tolls, according to such rates as may, from time to time, be fixed by the Magistrate of the District with the approval of the Commissioner, shall be levied on all persons, animals, vehicles, and other things crossing any river by a public ferry and not employed or transmitted on the public service:

Provided that the Lieutenant-Governor may, from time to time, declare that any persons, animals, vehicles or other things shall be exempt from payment of such tolls.

Where the tolls of a ferry have been leased under section nine, any such declaration, if made after the date of the auction, shall entitle the lessee to such abatement of the rent payable in respect of the tolls as may be fixed by the Magistrate of the District under this section.

Table of tolls.

19. The lessee or other person authorized to collect the tolls of any public ferry shall affix a table of such tolls, legibly written or printed in the vernacular language, and also, if the Commissioner so directs, in English, in some conspicuous place near the ferry:

List of tolls.

and shall be bound to produce, on demand, a list of the tolls signed by the Magistrate of the District or such other officer as he appoints in this behalf.

Tolls, rents, compensation, and fines how to be appropriated.

20. Except as provided by section thirty-five all tolls, rents, and compensation received by, or on behalf of, the Government, and all fines levied under this Act, shall be appropriated in the first instance towards the payment of all charges incurred in carrying out the provisions of this Act, and the surplus, if any, shall be credited to such fund as the Lieutenant-Governor may from time to time direct.

Compounding for tolls.

21. It shall be lawful for the Magistrate of the District in which a public ferry is situated, with the approval of the Commissioner, from time to time to fix rates at which any person may compound for the tolls payable for the use of such ferry.

PART II.

PRIVATE FERRIES.

Power to make rules in regard to private ferries.

22. The Commissioner may from time to time make rules, consistent with this Act, for the maintenance of order, and for the safety of passengers and property at private ferries situated in his division.

Rules made under this section shall be subject to the control of the Lieutenant-Governor, and shall be published in the *Calcutta Gazette* in such manner as the Lieutenant-Governor directs, and shall thereupon have the force of law.

PART III.

PENALTIES AND CRIMINAL PROCEDURE.

Penalty for breach of provisions as to table of tolls, list of tolls, and return of traffic.

23. Every lessee or other person authorised to collect the tolls of a public ferry, who neglects to affix and keep in good order and repair the table of tolls mentioned in section nineteen,

or who wilfully removes, alters or defaces such table, or allows it to become illegible,

or who fails to produce on demand the list of the tolls mentioned in section nineteen,

and every lessee who neglects to furnish any return required under section fifteen,

shall be punished with fine which may extend to fifty rupees.

Penalty for taking unauthorised toll, and for causing delay.

24. Every such lessee or other person as aforesaid asking or taking more than the lawful toll, or without due cause delaying any person, animal, vehicle or other thing, shall be punished with fine which may extend to one hundred rupees.

Penalty for breach of rules made under sections 15 and 22.

25. Every person breaking any rule made under section fifteen or section twenty-two shall be punished with imprisonment for a term which may extend to three months, or with fine which may extend to two hundred rupees, or with both.

Cancelment of lease on default or breach of rules.

26. When any lessee of the tolls of a public ferry makes default in the payment of the rent payable in respect of such tolls, or has been convicted of an

offence under section twenty-five, or, having been convicted of an offence under section twenty-three or section twenty-four, is again convicted of an offence under either of those sections,

the Magistrate of the District may, with the approval of the Commissioner, cancel the lease of the tolls of such ferry, and make other arrangements for its management during the whole or any part of the term for which the tolls were leased.

Penalties on passengers offending.

27. Every person crossing by any public ferry who refuses to pay the proper toll; and every person—

who, with intent to avoid payment of such toll, fraudulently or forcibly crosses by any such ferry without paying the toll, or

who obstructs any toll-collector or lessee of the tolls of a public ferry, or any of his assistants, in any way in the execution of their duty under this Act, or

who, after being warned by any such toll-collector, lessee or assistant not to do so, goes, or takes any animals, vehicles or other things, into any ferry-boat, or upon any bridge at such a ferry, which is in such a state or so loaded as to endanger human life or property, or

who refuses or neglects to leave, or remove any animals, vehicles or goods from any such ferry-boat or bridge on being requested by such toll-collector, lessee or assistant to do so, or

who moors any boat, raft, or other substance to, or in any way obstructs, any part of a public ferry,

shall be punished with fine which may extend to fifty rupees.

Penalty for plying within public ferry-course without license.

28. Whoever conveys for hire any passenger, animal, vehicle or other thing in contravention of the provisions of section sixteen shall be punished with fine which may extend to fifty rupees.

Fines payable to lessee.

29. Where the tolls of any public ferry have been leased under the provisions hereinbefore contained, the whole or any portion of any fine realized under section twenty-seven or section twenty-eight may, notwithstanding anything contained in section twenty, be, at the discretion of the convicting Magistrate or Bench of Magistrates, paid to the lessee.

Penalty for rash navigation and stacking of timber.

30. Whoever navigates anchors, moors or fastens any vessel or raft, or stacks any timber, in a manner so rash or negligent as to damage a public ferry, shall be punished with imprisonment for a term which may extend to three months, or with fine which may extend to five hundred rupees, or with both; and the toll-collector or lessee of the tolls of such ferry, or any of his assistants, may seize and detain such vessel, raft or timber pending the enquiry and assessment hereinafter mentioned.

Power to arrest without warrant.

31. The Police may arrest without warrant any person committing an offence against section twenty-seven or section thirty.

Magistrate may assess damage done by offender.

32. Every Magistrate or Bench of Magistrates trying any offence under this Act may enquire into and assess the value of the damage (if any) done or caused by the offender to the ferry concerned, and shall order the amount of such value to be paid by him in addition to any fine imposed upon him under this Act; and the amount so ordered to be paid shall be leviable as if it were a fine, or when the offence is one under section thirty by the sale of the vessel, raft or timber causing the damage, and of anything found in or upon such vessel or raft.

The Commissioner may, on the appeal of any person deeming himself aggrieved by an order under this section, reduce or remit the amount payable under such order.

PART IV.

MISCELLANEOUS.

Power to take possession of boats and other appliances on surrender or cancellation of lease.

33. On the cancelment or surrender of a lease, the Magistrate of the District may take possession of all boats and other appliances which have been used by the lessee in the working of the ferry; and may either retain the same permanently on payment of a fair price to the proprietor, or may retain them for such time as may be necessary, not exceeding three months, until he can make arrangements for such other boats and appliances as, may be necessary, in which case the Magistrate of the District shall pay a fair sum to the owners for the use of the said boats and appliances:

Provided that within a week of taking such possession, the Magistrate of the District shall be bound to give notice to the said lessee of his intention to retain the said boats and appliances permanently, or for a period to be specified in the notice.

Similar power in cases of emergency.

34. When any boats or their equipment, or any materials or appliances suitable for setting up a ferry, are emergently required for facilitating the transport of officers or troops of Her Majesty on duty, or of any other persons on the business of Her Majesty, or of any animals, vehicles or baggage belonging to such officers, troops or persons, or of any property of Her Majesty, the Magistrate of the District may take possession of and use the same (paying such compensation for the use thereof as the Lieutenant-Governor may in each case direct) until such transport is completed.

Management may be vested in District Board.

35. It shall be lawful for the Lieutenant-Governor to order that any public ferry situated in any district in which a District Board has been established under the provisions of the Bengal Local Self-Government Act of 1885 shall be managed by such District Board: and such District Board shall have all the powers vested in the Magistrate of the District under this Act except the powers specified in sections seven seventeen, and thirty-two, and the Lieutenant-Governor may further order that all or any part of the proceeds of such ferry and all or any

part of the fines levied, and compensation received, under this Act in respect thereof, be paid into the District Fund.

And thereupon such ferry shall be managed, and such proceeds, fines and compensations shall be paid accordingly.

The Lieutenant-Governor may from time to time vary or annul any order made under this section.

Delegation of powers.

36. The Lieutenant-Governor may, from time to time, delegate, under such restrictions as he thinks fit, any of the powers conferred on him by this Act to any Commissioner or Magistrate of a District, or to such other officer or authority as he thinks fit, by name or by official designation.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th May, 1885, and was referred to a Select Committee:—

No. 7 of 1885.

A Bill to amend the Local Authorities Loan Act, 1879.

XI of 1879. WHEREAS it is expedient to amend the Local Authorities Loan Act, 1879; It is hereby enacted as follows:—

Addition to section 8, Act XI of 1879.

1. After clause (*b*) of the proviso to section 8 of the said Act the following shall be added:—

"or

"(*c*) to affect the power conferred on any local authority by any such enactment to charge its funds by guaranteeing the payment of interest on money to be raised for any purpose to which the funds of the local authority may be applied."

STATEMENT OF OBJECTS AND REASONS.

IT is proposed that a light railway be constructed in the Tanjore District of the Madras Presidency by a Company, and that the interest on the capital to be raised by the Company for the undertaking be guaranteed by the Local Fund Board of Tanjore.

But section 8 of the Local Authorities Loan Act, 1879, prohibits any local authority from charging its funds except as provided by that Act and the rules made thereunder; and the Act provides, and the rules that may be made under it can provide, for no other means of charging funds than borrowing on their security.

It is considered desirable, therefore, that the Act should be so amended as to enable the local legislature to pass any enactment that may be necessary for authorising a local authority to guarantee the interest on money raised for any purpose to which the funds of the local authority may be applied.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FOURTH QUARTER OF 1884-85.

No. 340B, dated Calcutta, the 14th May 1885.

From—C. A. SAMUELLS, Esq., Offg. Secretary to the Board of Revenue, L.P.,
To—The Secretary to the Government of Bengal, Revenue Department.

SALT.
—
H. A. COCKERELL, Esq., C.S.I.

I AM directed to submit the following report on the state of the salt market for the fourth quarter of 1884-85, comprising the months of January, February, and March 1885.

2. The quantity of salt of every description cleared during the quarter under report amounted to 26,05,445 maunds 19 seers 11 chittacks, against 28,06,158 maunds 38 seers 3 chittacks in the previous quarter and 23,12,971 maunds 26 seers 10 chittacks in the corresponding quarter of the previous year; and the net amount of duty levied thereon was Rs 49,22,187-8, against Rs. 52,47,174-8 in the previous quarter and Rs. 43,92,616 in the corresponding quarter of the previous year.

3 The quantity of excise salt sold in the districts of Cuttack, Pooree, Balasore, and 24-Pergunnahs during the quarter under review from the stock of the different seasons' manufacture, and the quantities which remained in store at the close of the quarter, are shewn in table I—

* The Collector of Pooree having reported that 100 maunds of salt, which should have been issued from the stock of 1882-83, was issued by mistake from the stock of 1883-84 and entered against the stock of 1882-83, the necessary adjustments has been made in this statement. The figures will therefore be found to differ from the corresponding figures in the statement submitted with the previous report.

4. The above statement shews that the total sale of excise salt during the quarter under review amounted to 1,26,995 maunds, against 1,20,337 maunds 30 seers in the previous quarter and 1,32,116 maunds 22 seers in the corresponding quarter of the previous year.

* Observations for six days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the sam[illegible]riod for the past ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. The *humidity* of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sk[illegible] 10. The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "District" observations of rainfall," the normal means are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-di[illegible]nal stations for the period in question during the past 12 years. The means for the "district" are the numerical averages of the rainfall returns received from the district (i.e.), the total rainfall at the sub-divisional stations in the district sending in returns divided by the number of stations. A rai[illegible]y is one on which at least an hundredth of an inch fell.

CALCUTTA, *the 26th May* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 22ND OF MAY 1885.

In the report of the previous week, it was noted that a dry westerly wind current had gradually spread over the greater part of the Province, to a great extent forcing back the southerly and easterly winds which had previously been blowing, and thus diminishing the area of rainfall till, at the close of the week, rain showers were only reported from East Bengal, Orissa, and from a few stations in North Bengal. To a great extent these conditions were maintained during the earlier part of the present week, but for the last three or four days winds have been becoming more southerly in South Bengal, and more easterly in East and North Bengal. Weather conditions have, however, remained almost undisturbed, and except for a few fairly general showers in East Bengal, for a few showers in the hill districts of North Bengal, and for a few isolated showers in other districts, the Province has been practically rainless. With the absence of rainfall and of cloud temperature has steadily increased at most stations for the week, and thus the week has been usually characterized by high and increasing temperature, generally rather low humidity, and comparative absence of cloud and of rain showers.

The tendency of the pressure changes during the week has again been to a very small extent in a downward direction, though the fall has not been so rapid as might be expected at this season. In the previous week, the average excess pressure over the whole Province was equal to 0·06″, and during the present week the average has decreased to 0·054″. The greatest excess pressure for the week has been in Chutia Nagpur, where it amounts to almost 0·09″, while the smallest excess is reported from South-West Bengal, where it is about 0·04″

Temperature during the previous week was below the normal in all districts, but, as previously explained, with the cessation of rainfall over the greater part of the Province, and with the clear skies which have also obtained, temperature has increased rather rapidly, and it is now above the normal at a large number of stations, though taking all the stations into consideration, temperature is still below the normal in all districts except North Behar, where it is slightly in excess. The defect of temperature is, however, usually not large, and in no division does it equal 2°.

Rainfall, as has before been explained, has been quite absent in Chutia Nagpur and in North and South Behar; it has also been practically absent in Orissa and South-West Bengal, where the average amounts which have fallen do not exceed a few hundredths of an inch. In North Bengal the fall during the week has been only 0·32 inch, which is little more than a sixth of the normal fall of the week. East Bengal has received the largest fall, but this only averages 0·69 inch, which is a little less than half the normal fall of 1·48 inches. In all districts therefore rainfall has either been exceedingly scanty, or over the greater part of the Province rainfall has been practically absent.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 22nd of May 1885:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDA.

The table appended to this memoranda, exhibiting the vital statistics of the principal Municipalities in Bengal for the week ending 9th May 1885, furnishes the following particulars:—

1. That births and deaths were recorded in these Municipalities at the rates, respectively, of 23·4 and 31·0 per 1,000 of population, as opposed to 20·7 and 31·8 per 1,000 in the preceding week ending 2nd May.

2. That these events were registered at the highest rates in the undermentioned Municipalities:—

Births.

	Ratio per mille.
Comillah	61·6
Ranaghat	59·9
Bhagulpur	42·5
Durbhanga	35·4
Burdwan	30·5

Deaths.

	Ratio per mille.
Bhagulpur	58·8
Burdwan	47·3
Suburbs of Calcutta	37·4
Dacca	36·4
Patna	36·0
Serampore	35·4
Gya	35·4
Durbhanga	33·1
Chittagong	32·8
Purneah	31·1
Hughli	30·9
Monghyr	30·7
Mozufferpur	30·4

3. That the principal diseases on record proved fatal at the following rates in comparison with the rates of the preceding week:—

	Ratio per mille during the weeks ending— 9th May 1885.	2nd May 1885.
Cholera	6·0	7·6
Small-pox	·6	·8
Fever	12·6	10·9
Bowel-complaints	4·2	4·4
Injury	·5	·4
Other causes	7·0	7·7

The figures indicate mainly that there was a sensible increase of mortality from fever with a decline in fatality from cholera.

4. That of the diseases specified above, excluding injury the mortality from which was nowhere high, and bowel-complaints which proved fatal only in the Patna town at the rate of 10·4 per 1,000 of its population, cholera, small-pox, fever and the maladies classed under the head of "Other causes" caused the highest mortality in the following Municipalities:—

Cholera.

* A special census of the Europeans in the Darjiling Municipality was recently taken as the census of this section of the community, taken in February 1891, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans, above alluded to, cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

No. 600, dated Simla, the 1st May 1885.

RESOLUTION—By the Govt. of India, Dept. of Finance and Commerce.

READ the following memorandum by J. Westland, Esq., Comptroller-General, dated the 18th March 1885, describing the Indian system of account:—

Civil Account.

1. The Civil Accounts of Government contain the receipts and disbursements—

(*a*) of Revenue and Political Treasuries;

(*b*) of Civil and Political Officers and Civil Departments who, by special arrangements, are supplied from the treasuries with funds for expenditure, of which they render account. Organized Revenue Departments are not allowed to be "in account with" the treasuries in respect of their revenues—that is, the revenue can be brought to account only as actually received in an authorized Treasury Account.

2. The Civil Accountant-General (or Comptroller) is the original Account Officer in respect of the Civil Accounts, and is responsible for obtaining accounts from the treasuries, officers, and departments which are in account with him, and for compiling a single monthly account covering all their transactions. This account must work from the cash balance in the treasuries in the beginning of the month to that at the end of the month, balances of officers and departmental accounts being provided for by suspense heads.

3. Each Civil Accountant-General will exchange accounts with each other in respect of transactions passing between them. Transactions, which it is desirable to bring upon a single account for all India, will be passed through the Exchange Account upon the accounts of the Comptroller, India Treasuries. This Exchange Account must pass upon the "India" Accounts of the month to which it belongs.

Other Departments.

4. Treasury officers receive moneys from, and, upon assignments or credits from the Accountant-General, pay moneys to, the non-Civil Departments. The Civil Accountant-General takes these credits and debits to the account of the department concerned.

5. The following is a list of the non-Civil Departments with the original Account Officers of each:—

Post Office	Comptroller, Post Office Accounts.
Telegraph	Examiner, Telegraph Accounts.
Marine	Controller of Military Accounts, Bengal.
Military	Controllers of Military Accounts, Bengal, Madras, and Bombay.
Public Works	Examiners, Public Works Accounts.

[Direct correspondence between the Comptroller-General on the one side and Controllers of Military Accounts or Examiners, Public Works Accounts, is on routine matters only. On all others the Accountant-General, Military or Public Works Department, is to be addressed.]

6. Civil Accountants-General will exchange accounts with the Marine, Military, and Public Works Account officers, so as to clear their mutual debits and credits, and will furnish similar accounts to the Account Officers of the Post Office and Telegraph Departments, who will render statements of the debits and credits in those departments on account of each Civil Account Office.

7. Except in a few cases in which permission is specially given, no non-Civil Account Officer may take debits or credits to, or exchange accounts with, any other non-Civil Account Officer. Debits or credits which have to be passed on the accounts of a non-Civil Account Officer, and the responses thereto, are to be adjusted through a central adjusting account under the management of the Comptroller-General.

Monthly Accounts.

8. Each original Account Officer is responsible for—

(1) collecting accounts of all the receipts and disbursements of his department;

(2) making up a monthly detailed account of all such receipts and disbursements, and of all debits and credits passed on to him by Account Officers with whom he exchanges accounts;

(3) forwarding such accounts, either in abstract or in detail, to the Comptroller-General, Central Office. (Examiners of Public Works Accounts forward their monthly accounts to the Accountant-General, Public Works Department, who compiles them for the Comptroller-General, in four sets, one for each of the branches of the department.)

9. The Comptroller-General is responsible, as original Account Officer, for the following:—

(1) Account of transactions of Guaranteed Railways, based on cash transactions, included under a general head in the accounts of Civil Account Officers and reported by them, and on transfer transactions reported by the Accountant-General, Public Works Department. The account is rendered to the Central Office as a separate departmental account under the last rule.

(2) Account of foreign remittances, *i.e.*, of remittances of money bills, or Bank or Currency transfers, from one Civil Accountant-General to another. This account is rendered to the Comptroller, India Treasuries, under Rule 3.

(3) Accounts of the transactions of the Indian Forest Department. This is compiled for and rendered to each Civil Account Officer (excluding Madras and Bombay) and incorporated in his accounts.

10. The Comptroller-General is to print and submit to the Government of India the following monthly compilations of the accounts received by him under rule:—

(1) One for Civil Accountants-General.

(2) An appendix to the same, showing the Forest transactions.

(3) A compilation of the Guaranteed Railways accounts.

(4) A compilation of the Post Office, Telegraph, and Marine accounts.

(5) A compilation of the three Military accounts.

(6) A compilation of the four Public Works accounts.

(7) A general abstract of the whole.

And he is to see that the Civil Accounts properly work from balance to balance, and that the non-Civil Accounts properly account for all moneys they have received from or paid into the treasuries.

11. The Comptroller-General is especially to see that transactions are not left outstanding between Account Officers under the Exchange Accounts, the Central Adjusting Account, or the Account of Foreign Remittances, but that they are speedily brought to account in the monthly accounts received and compiled by him.

Account between India and England.

12. Monthly schedules setting forth the detail of debits and credits to London are to be prepared as follows, and submitted, with vouchers, to the Comptroller-General for transmission, after examination, to London:—

Nine schedules from nine Civil Accountants-General.

Three schedules from the Controllers of Military Accounts.

One schedule from the Controller of Military Accounts, Bengal, for Marine.

Four schedules from the Accountants-General, Public Works, viz:—

(1) Buildings and Roads.

(2) Irrigation.

(3) State Railways.

(4) Telegraph.

One schedule for each Guaranteed Railway.

After the third schedule of the quarter is sent in, a quarterly account has to be sent, agreeing with and quoting the three schedules. This is duly examined, and the Military Account is sent on to the India Office by the Comptroller-General (after check as to thorough mutual agreement), together with a covering abstract account embracing the whole of the transactions

13. The Inward Account from London is received by the Comptroller-General, who sends extracts therefrom to the Account Officers concerned for the necessary action, and all correspondence with the India Office takes place through the Comptroller-General.

[The Secretary of State does not communicate responding entries.]

Local Books.

14. Every original Account Officer is to maintain formal books exhibiting the transactions which pass in his accounts under the following classes of heads:—

(1) *Service heads.*—Receipts and payments on account of Revenue and Expenditure of Government.

(2) *Debt heads.*—Receipts and payments in respect of which Government becomes liable to repay the moneys received or has claim to recover the amount paid.

(3) *Exchange Account heads.*—Receipts and payments to be passed on to the accounts of other Account Officers, and debits and credits by which such items from other officers are brought on the accounts.

(4) *Account between India and England.*

15. No entries may pass into these books which have not first appeared in one of the regular monthly accounts, except—

(1) The ordinary opening and closing entries.

(2) Journal entries or corrections previously sanctioned by the Comptroller-General.

16. Service heads and account between India and England are closed to or by Government (directly or indirectly).

Debt heads are closed to or by balance.

Exchange Account heads are closed to or by Government.

Appropriation Report.

17. For Service heads each original Account Officer will submit to the Comptroller-General (Public Works and Telegraph Examiners, through the Accountant-General, Department Public Works) an appropriation report, examining each head by comparison with last year's figures, and with the Budget and Revised Estimates of the current year.

Annual Finance and Revenue Accounts.

18. The Comptroller-General (with the aid of the Accountants-General, Military and Public Works Departments) is to draw up, on the basis of the yearly accounts of the original accounting officers, the yearly accounts of the Government as required by the Secretary of State and the House of Commons, and is also to draw up a general appropriation report covering the whole area of the accounts.

Central Books.

19. The Comptroller-General is to maintain a Central Journal and Ledger, posted from the final accounts of each year received from the original Account Officers, and from such journal entries as may be sanctioned under Rule 15.

20. In Central Books, the Service heads, Debt heads, and Account between India and England will be opened and closed in the same way as in the Local Books. But the Exchange Accounts will each be posted from the accounts of both the original officers concerned, and will be closed to balance.

21. A copy of the Central Journal and Ledger, when closed, will be sent to each original Account Officer, who will see that his own closing balances agree with those posted in his account in the Central Ledger. For the Public Works Accounts, the Accountant-General, Public Works Department, will make this comparison between the Central Books on the one side and the accounts of his Examiners on the other.

Report on Balances.

22. Each original officer is responsible for the maintenance, either in his own charge or in that of some subordinate, or some officer who is in account with him, of details of the amounts due to or by Government, working up to and agreeing with his Balanced heads. He is each year to make a review of the closing balances upon his books, ascertaining if each of them is thus resolved and agreed with the recorded detail, and is to submit a copy of that review to the Comptroller-General (Public Works Examiners, through the Accountant-General, Department Public Works).

23. Each original Account Officer will also submit to the Comptroller-General a detail of the outstandings upon each of the Exchange Accounts for which he is responsible.

24. The Comptroller-General upon the closing of the Central Books will draw up a report—

(1) agreeing the technical record of the books with the published Finance and Revenue Accounts;

(2) reviewing and summarising the reports of the original accounting officers in respect of balances of Debt heads, and completing the examination so far as it relates to subjects (*e.g.*, Public Debt) in his own immediate charge.

(3) examining with the aid of the lists of outstandings of the Exchange Accounts the balances recorded in the Central Accounts under Exchange Account heads.

25. This report will be printed, and form part of the annual volume of the Journal and Ledger.

Writes-off.

26. No amounts may be written off from Balanced heads to "Government," either upon the Local or upon the Central Books, without a specific order of the Comptroller-General, and then only on the ground that the error is one of book-keeping only, and should not be debited or credited to a Service Head as loss or gain of Government. These writes-off will be shown in a separate entry (under the head Government) in the annual reviews of the original Account Officers and of the Comptroller-General.

RESOLUTION.—The Governor-General in Council directs that the procedure in matters of account as described in Mr. Westland's memorandum be adhered to by all account officers.

ORDER.—Ordered that a copy of this Resolution be forwarded to the several departments of the Government of India, to Local Governments and Administrations, to the Comptroller-General, the Comptroller of India Treasuries, to Accountants-General, and to Comptrollers for information and guidance.

Ordered also that the same be published in the *Gazette of India*.

Shoals in Northern approaches to Trinkitat Harbour.

WITH reference to Notice to Mariners No. 18 of 28th March 1885, issued by this Department, on the existence of certain shoals lying in the approach to Trinkitat *(Taring-hatah)* harbour from the Northward, Western shore of the Red Sea.

The following information, the result of an examination of the locality, has been received from Commander the Hon'ble F. C. Vereker, H.M.S. *Rambler*, through the British Admiralty, London:—

Sha'b-ul Shubuk.—A reef extending 6 cables in a North and South direction, and 3½ cables wide, having a small sand cay near the centre, forms the S. E. extreme of Sha'b-ul Shubuk; this reef is separated from the main reef by a passage two cables in width; it may be passed on the eastern side at a distance of about 3 cables.

Position of the small sand cay.—Latitude 18° 44′ 40″ N., longitude 37° 44′ 45″ E.

A shoal *(Rambler shoal)* extending 4 cables in a N. N. W. and S. S. E. direction, and 2 cables wide, with a least depth of 3 fathoms over coral, and 4½ fathoms around, lies with the sand cay on the S. E. extreme of Sha'b-ul Shubuk, bearing N. 17° E., distant 1¾ miles.

A circular coral patch *(Fairway patch)* two cables in diameter, and a least depth of 4 fathoms, lies with the sand cay on the S. E. extreme of Sha'b-ul Shubuk, bearing N. 8° W., distant 2¼ miles.

Rás Makdah is marked by the most conspicuous of the low sand hills in the vicinity, a ridge 37 feet high. The point is low, with *three small islets* lying northward of it; shoal ground extends ¾ to 1½ miles of shore. Mersa Makdah is the bight enclosed between the S. E. part of Sha'b-ul Shubuk and Rás Makdah. Anchorage in 8 to 9 fathoms, sand and mud can be found, under the lee of the reef, over the northern portion of the bight, but the southern part is blocked by the shoals extending 1½ miles northward of Rás Makdah.

Trinkitat (Taring-hatah) harbour off the entrance is an extensive coral reef, named Kat' at Kennashah, which is steep-to and always visible. Between this reef and the harbour entrance is a shoal extending, within the 5 fathoms line, 2 cables in a North and South direction and ¾ of a cable in width with a least depth of 3 fathoms. The harbour lies 2 miles S. E. of Rás Makdah. The entrance is not easily distinguished from seaward, the coast being low and sandy. Shoal ground extends 1½ cables S. E. of the north entrance point of the harbour and 3¼ cables northward of the south entrance point, narrowing the entrance within the 3 fathoms line to about half a cable. *Two* temporary *beacons* have been erected on the western shore of the harbour, which, kept in line bearing S. 55° W., lead in between the shoals with 24 feet least water. Should the becons be down, a stranger should buoy the entrance before attempting to enter.

Outside the harbour there is good anchorage in 6 to 7 fathoms under shelter of Kat' at Kennashah.

In the vicinity of the harbour the coast is low and barren, consisting of sand hillocks with scattered scrub. A sandy plain, flooded at times, extends for a considerable distance inland.

The bearings are Magnetic.

Shoal off Kumbáru Point.

THE British Admiralty, London, has notified that information has been received from the Superintendent, Marine Survey of India, of the existence of a shoal lying in the fairway of vessels navigating the coast of Kumbáru Point.

This danger *(Shah Jehan Shoal)* consists of *two patches*, having respectively 2½ and 3¼ fathoms at low water spring tides, with a depth of 4½ fathoms between them.

The shoalest patch extends half a mile in a N. W. by N. and S. E. by S. direction, with a breadth of 2 cables, and lies with the following bearings and distance :—

Rájpuri point ... ... N. by E. ¼ E.
Kumbáru point ... ... N. E. by E¼ E., distance one mile.

The other portion of the shoal is a ridge lying about a third of a mile seaward, and is about a mile in length in a direction parallel to the shore.

Position.—Latitude 18° 12′ 35″ N.; longitude 72° 54′ 0″E.

NOTE.—Vessels navigating in the vicinity should keep outside the 5 *fathoms* line.

The bearings are Magnetic.

Removal of facilities for Navigation in case of War.

TELEGRAPHIC information has been received by the Government of India from the Hon'ble Premier of Victoria that at any moment it may become necessary to remove the facilities now afforded for the navigation of Port Philip in the event of war. Masters of vessels are warned to be cautious in approaching the heads, as they may find the lights on points Lonsdale and Queenscliff extinguished. No vessel would be permitted to enter during the night, but arrangements will be made for piloting vessels by day only. As electric lights may be exhibited from Queenscliff and Nepean points for defence purposes, masters of vessels are particularly warned that they are not to treat them as guiding lights.

NOTIFICATION.

The 19th May 1885.—The following correspondence is published for information.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

REDUCTION OF HARBOUR AND LIGHT DUES AT PORT LOUIS (MAURITIUS).

No. F—7J, dated Mauritius, the 1st April 1885.

From—CHAS. BRUCE, ESQ., Colonial Secretary to the Govt. of Mauritius,
To—The Chief Secretary to the Government of Bengal, General Department.

I AM directed, by His Excellency the Governor of Mauritius, to transmit to you, for the information of the Bengal Government, copies of an Ordinance lately passed to reduce the harbour dues and to amend and consolidate the laws relative thereto.

I am also to transmit to you copies of a proclamation issued by the Governor reducing the light-dues leviable for defraying the expenses of maintaining light-houses and lights on the coast of Mauritius.

By these enactments some of the charges previously levied on vessels entering the harbour of Port Louis have been reduced, others have been totally abolished, the reductions on the whole amounting to at least 50 per cent. of the charges hitherto levied.

ORDINANCE No. 18 OF 1884-85.

AN ORDINANCE

Enacted by the Governor of Mauritius and its Dependencies, with the advice and consent of the Council of Government thereof.

To reduce the harbour dues and to amend and consolidate the laws relative thereto.

I assent.

J. POPE HENNESSY.

Exemptions.

2. No anchorage dues shall be charged on vessels entering the harbour in distress, or for repairs, if they do not break bulk, or receive cargo; or if they discharge cargo solely for the purpose of repairs, and the whole of such cargo be re-shipped, except such portion thereof as may be condemned as being damaged.

No anchorage dues shall be charged on steamers or other vessels receiving a subsidy from the Colony for the carriage of mails, or chartered either by the Imperial or the Local Government for any other purpose.

No pilotage or anchorage dues shall be charged on the following vessels:—

(*a*) British or foreign men-of-war or transports and vessels belonging to the Government of Mauritius.

(*b*) Vessels breaking bulk at the Bell Buoy, and discharging cargo to the extent of not more than 25 tons, or landing not more than 5 horses, mules, donkeys, or horned cattle; or 20 sheep, pigs, or goats.

(*c*) Immigrant vessels landing coolies or surplus stores from Bell Buoy.

(*d*) Vessels touching at Port Louis, without entering the harbour, on their way to some other port.

Abolition of charges on port clearances.

3. The charges hitherto levied on port clearances are hereby abolished.

Vessels abandoned.

4. All vessels abandoned in the harbour and sold shall either be broken up or fitted for sea within six months from the date of sale, subject to a charge of Rs. 10 per diem for every day that every such vessel shall remain not broken up or not fitted for sea after the lapse of six months.

Abandoned vessels to have keepers and proper moorings.

5. The owners of vessels abandoned in the harbour shall be bound to have a keeper and two men on board of each such vessel, and to moor it securely with four bower-anchors—two ahead and two astern—in such situation as shall be pointed out by the Harbour Master. Any such owner failing to comply with the provisions of this Article shall be subject to a penalty not exceeding Rs. 500.

Tonnage how determined in certain cases.

6. For the purpose of levying the dues imposed by this Ordinance the tonnage of a vessel shall be deemed to be the tonnage denoted in the certificate of registry or other national papers of the vessel, whenever such vessel shall be of British nationality, or of any foreign country touching which a Royal Order in Council made by virtue of the Merchant Shipping Act Amendment Act, 1882, shall have directed that the vessels of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers.

Tonnage how determined in other cases.

7. In regard to vessels not within the scope of the provisions of the last preceding Article, the tonnage shall, for the levying of the dues imposed by this Ordinance, be ascertained by measurement as directed by Article 1 of Ordinance 18 of 1871, and all the provisions of the said Article shall apply to such vessels.

Governor may remit or reduce harbour dues.

8. The Governor in Executive Council shall have power to remit or to reduce the harbour dues chargeable on any vessel under this Ordinance.

To whom dues shall be paid.

9. The dues leviable under this Ordinance shall be levied by, and paid to, the Collector of Customs.

Repealing clause. 10. The following laws are hereby repealed :—

(1) Ordinance 6 of 1852 ;
(2) Ordinance 32 of 1852 ;
(3) Ordinance 38 of 1875 ;
(4) Sections *a* to *g*, inclusive, of Schedule C, appended to Ordinance 19 of 1877 ;
(5) Ordinance 45 of 1882 ;

Short title. 11. This Ordinance shall be styled "The Harbour Dues Reduction Ordinance, 1884-85."

Commencement of Ordinance. 12. This Ordinance shall come into effect from the day of its publication.

Passed in Council at Port Louis, Island of Mauritius, this 3rd day of February one thousand eight hundred and eighty-five.

G. LUMGAIR,
Secy. to the Council of Government.

PUBLISHED by order of His Excellency the Governor.

CHAS. BRUCE,
Colonial Secretary.

PROCLAMATION No. 6.

IN the name of Her Majesty Victoria, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, Empress of India, &c., &c., &c.

J. POPE HENNESSY.—*By His Excellency* SIR JOHN POPE HENNESSY, K.C.M.G., (Seal.) *Governor and Commander-in-Chief in and over the Colony of Mauritius and its Dependencies, &c., &c., &c.*

WHEREAS it is provided by Ordinance 22 of 1885, entitled an Ordinance "For providing ways and means for defraying the expenses of maintaining light-houses and lights on the coast of Mauritius" that the Governor may, with the advice of the Executive Council, reduce the light-dues leviable on vessels entering the harbour, or discharging or shipping cargo or immigrants in the roadstead of Port Louis.

And whereas it is expedient to reduce the rate of R. 0.09 now leviable as light-dues on such vessels :

Now therefore in virtue of the powers in me vested as aforesaid, and with the advice of the Executive Council, I do order and proclaim that from and after the date of this proclamation the rate R. 0.09 per ton now leviable for light dues on such vessels as aforesaid shall be and is hereby reduced to R. 0.05 per ton.

GOD SAVE THE QUEEN !

Given at Government House, Mauritius, this 14th day of February 1885.

By command of His Excellency the Governor.

INSTRUCTIONS FOR THE GUIDANCE OF ENGINE-DRIVERS IN CHARGE OF SMALL STEAMERS AND STEAM LAUNCHES.

BENGAL MARINE CIRCULAR.

GOVERNMENT OF BENGAL, GENERAL DEPARTMENT.

Calcutta, the 1st July 1884.

THE following circular is published for the guidance of officers and engine-drivers entrusted with the charge of small steamers and steam launches.

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

Instructions for Engine-room Artificers, Leading Stokers, and others in charge of machinery of steam-boats on detached service.

A COPY of these instructions is to be carried by every person who may be in charge of the machinery of a steam-boat on detached service, and all men in these boats are to be made thoroughly acquainted with these instructions.

1. Fresh water, distilled water if possible, is to be used for filling and feeding the boiler. When the fire is lighted, there is not to be less than 5 inches of water over the top of the fire-box, which may be blown down to 4 inches just before getting under way, unless the boat is required for continuous steaming for some considerable time at a low power.

2. Steam is to be raised very slowly, except in cases of urgency.

3. When the fire is lighted, drain the steam pipes and cylinders, and then open the stop valves a little to warm gradually the cylinders and cylinder jackets.

4. Lift the safety valves occasionally whilst getting up steam.

5. Clear the cylinders of water before starting, and keep the jackets clear of water at all times.

6. Keep the water level in the boiler constant, and blow through the water-gauge cocks occasionally.

Note.—The middle sentence refers only to condensing engines.

7. Use both main feed pumps. If the pumps are not drawing, the hands of the feed pump pressure gauges will be stationary and the hot-well will overflow: get the pumps to work by opening the pet-cocks.

8. If no cocks are fitted in the feed delivery pipes, the feed pump air-vessels are not to be taken off while steam is up, before it is ascertained by disconnecting the pressure gauge on the feed pipe and opening its cock that the non-return valve on the boiler is shut.

9. If the boiler primes, ease the engines as much as possible.

10. Fill up the fresh water tanks at every available opportunity.

11. Sea water is not to be used in the boiler, except on emergency. When it is used the density is not to exceed 20 or $\frac{2}{32}$, and the boiler is to be opened and cleaned as soon after as possible. A salinometer is to be demanded for every launch that is not already provided with one, if she at any time runs in salt water.

12. The boiler is not to be emptied by blowing out.

13. The boiler is not to be emptied, except for examination, cleaning, or repairs, and the water is to be changed as seldom as possible while it remains clean.

14. The fire is not to be kept laid if the boiler is empty.

15. When the engines are no longer required, the cocks and valves are to be closed and if there is no objection, the fire is to be allowed to die out.

16. If the launch is attached to a steamer, the number of hours per day that the fire is alight is to be noted in the engine-room register of the ship to which the boat belongs.

FOR BOATS NOT FITTED WITH FRESH-WATER TANKS.

As many of the foregoing instructions as will apply, and—

17. Great care is to be taken to prevent an accumulation of deposit in the boiler, and boiler composition is to be regularly used to prevent the formation of scale.

18. In salt water a depth of water approximately equivalent to the length of the gauge glass will require to be blown off by the brine cocks every two hours.

19. The boiler is to be opened out at least once a month to clean out accumulation of mud, &c., or as much oftener as the state of the water used renders it necessary. If very muddy, once a week will be required.

GENERAL.

20. The funnel should be kept covered.

21. The engines to be turned round by hand daily when steam is not up.

SENATE HOUSE,
The 28th May 1885.

W. GRIFFITHS,
Registra

THE Calcutta Medical College Session 1884-85 will commence on the 23rd June next Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten (10) free presentations will then be awarded. These are given to students according to their relative position in the University B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as matriculated students of the College who has not previously passed the First Arts Examination of the Calcutta University, or some one of the preliminary Arts Examination of the United Kingdom recognized by the British General Medical Council.

4. All matriculated students of the College are required to pay Rs. 15 on entrance, Rs. 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year.

5. Students who have failed to pass their final examination and who, under the regulations of the University, are required to attend a further course of lectures and of hospital practice before being allowed to present themselves again for examination, will pay for such further course an annual fee of Rs. 45 in two instalments of Rs. 30 and Rs. 15, payable at the beginning of the summer and winter sessions respectively.

6. Any matriculated student of the College may, with the permission of the Principal and the Professors of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and he shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he has really studied the subject. The fees payable in advance for such additional courses are the following :—

	Rs.
For a single course of lectures on each subject ...	... 40
For six months' attendance in each department of hospital practice ...	60

7. Any matriculated student who leaves the College before completing his University course with the object of continuing his studies at a Medical School in Europe may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

8. Any person [illegible] being a matriculated student of the College who may be desirous of attending any cour[illegible]res or any department of hospital practice may do so with the permission of the Pri[illegible] and Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 6.

If such student has passed the Entrance Examination of the University, he may receive certificates of attendance at lectures, provided the Professors are satisfied that he has attended the full course of lectures, and has mastered the subjects taught.

A student who has not passed the Entrance Examination will be entitled to no certificates of any kind.

9. College scholarships, prizes, and certificates of Honour are open for competition only to matriculated students of the College Hospital apprentice class and Female Certificate class.

10. No fees are payable by the holders of the Calcutta Medical College scholarships.

The holders of the Doorga Charan Laha and all other scholarships will be required to pay fees as a matriculated student. These scholars may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

11. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligent prosecution of his studies.

12. The offices of class assistant, clinical clerk, dressers, &c., can be held only by students whose names are on the rolls of the College.
